

How to fill in the form:

Subject registration without passing the prerequisite (multi-level subjects)

(TO APPLY FOR JOINT CV AND REGULAR COURSES)

July 2, 2021

Dear ED Students,

As the examination period is about to finish, more and more questions arise concerning „taking a CV course“. I would like to help you with the appropriate formulation to fill in the form successfully. **CV** stands for '**only exam**' (an abbreviation of the Hungarian words „csak vizsga“) – so you cannot attend classes if you are enrolled in an exam-only course.

1. If you wanted to postpone your exam to the next exam period, **but do not want to register for the following semester; or you would like to postpone a final exam as a CV exam**, you do not need to submit this form. Everybody may register for a CV course, but keep in mind that you can only use your remaining exam possibilities.
2. If you wanted to **postpone a semifinal exam** to the next exam period **AND** you would like to **carry on with the subject**, then you **need to fill in the form**, because you are about to register jointly for two courses of the same subject – an exam-only course together with a regular course.

In the first section of the Application form you will have to put down your personal details – it is easy. Then in the next part you have to write in the **name** you send this application form to:

Címzett/ Addressed to: *Dr. Gerber Gábor / Dr. Székely Andrea*
Department of Anatomy, Histology and Embryology

Then write down your request:

Kérvény / Request: I would like to register for e.g. *Microscopic Anatomy II together with Microscopic Anatomy I* as a CV course without passing the prerequisite.

Finally sign it, put a date on it and send me a scanned version of the form by email. Please do not leave printed copies at the reception of the department
I wish you a successful examination period!

Dr. Andrea D. Székely
Associate Professor, Course Director
