

## EM I

### ANNOUNCEMENTS CONCERNING THE SEMIFINAL EXAMINATIONS in

#### Microscopic Anatomy and Embryology I.

*Final examinations are held in the Histology computer laboratory on Tuesdays and Thursdays starting at **13.00** in general.*

#### REGISTRATION ISSUES (before the examination)

Registration has to be done in Neptun according to the Study and Examination Policy.

- **Registration** is open until 6.00 on the day of the examination. You may deregister from the examination before midnight on the preceding day.
- **Absences** – *no-show* at the semifinal examination reduces the remaining examination possibilities and Students will have to pay a missed examination fee via Neptun. In case of health problems, Students will have to present a doctor's note within 3 working days to be evaluated by the Head of Department. If accepted, the number of the Student's examination possibilities will not be reduced.
- **Technical problems** concerning registration or deregistration via the neptun system are beyond the scope of the Department, Students should seek help from the Neptun group of the Secretariat.
- The Registrar of the English Secretariat is not entitled to register or deregister students with the only exception of using the 4th chance provided by the Dean of the Faculty (i.e. Dean's chance, „golden" chance).
- The total number of **examination seats** is set (200% of the number of students in a given course), therefore the number of examination seats will not be increased.
- **Retake of a successful examination** - Students unhappy with the result of an otherwise successful examination may apply in writing with the Course Director, to retry the examination. They will be registered by the Course Director in neptun. Please note, that such a retake examination does not necessarily result in a better mark
- *According to the 10. § (3) of the present regulation (E/21/2020. (XI.26.) issued by the Rector of Semmelweis University concerning visits to the University Campus, an examination may only be attempted when the Students have either*
  - *a valid proof of vaccination,*
  - *or a medical certificate of proving recovery from COVID19 during the preceding 3 months,*
  - *or a negative antibody test done in the preceding 24 hours.*

*Without one of the aforementioned documents at hand (**no photos are accepted**) the exam cannot be attempted and will be recorded in Neptun as an „absence" (no-show).*

## On the day of the examination

Please leave your bags in a locker and gather in front of the Histology lab 10 minutes before starting time (as seen in Neptun). Please make sure you have the following items on you:

- ID card/student card with a photograph (you may not start the examination without it)
- SeKA login details\* (memorize or write them down on a small piece of paper)
- \*Students who cannot login /forgot their password will be considered as „absent” (see above) and have to sit for the examination on a different day
- In case of a retake exam – proof of payment (except for the 1st retake)
- Phones and smart watches have to be stored elsewhere during examinations
- **DRESS CODE** – formal (black and white)
- Neither pens nor papers may be with you during the written part
- You cannot take notes or talk to your peers during the examination
- For safety reasons you may keep your valuables (money, cards, IDs, etc) on you, however „large” items, such as phones (switched off), tablets (switched off) and pencil cases will be collected upon entering the examination room.
- **Rubber gloves and masks should be worn at all times.**
- Rubber gloves are provided by the department
- **No chewing gum, no food, no drinks are allowed while on the premises**

## PARTS OF THE SEMIFINAL EXAMINATION

**WRITTEN PART** (*Students may not leave the room during the test*)

The test is composed of 40 simple/multiple choice questions. (For a concise topic list see the Handbook)

Writing time: 40 minutes

Passing rate: 60%

(0-23.99 points=fail, 24-27.99=satisfactory, 28-31.99=average, 32-35.99=good, 36-40=excellent)

- Students with an average of 4.00 or higher from the two midterm tests will be exempted from the written test with a **4** (3+5, 4+4) or **5** (4+5, 5+5). They will have to present themselves at 13.45 at the Histology Laboratory. Exemptions will expire past the summer examination period (i.e. will not be valid for a CV examination due in the winter examination period)
- In case Students **would not like to live with the exemption**, they should notify the Course Director (Dr Székely) by writing an email 48 hours prior to the examination.
- Following the completion of the test Students may view their results, however, neither questions may be asked nor notes may be taken during this time.
- Students may not leave the room before the inspection time expires. Everybody should leave at the same time.
- Students not reaching 60% percent in the written part cannot continue (i.e. fail) the examination and should leave.
- Students failing the examination in the subsequent practical part may be exempted from the written test during the retake examination **ONLY** if they gained a good (4), or excellent (5), result from the written test. These students should present themselves at 13.45 on the day of the retake examination at the Lenhossék lecture room.

### PLEASE NOTE

*If there is a high number of students attending the examination it is possible that students will have to wait in the hallway until they are called in again to sit for the oral examination.*

**ORAL PART** (*practical examination*)

This part is held in the Digital Histology Laboratory. Here Students are required to explain one digital histological specimen („slide”) selected from the list of slides studied during the present semester. (For a concise topic list see the Handbook)

- Students will be provided with an A4 sheet containing the slide number to explain.
- Students will be given a short preparatory time (approximately 15 minutes) during which they may take notes and produce drawings (here the use of pens/pencils is allowed)
- The oral examination takes place at a digital microscope. Please remember to wear a pair of rubber gloves during the examination.
- Further theoretical questions, other than the identification of the presented specimen may arise, including embryological relevances or important aspects of structure and function. Students may be asked to produce schematic drawings of certain structures as part of the examination.

**MARKING SYSTEM**

The examination finishes in the Histology Laboratory, where Students are given a mark calculated from all the results of both parts of the examination.

- If one part of an examination results in fail (1), the entire examination is terminated with a fail (1).
- Students failing the examination, may repeat the exam once „free”, every further attempt will be charged for (to be paid for in Neptun).

We wish you good health and a successful examination period!

Dr Andrea D Székely  
Associate Professor, Course Director
