

## **Call for Applications for Teaching Associates for the 2020/21 Academic Year at the Department of Biophysics and Radiation Biology**

### **Requirements to become a TA in Biophysics**

- You must be at least in the second year.
- Your total average grade of the previous semester must be at least 3.51.
- You have completed all the compulsory courses according to your active semesters.
- Your final grade in Biophysics must be 5 (in some exceptional cases 4).
- As a TA you must act in a professional manner.

### **Tasks of a TA**

- Preparing the lab equipment for measurements.
- Helping the instructor's work during lab practices.
- Supervising the students during lab tasks.
- Assisting the lecturers (if required).
- Assisting the teachers in organizing the midterms and competitions.

### **Rules for TAs**

- Only one TA will be allowed to work in each group.
- Whoever wishes to become a TA must first contact Dr. István Voszka during the first week of the semester.
- Changing groups during the semester will not be permitted.
- A maximum of 3 absences will be allowed. If volunteered for supervising midterms, 4 absences will be allowed.

### **Requirements for the credit**

- No more than the allowed absences.
- Active participation during the labs (as decided by the instructor).

### **Application**

The application should be sent to Dr. Zsolt Mártonfalvi's email address:

martonfalvi.zsolt@med.semmelweis-univ.hu

The application should contain the student's name, e-mail address, NEPTUN code, the exam grades of Biophysics I. and II., the average grade of the previous semester and a short (max. 100-word-long) motivation summary about why the applicant wants to work as a TA in Biophysics.

**Deadline for application: 15. July 2020.**

The applicants will be informed about the results before the starting of the next academic year.

Dr. Miklos Kellermayer  
Head of Department of Biophysics and Radiation Biology
