

This detailed floor plan illustrates the layout of the Békéscsaba Convention Center. The plan is organized around a central green area, likely a main hall or entrance, with three main lecture halls (A, B, and C) arranged around it. Lecture Hall A (Szent-Györgyi) is the largest and is centrally located. Lecture Hall B (Hevesy) is to the left, and Lecture Hall C (Békésy) is to the right. Each lecture hall has its own entrance, coat room, and restrooms. Corridors A, B, C, and D provide access to these areas. The plan also shows a large library (Könyvtár) at the top right, a health promotion center (Egészségfejlesztési Központ) at the bottom left, and a main entrance (Főbejárat) at the bottom center. Other features include a buffet area (Büfé), a reception area (Recepció), a shop (Simmelweis Shop), and a housing area (Simmelweis Housing). The plan is color-coded to distinguish between different functional areas: green for main circulation, blue for lecture halls, red for library and reception, yellow for seminar rooms, and brown for buffet and housing areas. Arrows indicate the flow of traffic and the location of various facilities like restrooms, coat rooms, and elevators.
