what else there is to know?

The students' changing room can be found behind the lecture hall, and is accessible through the lecture hall itself (ground floor, opposite the main entrance). Upstairs, behind the back row of chairs, at the end of the aisle beneath the clock, a spiral staircase leads you to the changing room. There you will receive your white coat, and you can leave your package and clothing in a locker. Please arrive at the second floor, Intensive Care Unit with only the tools needed for the practice (stethoscope, notes, plastic card, white coat). We cannot store your package and valuables at the ICU.
