

## SEMMELWEIS UNIVERSITY

Faculty of Medicine, Department of Internal Medicine and Oncology

Department Head

**PROF. DR. ISTVÁN TAKÁCS**

Department of Endocrinology

Head of Department

**PROF. DR. PETER IGAZ**

## Action plan based on the student feedback received in the 2nd semester of the 2021/2022 academic year

**Department: Department of Endocrinology**

**Faculty: Faculty of Medicine**

*There was no mandatory subject organised by the Department.*

**Our feedback on specific comments on elective subjects:**

**Elective subject: Genetics of endocrine diseases - AOSED869\_1A**

The overall scores were better than the Faculty average except for one question. The only question, where we have received reduced score related to the availability of lecture slides on Moodle. The lecture slides are actually uploaded to the website of the Department of Internal Medicine and Oncology.

We plan to upload the lectures on Moodle.

We also plan to increase the interactivity of the lectures, as also proposed by the students.

The next elective course will be held in the second semester of the academic year 2022/2023.

Date: 5 September 2022.

The action plan was compiled by Prof. Peter Igaz  
Head of the Department
