

Dear Students,

the study of Laboratory Medicine has changed as part of the new curriculum. In addition to theoretical lectures, this year there will be practical training as well, within the framework of and harmonization with the Internal Medicine study blocks. The aim of practices and associated discussions related to clinical case reports is the presentation how laboratory investigations support clinical decision making.

This academic year the lectures of Laboratory Medicine will be conducted in a blended learning program using the e-learning system. The study material and test exam can be accessed from any computer through the internet. It is mandatory to complete the theoretical material, however, it can be completed at any time during the official academic year (from the end of September, 2019 to July 17, 2020), even in divided installments.

The practices will be held on Fridays from 1 pm to 3:30 pm. Presence is mandatory and we can only accept absence as stipulated in our study and examination rules. Make-up classes are possible by prior arrangement.

The practices will be attended by students from two groups at the same time (e.g. EM1 and EM2 on 8 November), but the training will take place in 3 different rooms in the NET building, as follows:

Time: Friday, between 13h-15³⁰h

Place: A. study group L06 room

B. study group L08 room

C. study group Library on the 16th floor of NET building

In addition, a visit to the Central Laboratory Department will be organized at Üllői út78/a, Korányi building Floor 1.

Dates of practical training in Laboratory Medicine:

EM1 and EM2

W1 November 8, 2019.
W2 November 15, 2019.
W3 November 22, 2019.

EM5 and EM6

W1 March 27 2020.
W2 April 17, 2020.
W3 April 24, 2020.

EM3 and EM4

W1 January 17, 2020.
W2 January 24, 2020.
W3 January 31, 2020.
W4 February 7, 2020.
W5 February 14, 2020.

EM7 and EM8

W1 June 5, 2020.
W2 June 12, 2020.
W3 June 19, 2020.
W4 June 26, 2020.
W5 July 3, 2020.

If you have any questions regarding education, please do not hesitate to contact

Practical programs of Laboratory Medicine

| Week | Study group "A" | Study group "B" | Study group "C" |
|-----------|---|---|---|
| W1 | Laboratory evaluation of a patient with endocrine disease | Laboratory evaluation of a patient with GI-disease | Visiting the Central Laboratory |
| | Laboratory evaluation of a patient with metabolic disorders | Sick or not?" screening tests " | |
| W2 | Visiting the Central Laboratory | Laboratory evaluation of a patient with endocrine disease | Laboratory evaluation of a patient with GI-disease |
| | | Laboratory evaluation of a patient with metabolic disorders | Sick or not?" screening tests" |
| W3 | Laboratory evaluation of a patient with GI-disease | Visiting the Central Laboratory | Laboratory evaluation of a patient with metabolic disorders |
| | "Sick or not?" screening tests | | Laboratory evaluation of a patient with endocrine disease |
| W4 | Laboratory evaluation of a patient with kidney disease | Laboratory evaluation of a patient with kidney disease | Laboratory evaluation of a patient with kidney disease |
| | Laboratory evaluation of a critically ill patient | Laboratory evaluation of a critically ill patient | Laboratory evaluation of a critically ill patient |
| W5 | Consultation / Make up class | Consultation / Make up class | Consultation / Make up class |
