The agreement can be modified, or the duration of the stay extended, **only once** during the mobility period. Requests for changes must be submitted electronically to the International Mobility Office **at least 30 days before** the expiration of the agreement. - b) The student agrees to fulfill the requirements specified in the agreement.
- c) The University agrees to recognize the studies completed abroad, upon successful completion and evaluation of the submitted request, as credits in accordance with the University's regulations.

E/ Reporting

After completing the Long-Term, Student Mobility Placement program, the student is required to submit a final report in the form and by the deadline specified in the grant agreement. The final report also serves as a request for the settlement of the scholarship balance.

If the student fails to submit the report by the deadline, submits an incomplete report, or misuses the scholarship funds, they must repay the University.

Depending on the availability of resources, the student may **extend** their mobility program once during the application period, while adhering to the rules regarding the duration of mobility. The student must notify the International Mobility Office of their intention to extend the program in writing at least 30 working days before the scholarship period expires. The evaluation of the extension request and the contract signing will follow the same rules as the original application. The extension must immediately follow the initially planned scholarship period. The extended mobility period must end by August 31, 2026.
