

APÁTHY ISTVÁN FOUNDATION

„Great nations create great citizens, but it is the citizens of small nations that make them great”

PREPARATION COMPETITION FOR GRANT - 2017

The purpose of the Foundation is to modernize the teaching of practical anatomy, histology and developmental biology in the graduate and postgraduate training.

1863-1922

The Chairman of the Board of Apáthy István Foundation announces a competition for grant for **students of Semmelweis University (I.-VI. years), surgical residents and staff members of dissecting rooms of morphologic Departments of the University.** The aim is to **produce quality specimens** suitable for use of demonstration in graduate and postgraduate teaching.

It is strongly advised to make **digital photo archives** of the preparations. A **written description** and its **digital version** presenting the specimen should also be attached. Applicants will be asked to shortly (max. 5 min) introduce their work, original aims and achievements, in front of an ad hoc committee. Winners should upload their thesis and the digital photos on the homepage of the Department. The specimen will also be demonstrated in the regular practical courses of the Department.

Address:

**Apáthy István Alapítvány
Kuratóriumi Iroda 2nd floor
