

Department of Anatomy, Histology and Embryology

Information about the Exam of Developmental Biology I. (stem cells and organoids) course

The exam of the Developmental Biology I. elective course will take place electronically in the **Moodle** system for students registered in the actual year (**AOVANT834_1A**) and for FM course (**AOVANT457_1A**) as well. Exams will be held in the **Histology Practice Room (1st floor)**, on **Wednesdays (15.00)**.

To take the exam you should have a valid and working **password for the SeKA login**. Before taking the exam make sure your password is working.

At the beginning of the exam you must present a valid **personal identification document** (ID card / student card / passport).

The exam test includes „multiple choice questions“ (with one or multiple correct answers), „true or false“ type questions, and „drag and drop“ type questions with images. The maximum score for the test is 40 points, to pass the exam one must achieve at least 50%.

Masks should be worn at all times on the premises of the Department.

For students of **CV courses (Developmental Biology II.: AOVANT834_2A and AOVANT457_2A)** information about the mode of the exam will be sent in a Neptun message.

Warning:

Those students, who are currently registered to the AOVANT457_1A FM course (former Developmental Biology I.) and AOVANT457_2A CV course (former Developmental Biology II.) without a signature from a previous year were not allowed to register to these courses and cannot take the exam. They must deregister from these courses.
