

Information about the Exam of Developmental Biology I. course

The exam of the Developmental Biology-I elective course will take place electronically in the Moodle system for students registered in the actual year.

Exams will be held in the Histology Practice Room, on Tuesdays and Thursdays, the exact dates are already posted in the Neptun system. Please wait in the middle corridor of the Anatomy Department (1st floor) before the exam starts and show up in the Histology lab room just at the beginning of the exam.

Without a valid and working password for the SeKA login your exam cannot be started. Before taking the exam make sure your password is working. Without a valid personal identification document you cannot start the exam.

The exam test includes „multiple choice questions” (with one or multiple correct answers), „true or false” type questions, and „drag and drop” type questions with images.

The maximum score for the test is 40 points, to pass the exam one must achieve at least 50%.

For students of CV (Dev. Biol. 2.) and FM (Dev Biol. 1. of the former years) courses the exam will be in the „traditional way”, including short essay questions chosen from the exam topics of the former (2018/2019) year courses.
