INFORMATION ON THE 6th YEAR COMPULSORY TRAUMATOLOGY COURSE

IMPORTANT! Your course will only be accepted if your student handbook is completed, assessed and signed by your tutor!

Structure of the course:

2 weeks (10 workdays) of working together with a tutor in a Traumatology department (at least 4 consulting hours/day) at a clinic or first class Emergency Hospital.

Objectives of the course:

1. Daily participation in morning conferences.
2. Observation / assisting in operations.
3. Participation in the admitting of, examination of, management of, and emergency medical care of patients while on call. (Participation in polytraumatized admissions also.)
4. Participation in patient rounds, patient presentations, following up on conference material,
5. Participation in follow-up examinations. Practicing the examination of the range of motion, function, practicing X-ray and CAT scan evaluation. To learn to discover and treat complications.
6. Consulting with your tutor the treatment, and the follow-up treatment of recent and actual diseases.

The following should be practiced independently:

- Dressing of wounds
- Taking out sutures.
- Patient admission
- Scrubbing in, and assisting in operations
- Applying casts

Prepare a diary on the following:

- Operations in which you have assisted in.
- Casts you have applied.
- Medical reports/admissions which you have written. (In the format: Patients initials, diagnosis)
- Patients you have seen at the emergency room (especially polytrauma, abdominal-, and chest trauma).

Patient Initials:

Diagnosis:

Your comment:

Summarize your opinion and experiences gained during the course.
