ANATOMY PROGRAM - B  
Academic year 2020/2021, Spring Semester  
Internal organs and neuroanatomy

The lectures are held via Zoom, while the practices are held in personal at the Huzella’s Lecture Hall of the Anatomy Department.

**Zoom meeting ID: 939 2189 0762**

**Human Anatomy A and B exams**

The Anatomy A and B exams are held in person at the Anatomy Department, Huzella’s Lecture Hall (2nd floor) during the exam period. The parts of the exams are listed below.

The A and B exams are oral exams with preparation time.

**Parts of the Anatomy A CV exam:** description of one topic from the ‘Upper limb, chest cavity and vertebral column. Histology’ and one topic from the ‘Lower limb, abdominal muscles and skull’. The average of the two parts gives the final grade. If you fail one part of the exam, the entire exam will be failed and you have to retake it completely.
Parts of the Anatomy B exam: description of one topic from the ‘Internal organs’ and one topic from the ‘Neuroanatomy’. The average of the two parts gives the final grade. If you fail one part of the exam, the entire exam will be failed and you have to retake it completely.

RULES AND REGULATIONS OF THE ANATOMY EXAMS

• Every student has to identify herself/himself by providing a photographic card (ID card, passport, student card or driving license).
• DO NOT talk to, signal to or disturb other students during the exam.
• During the exam, it is strictly forbidden to talk or disturb other students. All forms of communication among students is strictly forbidden.
• DO NOT leave the exam room for any reason without the permission of the teacher.

ADVICE AND INFORMATION

• Listen to the teacher and follow the instructions.
• If you are not sure about what to do, raise your hand to attract attention. The teacher will come to your assistance.
• YOU MUST NOT ASK FOR, AND WILL NOT BE GIVEN ANY EXPLANATION OF THE TOPICS.

WARNING

• MAKE SURE YOU ARE ON TIME. KNOW THE DATE, TIME AND PLACE (Huzella's Lecture Hall) OF YOUR TEST AND ARRIVE WELL BEFORE THE SCHEDULED START TIME. IF YOU ARRIVE LATE, YOU WILL NOT BE ALLOWED TO TAKE THE EXAM.

• YOU MUST NOT BECOME INVOLVED IN ANY UNFAIR OR DISHONEST PRACTICE IN ANY PART OF THE EXAMINATION.

• YOU MUST NOT SIT FOR AN EXAMINATION IN THE NAME OF ANOTHER STUDENT.

• YOU MUST NOT HAVE IN YOUR POSSESSION ANY UNAUTHORISED MATERIAL OR EQUIPMENT WHICH MIGHT GIVE YOU AN UNFAIR ADVANTAGE.

• DO NOT KEEP your mobile phone, smart watch, written/printed study aids, books or any unauthorised material next to you during the exam, even if you do not intend to use it. Such actions are considered as violation of the Study and Examination Policy of the Semmelweis University and it will result in an immediate termination of the examination with a fail and may be followed by a legal procedure.
Topics of the Anatomy A

Upper limb, chest cavity and vertebral column. Histology

1. Planes, directions, way of orientation in human body. Epithelial tissue.
3. Carpal bones, carpal tunnel and related muscles. Metacarpal bones and fingers.
7. General osteology, bone tissue, bone development. Wrist joint.
8. Flexor muscles of the forearm.
10. Cartilaginous and bone tissue. Flexor muscles of the forearm.
13. Innervation of the upper limb. Carpal tunnel.
15. Vertebral column and superficial back muscles.
17. Muscles of the back. Movements of the vertebral column.

Lower limb, abdominal muscles and skull

2. Gluteal muscles, suprapiriform and infrapiriform hiatuses.
3. Abdominal muscles. Inguinal canal and subinguinal hiatus.
5. Knee joint, muscles acting on the knee.
7. Extensor and flexor muscles of the thigh.
8. Extensor and flexor muscles of the leg.
15. Structure of the skull: neurocranium.
17. Nasal cavity and orbit.
20. Muscles of the head.

Topics of the Anatomy B

Internal organs

1. Oral cavity and teeth.
2. Oral cavity and tongue.
4. Respiratory system, nasal cavity, larynx.
5. Respiratory system, trachea, lung.
7. Posterior mediastinum.
8. Heart: gross anatomy of the heart.
9. Blood supply of the heart.
13. Liver and pancreas.
16. Male genital organs.
17. Female genital organs.

Neuroanatomy

1. Nervous tissue and synapses. Fasciculus gracilis and cuneatus.
2. Spinal cord.
5. Cerebrum, cerebellum, basal ganglia. Spinocerebellar tracts.
8. Cranial nerves: II. IV. VI. XI. XII.
9. Cranial nerves: VII. IX. X.
12. Eye and visual apparatus. Óculomotor nerve.
13. Ear and hearing.

Dr. Sándor Katz Ph.D.
Course Director
