Faculties of Medicine, Dentistry and Pharmaceutical Sciences

Brief History of Medical Education at Semmelweis University

Cardinal Péter Pázmány founded the predecessor of the present day University in 1635 at Nagyszombat (today Trnava in Slovakia), his bishop seat. On November 7, 1769 Queen Maria Theresa of Austria–Hungary attached a Faculty of Medicine to the former Faculties (Theology and Jura). The new Faculty was moved to Buda in 1777. The "Diploma Inaugurale", which stated the rights of the University and allocated the necessary financial means was signed in 1780. After a few years, the University moved to the other side of the Danube, to Pest. (Buda and Pest were independent cities at that time.) In 1848, at the time of the National War of Independence, the former University of Nagyszombat became a National University.

The establishment of the present clinical departments and theoretical institutes started at the end of the 19th century at their present location in Budapest. These buildings are still in use after reconstruction and modernization. New clinics and institutes were built during the 20th and 21st centuries.

In 1951, the Faculty of Medicine was reorganized into an independent medical school, and the institutional name was changed to Budapest University of Medicine. In 1955, Faculties of Dentistry and Pharmaceutical Sciences were incorporated into the University. In 1969, the name of the University was changed to Semmelweis University of Medicine. The new name honors Ignác Semmelweis who discovered the cause of puerperal fever and was a professor and chairman on the Faculty of Medicine at the present Department of Obstetrics and Gynecology.

Today, Semmelweis University incorporates the Faculties of Medicine, Dentistry, Pharmaceutical Sciences, Faculty of Health Sciences, the Faculty of Health and Public Services, and András Pető Faculty. Semmelweis University was the first Hungarian higher educational institution, which, in addition to educate at the above faculties in Hungarian, started to offer an international program at the Faculty of Medicine in German in 1983, while its international program in English started in 1987, at the Faculties of Medicine, Dentistry and Pharmaceutical Sciences.

Facts and Figures

Semmelweis University has an over 250-year-long tradition of academic excellence and commitment to the education of physicians. Among Semmelweis alumni are Nobel-laureates, world renowned researchers and clinicians. Currently, the number of students at the Faculties of Medicine, of Dentistry and of Pharmaceutical Sciences exceeds 4500, 900 and 770, respectively. These numbers include nearly 1200 students of the German-language programs, and more than 1800 students trained in English language at three faculties. The Faculty of Health Sciences currently has more than 3500 students including 165 students studying in the English programs and 300 students studying physiotherapy at the Lugano Campus in Switzerland. The University Hospitals have 2160 beds and admit about 160,000 patients annually. The outpatient departments care for approximately 2.38 million patients each year. Research programs at the Preclinical and Clinical Departments are sponsored by the University, the Ministry of Education, the Hungarian Academy of Sciences, by many national and international grants.

Accreditation

As a state recognized foundation university, Semmelweis University functions under the auspices of the Ministry of Innovation and Technology. The University is listed in the WHO's directory of Medical Schools. The faculties of the University were reaccredited by the Hungarian Accreditation Board in 2015.

International Recognition of the Degrees Obtained at the Faculty of Medicine, Dentistry or Pharmaceutical Sciences

European Union: In those professions where the conditions of education in Hungary are identical with those in other EU member states, and these have already been recognized (medical and dental doctors, pharmacists etc.), the member states of the European Union are obliged to accept the diplomas issued in Hungary, independent of the language of tuition.

USA: Semmelweis medical graduates (as foreign graduates) have the right to pass the United States Medical Licensing Examinations (USMLE), after which they are eligible for residency. Semmelweis dental graduates are required to fulfill US licensure requirements. For details, please visit the following websites:

Medical licensure: http://www.usmle.org/

Important: World Federation for Medical Association (WFME) accreditation of General Medicine Training Program at Semmelweis University is in progress.

Canada: Semmelweis graduates are eligible to pass the Medical Council of Canada Evaluation Examination (MCCEE) and the Medical Council of Canada Qualifying Examination (MCCQE) before applying for residencies.
Israel: Semmelweis graduates have to complete a one-year practice and pass a test before they are eligible for obtaining the permit to practice medicine.

India: Doctor of Dentistry degree of Semmelweis University is equivalent to B.D.S. degree in India.

For more details and updated information concerning recognition of the degrees, please turn to your local authorities and also visit: https://semmelweis.hu/english/education/english-language-program/international-recognition-of-the-degrees/.

Programs in English: Medicine, Dentistry and Pharmaceutical Sciences

The programs begin in early September each year. The curriculum consists of six years of studies in Medicine, five years in Dentistry and Pharmaceutical Sciences. The curricula and other useful information on these programs are available in the Academic Calendars online at http://semmelweis.hu/english/students/academics/academic-calendars/. At the conclusion of the programs, the degrees granted in English are identical to those granted at the Hungarian programs: Doctor of Medicine (dr. med.), Doctor of Dentistry (dr. med. dent.) and Doctor of Pharmaceutical Sciences (dr. pharm.).

