**AMR DETECT TOOL**  
Detection in 30 min

**Best-ReMaP**

Healthy Food for a Healthy Future

## Internship position

The Health Services Management Training Centre of Semmelweis University, as a part of The Faculty of Health and Public Administration, is a focal point in the educational, research and consultancy activities of the University. The Centre is at the forefront of the medical, natural and social sciences, and leads many research projects.

We are looking for interns to support the communication activities of two projects of the Centre:

1. **The Best-ReMap European Union project** (2020-2024), which focuses on building a European strategy against childhood obesity. This European project is implementing best practices in nutrition in the following professional areas: the establishment of national nutrient databases, regulation of marketing of unhealthy food to children, and promoting best practices on public procurement of food, especially in schools. More information here: [bestremap.eu](https://bestremap.eu)
2. **The AMR DetecTool project** (2020-2023), which is funded by the European Institute of Innovation and Technology. This project aims to test innovative microbiology laboratory diagnostic tools for the rapid detection of antimicrobial resistance, and facilitate their launch on the market. More information here: [amrdetect.eu](https://amrdetect.eu), [amrexpert.eu](https://amrexpert.eu)

### Communications tasks:

- Helping to boost social media activities of one or both projects (Facebook/newsletter)
- Helping to further expand the entire PR and media strategy
- Producing information material (articles, press releases, blog entries, infographics, etc.)

### Ideal candidate/requirements:

- Interest in nutrition/anti-microbial resistance
- Interest in EU-level project cooperation
- Excellent English
- Open-minded, outside the box thinking, reliable and with a proactive working style
- Excellent writing and communication skills

**Working hours:** 10-14 hours/week – flexible work schedule

**Location:** Mostly online, occasionally in the EMK office (Kútvölgyi út 2, 1125 Budapest)

**Length of internship:** minimum 2 months

**Possible dates:** 10 May-30 June 2021. With the option for a continuation in September 2021

**Application deadline:** 5 May 2021

**Please send any inquiries:** [entermode@emk.sote.hu](mailto:entermode@emk.sote.hu)
