

Information about Final Exam
Faculty of Medicine 2018/2019
AOKELT226_2A and AOKELT466_2A

Completion of Medical Physiology II. requires taking a final exam in the examination period. The exam cannot be taken if the student fails to obtain the end-term signature and/or the lab reports are not signed by the practice teacher. The attendance of a minimum of 75% of practices (including seminars) is necessary for the end-term signature. Requirements of the final exam: material of the Medical Physiology I. and Medical Physiology II.

Registration for the exam must be recorded through the NEPTUN system. Modification in the registration must be recorded through the NEPTUN system not later than 48 hours before the start of the exam. We would like to draw your attention to the fact that the teachers (including the Course Director and the Tutor) cannot modify your registration, so the registration, de-registration, modification of the exam date must be recorded through the NEPTUN system in time (not later than 48 hours before the start of the exam)!

Lab grade: Evaluating the work of the student is based on his/her classroom tests and performance practice in the regular period of the semester. The average of the best written tests (number of the tests in this semester minus three) and one percentage based on your activity in practices and seminars results a five-point scale:

0-54% = 1, 55-64% = 2; 65-74% = 3, 75-84% = 4, 85-100% = 5.

This grade is the lab grade and taken into account in the exam.

The final exam consists of a practical, a written and an oral part. The practical part (lab exam) takes place in the last week of the second semester. The topics of the lab exam can be found in <http://semmelweis.hu/elettan/teaching/second-semester/>. Passing the lab exam is not a prerequisite to participate on the final exam, but a failed lab exam is taken into account in grading the final exam as a failed (1) partial grade.

The final exam consists of a written and an oral part. The written and oral part of the final exam starts at 8:45 by showing up in the selected exam place. Your exam place and examiners are announced in written form at 8:30 (attached to the front door of the corridor of the Physiology Practice Rooms). The students need to bring ID card and the laboratory report book to participate in the exam. The written part consists of 30 questions and takes 45 minutes. Grading of the written part:

0-14 correct answers = 1
15-18 correct answers = 2
19-22 correct answers = 3
23-26 correct answers = 4
27-30 correct answers = 5

The oral exam starts at 9:45 and consists of two theoretical questions (I-II). Grouping of questions (the topics of the final exam can be found in <http://semmelweis.hu/elettan/teaching/second-semester/>):

I: 1, 2, 3, 4 and 5 topics of the final exam
II: 6, 7 and 8 topics of the final exam

The overall grade of the final exam is the mean of four or five partial grades (lab grade, written exam grade, two oral exam grades, and lab exam grade if applicable), but a failed (1) theoretical question results in an overall failed (1) exam.

Excellent (5):	4.51 - 5.00
Good (4):	3.51 - 4.50
Satisfactory (3):	2.51 - 3.50
Pass (2):	2.00 - 2.50
Fail (1):	below 2.00 or in case of failed (1) theoretical question.

The following rules will be enforced during the exam: electronic devices must be kept in the baggage; baggage and overcoats should be placed next to the wall of the lecture halls or the practice rooms; any form of communication is disallowed; students not complying with these rules will be disqualified immediately.

Failing to certify absence cause registering “absence” = “nem jelent meg” in the NEPTUN system.

Repetition of the exam is possible at least three days after the unsuccessful trial.
