

Abstract Guidelines

Format requirements for abstracts:

Font – Times New Roman 12

Abstract title should be no longer than 150 characters (including spaces).

Authors should be represented with last names and first names and initials of middle names. Names of the department(s) and institution(s) related to the work should be attributed. If authors belong to several different institutions, superscript digits should be used to relate the authors' names to respective institutions.

The corresponding author should be listed separately with e-mail address.

Key words of maximum 5 should be given. Please use MeSH terms to define your keywords (<http://www.nlm.nih.gov/mesh/>).

Abstract should be structured as the follows:

Introduction:

Methods:

Results:

Discussion:

Conclusion:

Use no more than 300 words, up to 2300 characters (including spaces). The abstract shall not exceed one page with „Normal” margins.

Source(s) of research support in the form of financial support or grants should be represented.

Authors must provide information:

If it is a clinical research, Ethical Committee Approval - approval body, number and issue date.

If it is a preclinical animal research, Institutional Animal Care and Use Committee Approval - approval body, number and issue date.

Acknowledgements (examples):

Unified RECOOP Acknowledgment:

We thank Cedars-Sinai Medical Center's International Research and Innovation in Medicine Program and the Association for Regional Cooperation in the Fields of Health, Science and Technology (RECOOP HST Association) for their support of our study and our organization as a participating Cedars-Sinai Medical Center – RECOOP Research Center (CRRC).

RECOOP acknowledgment formulas

Acknowledgment #1

The study was supported by the Association for Regional Cooperation in the Fields of Health, Science and Technology (RECOOP HST Association) and the participating Cedars-Sinai Medical Center - RECOOP Research Centers (CRRCs).

Acknowledgment #2

We thank Cedars-Sinai Medical Center's International Research and Innovation in Medicine Program, and the Association for Regional Cooperation in the Fields of Health, Science and Technology (RECOOP HST Association) for their support.

Important:

Abstracts should be submitted in the following categories, please select the most relevant for your work. The supervising senior scientist shall make a recommendation for the Conference Session would fit the research in the abstract that ***should be sent in the email of submission:***

Cardiovascular Diseases (CVD)

Clinical Research: Oncology, Infections, Immunology, Quality of Life etc. (CLR)

Drug Development and Effects (DDE)

Medical Imaging (MI)

Neurodegenerative Diseases (NDD)

Nanomedicine and Nano Safety (NAMEF)

Reproductive Health (RPH)

Translational Medical Research (TMR)