Statement of Non-Discrimination

Semmelweis University does not discriminate on the basis of race, color, national or ethnic origin, religion, gender or marital status.

Requirements for Application and Admission

Application Criteria

Applicants must be at least 18 years of age by the end of the calendar year of application, and preferably under the age of 30. Applicants are requested to either have completed high school/senior secondary school before the time of application, or to currently attend the last year of high school/secondary school. In the latter case, the Matriculation / School Leaving Certificate has to be uploaded into SEMAPHOR by the 21st of August the year of application.

Semmelweis University seeks students who possess a strong background and interest in natural sciences (particularly in biology and chemistry), a good command of English, and a strong motivation to study and practice medicine, dentistry, pharmaceutical sciences or other health care professions.

Our English language programs are fundamentally available for applicants having no Hungarian citizenship as the Hungarian citizens are eligible to apply for the Hungarian language programs through FELVI.

Application Procedure and Documents Required for Applications to the Faculties of Medicine, Dentistry and Pharmaceutical Sciences

Applications should be submitted online in SEMAPHOR (Semmelweis Application Handling and Online Review) system at https://semaphor.semmelweis.hu until the 31st of May, 2022. Applicants having been recruited by one of the officially appointed local representatives recruiting for Semmelweis University (http://semmelweis.hu/english/prospective-students/our-representatives/) have to assign the representative who assists their application. However, direct applications without the assistance of a representative are also welcome. The applicants who indicate that they were recruited by none of the officially appointed local representatives, will be assisted by Semmelweis University’s Directorate of International Studies, Division of English Language Programs.

The following documents are required to be uploaded (original, or as certified copies, in English or in the original language with a certified English translation).

1. Matriculation / School Leaving Certificate from an accredited high school / senior secondary school. Registration number of documents should be indicated. If you are in your final year and have not yet received this certificate, you can still apply and take the entrance examination. The final deadline for uploading the Matriculation Certificates is the 21st of August.
2. Curriculum Vitae (Resume) in English.
3. Motivation letter
4. Copy of passport (or ID card for citizens of Schengen Area member countries) with your personal data.
5. **Passport photo.**
6. **Medical Certificate** – Certification that the applicant is physically and mentally able to complete higher educational studies, and does not suffer from chronic or infectious diseases is requested from the successful applicants for the acceptance of an offered admission. The certificate downloaded from the University’s website (http://semmelweis.hu/english/files/2019/01/Medical_certificate_sample_20190_SEMAPHOR.pdf) should be issued within 90 days before the date of uploading.

Applications can only be submitted after the payment of an **Admission Procedure Fee of 350 USD**, which covers the application fee and the costs of organizing and conducting the entrance examinations. Entrance examinations to our training programs (General Medicine, Dentistry and/or Pharmaceutical Sciences in English) consist of online written tests followed by an oral interview. Applicants having submitted their application(s) to the above training programs are eligible to sign up to the exam(s) of their choice – up to two occasions – through SEMAPHOR without paying any extra fee, as the two exam opportunities are covered by the Admission Procedure Fee.

The applicant is required to pay the Admission Procedure Fee through the online application portal by credit card, or by wire transfer directly to Semmelweis University's USD account. In the latter case, the name of the applicant and the application ID from the SEMAPHOR system has to be included in the comment field of the wire transfer and the proof of payment has to be uploaded to the online application portal. Please note that in case of wire transfer, the date on which the payment is credited to the University's account is considered as the date of payment!

**Exemption from Taking the Entrance Examination**

Applicants, who have submitted their application(s) via SEMAPHOR, may apply for an exemption from the entrance examination if they have obtained a B.Sc. (or higher) degree in a relevant field of specialty (i.e., closely related to medicine, biology or chemistry) in a higher education training program in English language. Exemption is not automatic. All requests for exemption are considered by the Admissions Committee and will be decided upon on the basis of the type(s) and issuing Institution(s) of the diploma(s), the attached transcript(s) showing the applicants performance, the recommendation letter(s), the proof of good command of English and of other details contained in the curriculum vitae and in the motivation letter. All documents should be submitted online as attachments to the application(s) in SEMAPHOR, and after having the application(s) submitted, a simple request for exemption from the entrance examination needs to be sent to the Directorate by e-mail: admission@semmelweis-univ.hu. Requests without online submission of application(s) are not considered. Applicants may sign up to and participate in entrance examinations if their request for exemption has been rejected.

**Withdrawal of Applications**

Submitted applications can only be withdrawn before the application deadline (the 31st of May, 2022). Applications cannot be withdrawn if one of the following conditions apply:

- the applicant has attended an entrance examination,
- the applicant was registered for but did not attend an entrance examination,
- a decision has been issued regarding the application.

