Head of Department

**Prof. Ágoston Szél, MD, PhD, DSc, Rector emeritus**

## ANNOUNCEMENTS

### CONCERNING THE NEW SECURITY/SAFETY MEASURES ON THE PREMISES OF THE DEPARTMENT OF ANATOMY, HISTOLOGY AND EMBRYOLOGY (INCLUDING THE GARDEN)

Herewith we inform our Students that as of **December 2, 2019** a new security system will be introduced on the premises of the Anatomy/Pathology block enclosed between Üllői út and Tűzoltó utca.

Please note, that the previously used „**main**” side entrance in the basement of the Anatomy building **will not be accessible for students** as card readers and security doors will be installed.

To prevent unauthorized trespassing between the yards of the Anatomy and Pathology/Forensic Sciences buildings a **card operated security entrance** is going to be installed. So the passage from the Üllői út side, leading through the yard of the Departments, is **going to be permanently closed down**.

**The Anatomy building may therefore be accessed only  
through the gates from Tűzoltó utca.**

We apologize for the inconveniences.  
Thank you for your cooperation!
