SEMMEIWEIS UNIVERSITY

Faculty of Medicine

Department of Anatomy, Histology and Embryology

Head of Department

Dr. Alán Alpár

Professor

Welcome to the Department of Anatomy, Histology and Embryology!

Dear Students,

September 6, 2021

It is our pleasure to greet you on our premises and hope that the semester is going to offer you a lot of interesting encounters as well as an ample body of new knowledge.

We all need to daily adapt to a new life responding to the pandemic situation, therefore, please, read the safety regulations thoroughly and make sure you comply with the rules at all times while in the university (or in the city).

During the 1st study week of the Academic Year you will start attending lectures and practical classes **to be held with personal presence in both the Faculty of Medicine and the Faculty of Dentistry** .

On the very first day to visit the Anatomy department the group teachers of 1st year students will be waiting for their groups in the yard and you will proceed to the dissection room together.

I have composed a **handbook** containing important information you should be aware of concerning studies and safety measures. **Please download it and read it thoroughly.**

If you have questions, your teacher will be happy to answer.

We hope you will enjoy your time with us and wish you a successful semester!

A. D. Székely

Dr. Andrea D. Székely
Associate Professor, Course Director