**Entrance Examinations**

**Date of Examinations**

Entrance examinations are organized by Semmelweis University. Useful information can be found regarding entrance examinations at [http://semmelweis.hu/english/prospective-students/entrance-examinations](http://semmelweis.hu/english/prospective-students/entrance-examinations). Dates of the entrance examinations are announced in SEMAPHOR and can be seen after submission of the application(s).

**Content of the Entrance Examinations**

The online written exam consists of multiple choice tests in Biology, Chemistry and English (both general and biomedical). The subsequent interview aims to reveal the applicant's professional attitude and skills, and it includes an oral examination focused on the applicant's knowledge in Biology, Chemistry and English (both general and biomedical). The interview is conducted with personal attendance as a default but it might be held through an online platform as preannounced.

**Guideline of Topics for the Entrance Exams at the Faculties of General Medicine, Dentistry and Pharmaceutical Sciences**

The main topics of the exams are as follows:
1. **Evolution:** chemical and biological aspects.
2. **Chemical background in Biology:** structure of atoms; chemical bonds; ionic compounds and molecules; solutions; types and energetics of chemical reactions; acid-base reactions; redox reactions; inorganic constituents of living organisms; hydrocarbons; organic compounds containing oxygen or sulphur; organic compounds containing nitrogen; carbohydrates; amino acids and proteins; lipids; vitamins; nucleic acids.
3. **The cell and its organization** (morphology and function): Prokaryotes (bacteria) and Eukaryotes (focus on cilia and flagella, cell wall, cell membrane, endoplasmic reticulum, Golgi, lysosome, mitochondrion, ribosome, centriole, nucleus, nucleolus).
4. **From cells to tissues** of different structure and function.
5. **Cell division:** mitosis and meiosis.
6. **Anabolic and catabolic pathways** regarding nucleic acids, proteins, carbohydrates, lipids (bioenergetics included).
7. **The physiology of living organisms:** respiration, ingestion and digestion, excretion, circulation, endocrine and neural regulation, immune-biology, locomotion.
8. **Reproduction and development of animals.**
9. **Viruses.**
10. **Genetics:** Mendelian inheritance, human genetics.

   *Note: Knowledge of English terminology is required in all of these areas!*

**Registration**

Applicants have to register (sign up) for the entrance examinations in SEMAPHOR after having submitted a valid application (and paid the Admission Procedure Fee). Registrations can only be withdrawn before the deadline for registration to the given examination. The absence of a registered applicant at the entrance examination is not considered as the withdrawal of registration but as an examination attended without valuable result.

**Evaluation**

Entrance Examinations will be evaluated by the University Admission Committee Board based on the knowledge and performance of the applicant at the Entrance Examination and other strategic aims of the University including geographical and cultural diversity and gender balance.

**Student visa**

Foreign nationals (under visa obligation) wishing to pursue studies in Hungary are required to apply for entry visa (exceeding 90 days) in their home countries and enter the country on the entry visa issued by the Hungarian Embassy or Consulate. For more detail, please visit: [http://konzuliszolgalat.kormany.hu/how-to-apply-for-visa](http://konzuliszolgalat.kormany.hu/how-to-apply-for-visa).

Students coming from EU & EEA countries do not need a student visa, but have to apply for a registration certificate within 90 days after their arrival to Hungary.

**Fees and Costs**

**Fees related to the application and enrollment procedure for the Faculties of Medicine, Dentistry and Pharmaceutical Sciences**

- **Admission Procedure Fee:** USD 350
  
  *The Admission Procedure Fee is payable upon application.*

- **Deposit:** USD 2 000
  
  *Applicants admitted to the university have to pay a non-refundable deposit of 2 000 USD within 14 days after the notification of admittance. This amount will be deducted from the first semester’s tuition fee.*

- **Enrollment fee:** USD 220
  
  *The enrollment fee is payable together with the tuition fee after acceptance.*

The first semester’s tuition fee (less the amount of the deposit) and the enrollment fee has to be paid before August 21. Admitted applicants who need to apply for a student visa may be required to pay the tuition fee for the first one or two semester(s) before the visa application may be processed. Further details will be provided in the letter of admission.
# Tuition Fees and Additional Costs for Students of the Faculties of Medicine, Dentistry and Pharmaceutical Sciences

## Tuition Fees

<table>
<thead>
<tr>
<th>Faculty</th>
<th>Fee (Duration)</th>
<th>USD per semester</th>
</tr>
</thead>
<tbody>
<tr>
<td>Medicine (6 years)</td>
<td>USD 9,100</td>
<td></td>
</tr>
<tr>
<td>Dentistry (5 years)</td>
<td>USD 9,100</td>
<td></td>
</tr>
<tr>
<td>Pharmaceutical Sciences (5 years)</td>
<td>USD 6,000</td>
<td></td>
</tr>
</tbody>
</table>

Tuition fees should be paid:
- before 1 September for the fall semesters
- before 1 February for the spring semesters

Special conditions apply for the first tuition fee payment before formal enrollment (see above).

