2021 March - 2021 August

## About us

**BIOSAFETY** consortium continues the constant work on strengthening the research potential of Semmelweis University in the area of immune- and biosafety assays.

**TECO**medical Group

## Our success

An inspirational **Summer School** was held on 15-16 June 2021. PhD students and young professionals of Semmelweis University and all around the world could learn about „Biological therapies and vaccines: safety issues, physiological and immunological mechanisms“.
