

ED II Microscopic anatomy and Embryology

1st MIDTERM ANNOUNCEMENTS

The first midterm is held during the regular Histology class of the 8th study week.

ED 1-4

October 24 (Tuesday)

15.00

Course of the midterm examination

The test is composed of simple and multiple choice questions. Some of the questions contain pictures. Altogether 20 points may be collected, passing rate is 50%.

Topics: Histology of blood, lymphatic system, microscopy of the CNS

Midterm tests are obligatory tests, they can only be done on the day specified previously, and unless they are unsuccessful, they cannot be retaken or upgraded.

Please note, this midterm has to be passed successfully with at least a 2 to gain acceptance of the semester. Unsuccessful midterms (i.e., fail – 1) will have to be retaken at the given timepoints (weeks 9 and 14).
