COMPETITION ANNOUNCEMENT

IN

ANATOMY, EMBRYOLOGY AND HISTOLOGY

The annual departmental competition will be held during the **12th** and **13th** weeks of the present semester. The competition requires knowledge and skills in object/structure identification both from images and true specimens.

TOPICS

1st year - subject matter of the 2nd semester (including the urogenital system)

2nd year - everything (subject matter of all the four semesters)

The first part of the competition is a written test, compiled from projected photographs: approx. 50% macroscopy images (human prosections + line drawings); 20% embryology images and 30% histology slides.

The test is based on knowledge gathered during your studies in the department.

Course	Time	Place
EM I	Wednesday, April 26. 7.45	Lenhossék Lecture Hall
ED I and DZ I	Wednesday, April 26. 11.00	Huzella Lecture Hall
ED II and DZ II	Wednesday, April 26. 9.00	Histology Laboratory

The second round is a macroscopy pin test and is open only to those students who have passed the 70% limit in the 1st round.

The date of the 2nd round will be announced later

Those who have passed the 70% limit in the 2nd round will be decorated with a diploma. 1st, 2nd and 3rd places will be announced.

EXEMPTIONS

1st year All students, passing 70% in both rounds of the competition, will be exempted from the **semifinal examination with a 5**

2nd year Students passing 70% in **Macroscopy** and/or **Histology** will be exempted from the **relevant** part of the final examination.
