

# ED II FINAL EXAMINATION ANNOUNCEMENTS

## Dentistry Students (regular and FM students)

**ANATOMY FINAL EXAMINATIONS** will be held on Tuesdays and Thursdays during the next 7 weeks. **The exams start at 12.00 in the Histology computer laboratory.**

You will sit down in Room 3 as usual and 1st year Dentistry students will join you.

**On the day of the examination, leave your bags in a locker and gather in front of the Histology lab 10 minutes before the starting time.** Please make sure you have the following items on you:

**ID card/student card**  
**SeKA login details** (*written down on paper – just in case*)  
**1-2 pens**  
**Histology notebook**  
**in case of a retake exam – proof of payment** (*except for the 1st retake*)

**Phones and smart watches are not allowed to be with you during examinations.**

*For safety reasons you may keep your valuables (money, cards, IDs, phone etc) on you, however „large” items, or pencil cases, will be collected upon entering the examination room.*

**The test is composed of 100 questions (only text) including approximately 30% of multiple choice questions. The questions will cover Anatomy, Histology and Embryology.**

**Writing time: maximum 90 minutes.**

**Passing rate: 50%**

***Students having a 4 or 5 from the test will be exempted from the written part if they fail the final exam in the Histology or Dissection part. This exemption expires and will not be valid for a CV final examination.\****

*Students may view their tests for a period of 10 minutes, however, neither questions may be asked nor notes may be taken during this time. Students may not leave the room during inspection time.*

Upon finishing the test you will be given **2 Histology slides** and an oral **Maxillofacial question** to explain. Those who passed will continue the exam with the **Morphology part in the Old Dissection room** (ground floor). Please be prepared that embryologically relevant questions may be asked in both practical parts too.

**The examination will be finished in the Dissection Room**, where a mark will be calculated from the marks gathered during the examination as well as from the dissection room mark given by the Tutor.

### COMPETITION EXEMPTIONS

***Competition winners will have to arrive by 13.15 and wait until the other students finish with the test. Then they will join them in Room 3 to be examined in Histology and Maxillofacial Anatomy. Having a 4 as an exemption from the competition does not exclude the student from getting a mark 5 in the examination. Competition exemptions do not expire even if the students will have to retake the test due to failure.***

**Students failing the examination, may repeat the exam „free” only once, every further attempt will be charged for.** The total number of examination seats is set (200% of the number of students in a given course), therefore „chances” left will not automatically entitle the students to enroll in an examination if the actual number of a given day/week is full. Thus, **the number of examination seats will not be increased.**

*Students not able to pass the ana4 examination during the present examination period (or in August), and still have „chances” left, may register for a CV course and retry the final examination\* in the following Winter examination period (December 2019-January 2020).*

### CONSULTATIONS

Please keep an eye on the homepage <http://semmelweis.hu/anatomia/education/2018-2019-second-semester/>

I wish you a successful examination period!

Dr Andrea D Székely  
Associate Professor, Course Director
