

VI
2023 March - 2023 August

About us

BIOSAFETY is running out. A lot of work has been done, we achieved successes, and we have our plans for the future.

Our success

By the **second conference call** 9 young researcher's attendance on international conferences of Semmelweis University was supported.

Final Conference and Meeting was held on 10-11 July 2023, where people contributed to the project implementation and partners from academia and industry met face-to-face in the beautiful and hot Budapest.

Spreading the word about BIOSAFETY – several meetings with stakeholders, and dissemination activities happened, worldwide.

Semmelweis University has integrated the **knowledge gained** during the project into its PhD training.
