

ED I
Announcements

Signing of the lecture book: active participation in lectures, dissection room and histology lab sessions is obligatory. Students should attend at least 75% of the scheduled hours to gain a signature proving the validity of the semester. Absences are therefore limited in **25%**.

Midterm examinations: The **anatomy** mid-terms include both identification of several structures on the specimen and theoretical questions related to the subject. The **histology** midterms include the identification of a certain number of structures in slides, as well as, theoretical questions related to the subject. The results of all tests will appear on the personal achievement cards.

Semifinal examinations consist of practical and theoretical parts

Practical examination - exemption: Every student passing both dissection room midterms will be exempted from a semifinal practical examination. The dissection mark, calculated from the midterm marks (2.0 - 2.49: **2**; 2.5 - 3.49: **3**; 3.5 - 4.49: **4** and 4.5 - 5: **5**), will be written on the personal achievement cards. Midterm failures cannot be retaken. Students, unhappy with their dissection mark, may apply in writing for a practical examination, before the end of the 13th study week, with the Course Director. These students will start their semifinal examination in the dissection room prior to the theoretical part. (**NB: when opting for a semifinal practical examination, you will lose the exemption and also may fail the examination during the practical part**)

Theoretical semifinal examination - composed of oral theoretical questions and the identification/description of one histological specimen.

Notebooks should be regularly used in **histology lab sessions** in order to prepare schematic drawings of the histological specimens. Students will be asked to present their histology notebooks, containing the drawings, during the semifinal or final exams.

*N.B. – In case, when neither the first nor the repeated takes of a semifinal exam have been successful during the summer examination period, the students may register for a CV course and sit for an exam in the following winter examination period, but they cannot continue with their studies because a **successful ANA2 exam is the prerequisite of registering for the following ANA3 semester**. Those, who opt for a regular course, will have to again register for ANA2 in the 2nd semester of the following academic year (2016/2017).*
