LEGITIMATE INTEREST ASSESSMENT

Regarding the processing of personal data for the purpose of participant registration and communication at the Biomedical Data Science Summer School and Conference, organized by the Institute of Biostatistics and Network Science of Semmelweis University.

1. Legitimate interest of the data controller or a third party:

Individuals intending to participate in the event register by providing their personal data, thereby ensuring their access to the event venue (depending on room capacity) and that relevant information about the event reaches the intended participants.

1.1. Justification of the lawfulness of the interest:

The goal of the Institute of Biostatistics and Network Science is to ensure the optimal use of the event venue's capacity.

1.2. Justification of the specificity of the legitimate interest:

According to the Event Organization and Security Regulation of Semmelweis University (Senate Decree No. 54/2023 (VI.29.)), the call for participation must include: the date and location of the event, the type and official name of the event, the target audience (and, if applicable, the fact that the event is private), the method of registration, and, if the event is not free, the participation fee.

1.3. Validity and relevance of the legitimate interest:

The Biomedical Data Science Summer School and Conference will take place between 28 July and 8 August 2025, organized by the Institute of Biostatistics and Network Science of Semmelweis University.

1.4. Interest of a third party in the data processing:

No third party is involved.

2. Necessity of data processing:

2.1. Clear and explicit explanation of why the data processing is strictly necessary and appropriate for achieving the interest:

The data processing is necessary to ensure access to the event venue (depending on room capacity).

2.2. Examination of the nature of the interests:

- **2.2.1. Legitimate interest of the data controller:**

To organize the event in accordance with venue capacity and identify participants to ensure their access.

- **2.2.2. Interest of the data subject:**

To be able to participate in the event.

- **2.2.3. Nature of the data:**

Name, email address, (telephone number, name of editorial office, type of media, job position).

- **2.2.4. Alternative solutions for protecting the data subject:**

None.

3. Assessment of the impact of data processing:

3.1. Status of the data subject:

There is a relationship of equality between the data controller and the data subject.

3.2. Position of the data controller:

The controller processes the data subject's personal data under Article 6(1)(c) of the GDPR based on legal obligation. For any further processing, the controller evaluates, in accordance with Recital 50 of the GDPR, whether the purpose of the additional processing is compatible with the original purpose of data collection. After fulfilling all requirements for the original legal basis, the controller takes into account the connection between the original and further purposes, the circumstances of the data collection (particularly the reasonable expectations of the data subject based on their relationship with the controller), and the nature of the personal data. No new legal basis is found necessary; therefore, Article 6(1)(f) of the GDPR is established as the legal basis for further processing.

3.3. Relationship between the data subject and the data controller:

A direct relationship exists between the data subject and the data controller.

3.4. Impact of the data processing on the data subject in light of the relationship with the controller:

A relationship based on mutual benefit.

3.5. Reasonable expectations of the data subject:

That their data will be processed only for the stated purpose and that they can request termination of the data processing.

4. Method of data processing:

Data will be recorded electronically.

5. Informing the data subject about the data processing:

Information is available on the data controller's website:

<https://semmelweis.hu/biostat/en/data-protection-information/>

6. Security measures:

6.1. Limited retention of data:

Until the withdrawal of the data subject's consent, but no later than five years after the end of the communication.

6.2. Restriction of access to data:

Data is accessible only to the data controller in a closed online registry system.

7. Outcome and documentation of the legitimate interest assessment:**7.1. Existence of a legitimate interest:**

The data controller has a legitimate interest in processing the data.

7.2. Examination of the nature of the interests:

Only data strictly necessary for processing is handled, for a limited time, and with appropriate security measures.

7.3. Assessment of the impact of data processing:

The data processing is necessary.

8. Result of the legitimate interest assessment:

The data controller's interest in data processing overrides the data subject's interest in not having their data processed for this purpose.
