Dear Students,

We would like to draw the attention of our students to the adherence to the epidemiological measures summarized below.

1. **General provisions:**

   Epidemiological measures must be met on the University premises so that if more than two people are present in a room and public spaces, **wearing a face mask is mandatory, and the protective distance must be maintained.**

2. **Mandatory screenings:**

   2.1. **All students of the University who arrived in Hungary within 14 days before the beginning of the academic year or before the enrollment period are required to take a COVID PCR screening.** Medical reports that have been issued by healthcare providers located outside of Hungary will not be accepted by Semmelweis University. Regarding the screenings, **the current classification of countries** based on decision No. 34320-1 / 2020 / OTF of the National Chief Medical Officer of Hungary **is applicable, as follows:**

   - If the university student came to Hungary from a country marked yellow or red, he / she is obliged to perform **two COVID PCR tests within at least 48 hours** and can only appear in person at Semmelweis University only if he / she is aware of both of his / her tests being negative.

   - If the student has arrived in Hungary from a country marked green, he / she is **obliged to perform one COVID PCR test** and may appear in person at Semmelweis University only if he / she is aware that this test being negative.

   2.2. **If the student has been in Hungary for more than 14 days and if he / she participates in medical practice at Semmelweis University, during which he / she may come into contact with patients, he / she is obliged to have a COVID PCR test done.** In this case, the student must have one negative COVID PCR test done at the University within seven calendar days before the start of the first day of the medical practice.

   2.3. **The screening does not need to be repeated** as long as the student is exclusively in Hungary; has not come into close contact with a person who arrived from abroad within 14 days; has not been in close contact with a person who may be potentially infectious; or if the student does not notice any suspicious symptoms.

3. **Applying for a COVID screening:**

   3.1. **We provide the COVID PCR test free of charge to our university students.** The application for screening is available on the following interface (please provide all...
information **accurately**; for first-year students, please enter the text “1st year” instead of the Neptune code):

In the information brochure written in Hungarian:
http://semmelweis.hu/koronavirus/vizsgalat/
Password: 2020-Coronavirus

In the information brochure written in English:
https://semmelweis.hu/koronavirus/en/coronascreening/
Password: 2020-Coronavirus

In the information brochure written in German:
http://semmelweis.hu/koronavirus/de/coronatest/
Password: 2020-Coronavirus

3.2. It is possible to cancel and modify the registered appointment on the application platform. We allow this to be done in order to make the screenings as flexible as possible. Please be considerate with the other students and do not register for more than one place at a time! If you are unable to show up for the booked time, you must cancel as soon as possible, but at least 24 hours in advance, via the link provided in the confirmation email, so that another fellow student can apply for the vacated time.

4. Result Inquiry:

4.1. If the university student **does not have a Hungarian Social Security number (TAJ szám)** then he / she may request information concerning the result of his / her screening on the following email address: info.corona@semmelweis-univ.hu. Handing out the medical result to the student concerned only takes place on weekdays. We undertake to send out the medical results five days after the day once the screening has been done. The result of the screening will only be sent in a pdf format. The medical result should be requested in the following form:

*The text of the email shall contain the following personal data:*

„**Full name_date of birth(year.month.day)_mother's name_telephone number_location and date of screening.**“

4.2. **If the student does have a Hungarian Social Security number (TAJ szám)** then he / she may not require information concerning the result of the screening on the email address above, but may require the result on the following electronic health care providing public domain (EESZT):
https://www.eeszt.gov.hu/hu/bejelentkezes
or via his / her general practitioner 72 hours after the screening. Using the EESZT requires
5. the student to register on the electronic customer portal for public administration in Hungary. Registration can be done online on the following link: https://regi.ugyfelkapu.magyarorszag.hu/regisztracio

6. In case of positive results:

If the result is positive, the staff member of the Hospital Hygiene Department of the University Clinical Center will immediately contact the student concerned at the telephone number that has been provided by the student. Due to its epidemiological significance, it is imperative that you enter your data accurately!
