DR. MASSZI TAMÁS egyetemi tanár

PROPEDEUTICS
Neptun code: AOKBHK781_1A
2023/2024. II.

Department: Internal Medicine and Hematology
Faculty: General Medicine

Reflection on the implementation of the previous period's action plan ("implementation review"):

We couldn't increase the response rate of the feedback for the subject

Our feedback on general comments by the students:

Students evaluated our subject above the average.

Our feedback on specific comments on mandatory subjects:

Remarks	Responses
I had an incredible teacher (Dr. Emese), we studied so much from her and she made it very interesting and educating	Thank you
We had Dr. Szabolcs as our main practical professor. I thoroughly enjoyed his teaching and classes. However, it would have been nice if we were able to keep the size of the group to a minimum as half way through, another group was merged with ours. This made practicing on the patients very time-consuming and exhausting for the patients.	We try to keep small groups for practice

PRACTICE

We try to achieve a higher rate of feedback.

Budapest, 20. September 2024.

Prof. Dr. Tamás Masszi

The action plan was compiled by:

Dr. Katalin Keltai
