

REQUIREMENTS – SUBJECT PROGRAMME

<p>Name of the educational department: Semmelweis University Faculty of Dentistry Department of Prosthodontics</p>
<p>Name of the course: Prosthodontics V.</p> <p>Type of the course: compulsory</p> <p>creditcode: FOKOFFPK253_5A</p> <p>creditpoints: 3</p> <p>weekly sessions: 3 * 45 min practices, (5th academic year, 2nd semester)</p>
<p>Lecturer of the course: Prof. Dr. Péter Hermann, Head of Department</p>
<p>Contact: Prof. Dr. Péter Hermann, Head of Department: hermann.peter@dent.semmelweis-univ.hu</p> <p>Opening hours of the Secretariat: Monday: 8:00 – 12:00 Tuesday: 8:00 – 12:00 Wednesday: 8:00 – 12:00 Thursday: 8:00 – 12:00 Friday: Closed</p> <p>Students are welcomed only in the office hours. Please be aware of it!</p>
<p>Academic year: 2019/2020./II.</p>
<p>The goals of the course in point of view of the education: To teach the theoretical background and practical prosthodontic treatment of partially or completely edentulous patient. To prepare ppt. presentation of a prosthodontic case report.</p>
<p>Topic of the lectures: There is no lecture in the second semester of the V-th year.</p> <p>Topic of the semester: The text of the last five semester of Prosthodontics. To prepare fixed and removable prosthodontics for the patients of the clinic.</p>
<p>Attendance on practices and lectures, replacement in case of missed sessions: Students must attend the weekly practices.</p> <p>No more than a 25% of the practices are allowed to be missed for any reason – not even with a doctor's note – otherwise the semester will not be accepted. Doctor's notes can only be accepted after an individual. The medical notes will be sent back to the supervisory section of the issuing medical institutions for verification.</p> <p>A student is considered to be late from the practices if he/she arrives no more than 15 minutes later than the time set by the timetable. These late arrivals are marked in the attendance sheet and if someone is late three times within a semester, it will be considered an absence. However, if someone is more than 15 minutes late from the practice, it will be already registered as an absence, but the student will be allowed to attend the practice.</p> <p>There is no possibility to replace the practices.</p>

Consequences of absence from sessions and exams:

Students must attend the weekly practices.

No more than a 25% of the practices are allowed to be missed for any reason – not even with a doctor's note – otherwise the semester will not be accepted.

Doctor's notes can only be accepted after an individual. The medical notes will be sent back to the supervisory section of the issuing medical institutions for verification.

There is no possibility to replace the practices.

In case of absence from the exam the rules of the Studies and Examination Regulation (TVSZ) are applied.

Topics dates and number of midterms (oral reports, written tests), possibilities to replace and repeat them – assessment of knowledge:

During the semester the students will get grades for oral reports or written tests. This consists of questions about the curriculum, the knowledge of the lectures and practical sessions. Compulsory written tests are carried out two-times in the semester, satisfactory grades can be given in case of a result of at least 50% or above. Written tests are carried out on the practice, the students will get the information about the exact time of the test on the first week of the semester.

Grading of the tests:

- 1: - 49%
- 2: 50% - 63%
- 3: 64% - 76%
- 4: 77% - 89%
- 5: 90% - 100%

In case of an unsuccessful test, there are two possibilities to repeat.

Written test will be held in the 1st week, and midterm will be held in the 7th week. Retaking the written test and the midterm (or in case of no show, supplementing) is possible twice during the semester. Replacement/correction of the written test would be passed in the 2nd and 3rd weeks. Replacement/correction of the midterm would be passed in the 9th and 11th weeks.

At the end of the semester, students get final grade. Students get the final grade from the valuation of their theoretical and practical work, such as behavior and attitude during the practices.

Final grade is considered unsatisfactory if the average of the test grades are not over a 2,0 average. In case of an unsatisfactory final grade (1), the semester will not be accepted. If a midterm was taken unsuccessfully, the signature at the end of the semester can not be given. Failed demonstration means, that a student receives an unsatisfactory evaluation for a demonstration (midterm exam) written in a particular topic despite the two retakes. According to the Study and Exam Regulation the exam may not be taken if the student fails to obtain such a signature.

Requirements of an accepted semester (signature of the lecturer), numbers and types of tasks for students:

At the end of the semester, students get final grade. Students get the final grade from the valuation of their theoretical and practical work, such as behavior and attitude during the practices.

Final grade is considered unsatisfactory if the average of the test grades are not over a 2,0 average. In case of an unsatisfactory final grade (1), the semester will not be accepted. If a midterm was taken unsuccessfully, the signature at the end of the semester can not be given. Failed demonstration means, that a student receives an unsatisfactory evaluation for a demonstration (midterm exam) written in a particular topic despite the two retakes. According to the Study and Exam Regulation the exam may not be taken if the student fails to obtain such a signature.

No more than a 25% of the practices are allowed to be missed for any reason – not even with a doctor's note – otherwise the semester will not be accepted.

Grading of courses:

At the end of the semester, students get final grade. Students get the final grade from the valuation of their theoretical and practical work, such as behavior and attitude during the practices.

Final grade is considered unsatisfactory if the average of the test grades are not over a 2,0 average. In case of an unsatisfactory final grade (1), the semester will not be accepted.

Type of the exam: Final exam

Requirements of the exam:

The final exam consists of the curriculum of the last five clinical semesters.

Parts of the final exam:

-Practical exam: making a treatment plan (criterion of the oral, theoretical part)

-Presentation of a case with fotodocumentation (ppt) which was prepared independently during the clinical semesters.

In case the student can't show a countersigned certificate signed by the practice leader to his/her case presentation, the student can't start the exam, cannot be issued for the examination and gets „no show” remark in the Neptun-system.

-Oral exam with theoretical questions.

The final exam has to be repeated if the grade of any part of it is unsatisfactory.

Exam registration: In case of first, failed and „no show” exam, the exam application must be done in the Neptun – system. In case of retake exam the students have to apply in the Neptun – system for the „retake exam”. In case of first, failed and passed exam the students mustn't apply for the retake exam. There is no possibility to change the type of the exams.

Rules for the modification of the exam registration:

In Neptun – system regarding the current regulation of the university and department.

Rules of absence from the exam:

Missing the final exam is regulated by the Examination Policy.
