A Kútvölgyi Klinikai Tömb megközelítése

Semmelweis Egyetem

**public transport:** bus Nr 155 and 156 from Széll Kálmán square  
(Rendelőintézet/Outpatient Clinics' stop)

**by car:** free parking in front of the Block

*location in the location*

- Kút6
- Kút2
- SUCCESS
- AKS

The Department of Anesthesiology and Intensive Therapy has several training rooms all around the Block.

- hospital building **6th floor seminar room** (scheduled as: Kút6)
- hospital building **6th floor ICU** (scheduled as: Kút2)
- outpatient clinics' building **SUCCESS** (scheduled as: KútSCS)
  - on the ground floor, to the right from the elevators, on the corridor of the cloakrooms, behind the fireproof door of the pediatric outpatient clinic.
  - inside the training area there are three training rooms
  - the rearmost is the location for HiFi-Simulation practice
  - the one to the right from the entrance is the location for CPR practices
  - the one in the middle is the location for CPR practices and online feedback
- outpatient clinics' building **AKS** (scheduled as: KútAKS)
  - on the ground floor, to the right from the elevators, on the corridor of the cloakrooms, behind the fireproof door of the pediatric outpatient clinic, to the right. „Aktív képzési stúdió” is written on the door. HiFi-Simulation practice takes place here.
  -

Each training room has a different access:

- **Kút2:** ring the bell on the 2nd floor ICU's door in the hospital building. The practice starts in the staff's lounge, from the entrance to the right hand side.
- **Kút6:** wait for your instructor in the hall, the seminar room will be opened by him/her
- **AKS:** wait for your instructor in front of the door, the training room will be opened by him/her
- **SUCCESS:** wait for your instructor in front of the door, the training room will be opened by him/her

*how to get in?*

*what else there is to know?*

Ask for a white coat in the students' cloakroom on the ground floor of the outpatient clinics' building, and deposit your belongings in the lockers placed on the corridor. White coat is necessary only for the ICU practices.
