

Dean's resolution **1532/AOADH/2016**. (Dean's resolution Nr. 2060-3/2013. ÁOK/DH/2060-3/2013.sz.)

Information for medical students on the rules applicable to practical training abroad

At the Faculty of Medicine the following criteria will be taken account in selecting the foreign clinical practice positions and accepting the practice period spent abroad:

1. In the Member States of the European Union (and in Switzerland and Norway), clinical practice is accepted and recognised if it is earned at state-accredited university clinics or teaching hospitals. The legal ground for this is the mutual recognition of diplomas issued by accredited institutions.
