Make sure that you look around on Monday/Tuesday/Wednesday to find the Digital Histology lab where the test takes place. It is on the 2nd floor, in the left wing, opposite to the dissection room.

Gather in the **MAIN HALLWAY** (at the stairs) on the Histology level, 5 minutes before the starting time. Your teachers will be with you during the time of the test showing you to the rooms and help with the log in. **In the Histology rooms you will be provided with rubber gloves which you must wear during the test.**

Please have nothing but your ID on you. If you wish to have your phone on you, it should be switched off and put down in the windowsill in the Histology room. Please remember to have your valid/working SeKA name and password on you because if you are not able to log in due to a forgotten password or name, your test is marked as a fail (1).
