innovation and healthcare

SEMMEWEIS UNIVERSITY

Faculty of Medicine

Department of Anatomy, Histology and Embryology

Head of the Department

Dr. Ágoston Szél

Professor

Budapest, 05th March 2020

Dear 1st year Pharmacy Students,

As you have probably learned, a 4th year pharmacy student of the Semmelweis University had recently been tested positive for the new coronavirus and so the university needs to take precautionary measures. We agreed with the Head of Department (Prof. Ágoston Szél) and the Dean of the Faculty of Pharmaceutical Sciences (Prof. Romána Zelkó), that as of the 6th week of the Spring Semester we would provide the students with online material in Anatomy, and accordingly, you are kindly requested to download the files and **study at home**.

To make up for the missed histology practical class, please **fill in the test** which will be available in the Moodle site on Monday 10.00-18.00.

Topic list for Week 6.

Practical classes:

Histology: Respiratory tract histology, gastrointestinal tract histology I.

online material: ppt or pdf file, practice test (available on Monday, from 10.00-18.00), slides via the casecenter access

Lecture: The Kidneys and the Urinary Tract

online material: lecture ppt file
