

2025-26 EP Anatomy

week	lect. date	ANATOMY LECTURES	lecturer	week	practice	ANATOMY PRACTICES
		Monday 12.15-14:00 EOK Békésy lecture hall				Friday 15.15-16.45 (Dissecting Room: Tűzoltó u. 58 / Histology Lab: City Corner Building Üllői u. 25.)
1st	16/02	1.-2. Basic Tissues, Skin	Zachar G. Zachar G.	1st	20/02	HistologyLab: basic tissues, skin
2nd	23/02	3.-4. Introduction, Locomotor System, Skull, vertebral column	Gulyás Á. Gulyás Á.	2nd	27/02	DissectingRoom: Introduction, limbs, skull, vertebral column, head, neck muscles,
3rd	02/03	5. The Immune System, the Lymphoid Organs 6. The Respiratory System, the Mechanics of Breathing	Zachar G. Zachar G.	3rd	06/03	HistologyLab: blood, vessels, lymphoid organs
4th	09/03	7. Heart, the Vascular System 8. Blood, hematopoiesis	H-Minkó K. H-Minkó K.	4th	13/03	DissectingRoom: thoracic cavity, respiratory tract, heart, large vessels
5th	16/03	9. The Digestive System I-II, abdominal cavity 10. The Liver, the Pancreas	Kakkar V. Kakkar V.	5th	20/03	HistologyLab: respiratory tract and gastrointestinal tract histology
6th	23/03	11-12. The Kidneys and the Urinary Tract	Gulyás Á. Gulyás Á.	6th	27/03	DissectingRoom: gastrointestinal tract, abdominal cavity, abdominal wall
7th	30/03	13. The Male Reproductive Organs, Spermatogenesis 14. The Female Reproductive Organs, Female Cycle, Oogenesis	Gulyás Á. Gulyás Á.	7th	03/04	Cancelled (Good Friday)
8th	06/04	Cancelled (Easter Monday)	cancelled	8th	10/04	HistologyLab: kidney histology, genital organs histology, placenta
9th	13/04	17-18. Nervous System: Introduction, synapses, neurotransmitters, Encephalon, Meninges, CSF,	Zachar G. Zachar G.	9th	17/04	DissectingRoom: kidney, retroperitoneum, genital organs, pelvis
10th	20/04	19-20. Cranial nerves, Spinal cord, Spinal Nerves, Functional systems (Motor, Sensory, Limbic) Autonomic Nervous System	Zachar G. Zachar G.	10th	24/04	HistologyLab: midterm (locomotor system, internal organs)
11th	27/04	21. The Eyeball and Visual system 22. The Organ of Hearing and Equilibrium.	Zachar G. Zachar G.	11th	01/05	cancelled (due to 01/05)
12th	04/05	23-24. Hypothalamus, the Endocrine Organs	Tóth Zs. Tóth Zs.	12th	08/05	DissectingRoom: nervous system: brain, spinal cord, cranial nerves, sensory organs
13th	11/05	25-26 Germ cells, Fertilization, Development of the fetus, Placenta, Teratology	Gulyás Á. Gulyás Á.	13th	15/05	HistologyLab: nervous system and sensory organs histology, endocrine organs
14th	18/05	27-28. Development of the Digestive System and Reproductive organs, Malformations	Soós Á. Soós Á.	14th	22/05	HistologyLab: midterm (nervous system, sensory organs, endocrine organs, general embryology)
