

„UNESCO’s General Conference accepted the recommendation of the Hungarian National Commission for UNESCO to include the 150th anniversary of Ignaz Semmelweis’ death in the list of notable anniversaries celebrated internationally in 2015.

Semmelweis’ discovery of the causes of childbed fever and the introduction of aseptic prevention were recorded in UNESCO’s Memory of the World Register in 2013. The achievements of the “saviour of mothers”, the outstanding clinician and researcher earned him a fame that Semmelweis University and the whole world are righteously proud of. We have preserved and nurtured his memory and intellectual legacy with care and outmost respect.”

Department of Conservative Dentistry

Practice mark, signature

- **Evaluation: Practice mark** at the end of semester:
 - Oral exam at practices, theoretically being prepared for own patient's treatment
 - Result of tests written at the practices
 - Level and quality of practical work
 - Assisting **(Clinical practice)**
 - Result of **the midterm exam**: must be min. grade 2 (that is min. 50 %!)!!!
 - Being late (more than 25 % of time = absence)
 - The practice mark is not object of discussion
- **Refusal of signature** (= repetition of semester), if:
 - Practice mark is **fail** (1)
 - Absence more than **25%** of practices (more than 3 times!)
 - Lack of one documented and by the teacher confirmed **case report (Clinical practice)**

Department of Conservative Dentistry

Clinical Practice

- Keeping to rules of „Students Practice Room Rules” is obligatory
- Submission of case report: **13th week** of semester (except: 5th year second semester: 11th week)

Student cannot treat patient, if:

- student is not in Neptun system
- student is theoretically not prepared for treating own patient
- patient is not registered at patient reception
- patient is not in national healthcare system

Department of Conservative Dentistry

Midterm

- The midterm is a 30 minute exam at lecture (10th week)
 - Topics of the first 9 lectures of the semester and the related topics of the textbook
- Retakes:
 - Two times (time will later determined)
 - For those who have missed or failed the midterm
- Using any aiding methods means disciplinary procedure, an invalid test and a fail (1) on the midterm exam

Department of Conservative Dentistry Administration

- **Index:**

- **Practice mark:** given by practice teacher on last practice of semester, in Neptun
- **Signature:** indexes will be taken by practice teacher to Secretariat, it can be taken there next day
- Otherwise index administration is in room 705 (VIIth floor) only **8-10** every morning (to leave and next day to pick up)
