

# ED II FINAL EXAMINATION ANNOUNCEMENTS

## Dentistry Students (regular and FM students alike)

**On the day of the examination, leave your bags in a locker and gather in front of the Histology lab 10 minutes before the starting time.** Please make sure you have the following items on you:

**ID card/student card**  
**SeKA login details** (*written down on paper – just in case*)  
**1-2 pens**  
**Histology notebook**  
**in case of a retake exam – proof of payment** (*except for the 1st retake*)

*For safety reasons you may keep your valuables (money, cards, IDs, phone etc) on you, however „large” items, or pencil cases, will be collected upon entering the examination room.*

**Phones and smart watches are not allowed to be with you during examinations.**

**ANATOMY FINAL EXAMINATIONS** will be held on Tuesdays and Thursdays during the next 7 weeks. **The exams start at 12.00 in the Histology computer laboratory (Rooms 2-3).** You will be seated down in Room 3 first and then in Room 2. 1st and Dentistry and 2nd year Medicine students will join you (as previously).

**The test is composed of 100 questions (only text) including approximately 30% of multiple choice questions. Writing time: maximum 90 minutes.**

**The questions will cover Anatomy, Histology and Embryology.**

**Passing rate: 50%**

Upon finishing the test you will be given **2 Histology slides** and an oral **Maxillofacial question** to explain. Those who passed will continue the exam with the **Morphology part in the Old Dissection room** (ground floor). Please be prepared that embryologically relevant questions may be asked in both practical parts too.

**The examination will be finished in the Dissection Room,** where a mark will be calculated from the marks gathered during the examination as well as from the dissection room mark given by the Tutor. **Exemptions will be calculated as 5 in the marks.**

**Students failing the examination, may repeat the exam „free” only once, every further attempt will be charged for.** The total number of examination seats is set (200% of the number of students in a given course), therefore „chances” left will not automatically entitle the students to enroll in an examination if the actual number of a given day/week is full. I.e., **the number of examination seats will not be increased.**

*Students not able to pass the ana4 examination during the present examination period (or in August), and still have „chances” left, may enroll in a CV course and retry the final examination in the following Winter examination period (December 2018-January 2019).*

I wish you a successful examination period!

Dr Andrea D Székely  
Associate Professor, Course Director