Students failing a year or after passive status pay the tuition fees paid by students of the year they join after the failure/passive status.

## Additional Material Fee for Dentistry Students (years 3-5):

USD 1,800/semester

This fee is subject to change.

## Payment Details

There are multiple ways to pay the various fees. However, certain payment methods are only available for paying certain fees, as summarized in the table below. In particular, admission procedure fee cannot be paid by cash payment and the online payment method (credit/debit card payment through the SEMAPHOR system) is only available for payment of the admission procedure fee. Checks and money orders are not accepted. Payment instructions for enrolled students are provided after the enrollment separately.

The following table summarized the different payment method options.

<table>
<thead>
<tr>

<tr>
<td>Admission procedure fee</td>
<td>Yes</td>
</tr>
<tr>
<td>Deposit</td>
<td>No</td>
</tr>
<tr>
<td>Enrollment fee</td>
<td>No</td>
</tr>
<tr>
<td>First tuition fee</td>
<td>No</td>
</tr>
</tbody>
</table>

### Online payment by credit/debit card through the SEMAPHOR system

This payment method is only available for paying the admission procedure fee. Card payments are made through a secure online system of OTP Bank, the largest commercial bank in Hungary. The payment can be initiated automatically from the online application system (SEMAPHOR). This is the preferred route of paying the admission procedure fee.

### Payment by wire transfer

All payments can be made by wire transfer to Semmelweis University’s below bank account. Payments have to be made in USD.

Account details of Semmelweis University are as follows:
- **Account holder:** Semmelweis University
- **Account Number (IBAN):** HU57 11763842-00881016-00000000
- **Bank name:** OTP Bank Nyrt.
- **Bank address:** Nádor utca 6., 1051 Budapest, Hungary
- **SWIFT code (BIC):** OTPVHUHB
The money transfer sheet should include the name of the student as written in the passport, as well as the SEMAPHOR ID as a note. The money transfer note should also include the correspondent Swift/BIC code. In case of paying the Application procedure fee, a scanned copy of the transfer sheet has to be uploaded into the SEMAPHOR system as proof of payment prior to submission of the application.

The above-mentioned net amounts have to be credited to the account, i.e. all bank commission fees and other charges have to be paid by the applicant/student. The date of payment is the date on which the payment is credited to the University’s bank account, i.e. payments have to arrive to the University’s bank account by the given deadline. Since international wire transfers may take several days, applicants/students are advised to initiate the wire transfer several days before the given deadline. If the above fees are not credited to our bank account by the above deadlines, applications will not be valid, and admissions will be automatically canceled.

Please contact the Admission Team’s finance administrator at application.finance@semmelweis-univ.hu to inquire about further information on payment details.

Refund Policy

1. Prior to enrollment (registration) at the university
   Refundable: tuition fee payment, except the admitted applicants’ deposit of USD 2,000, which is non-refundable.
2. After enrollment (registration) at the university
   Withdrawal of studies: Students, compelled to withdraw for academic/disciplinary reasons or have been accepted/transferred by another institute of higher education are not entitled to a refund of the tuition fee. Students are entitled to a refund on a pro rata basis if studies are interrupted due to a sound reason (e.g. a medically certified severe illness, the death of one of the parents/guardians, an obligatory military service or visa problems). The refund is applicable from the first day of the month following the reporting of the above-mentioned conditions with accompanying official certificates.
3. Suspension of studies (after registration):
   a. Student's legal relationship is suspended within a month following the beginning of the semester. Tuition is non-refundable. It can be transferred to the next active semester.
   b. Student's legal relationship is suspended more than a month after the beginning of the semester. Such deregistration is subject to special permission in duly justified cases. A reduction of the tuition fee up to its 75% may be granted and the surplus can be transferred to the next active semester. If the request for such a special permission is rejected, the semester must be considered as active, and the tuition fee cannot be refunded.
4. The Admission Procedure Fee can be refunded only if
   a. the application covered by the fee has never been submitted or it has been withdrawn before the application deadline;
   b. the applicant paid a higher fee (please note that only the overpayment can be refunded).

No other claims are acceptable. Any claim for refund of Admission Procedure Fee must be sent before the 30th of June via e-mail to application.finances@semmelweis-univ.hu.
Refund process may take between 30-60 calendar days.

Provision of Health Care

Students are provided a health care service, which includes an English-language call center, GP-service and treatment at the Polyclinics and Clinics of Semmelweis University. This service is granted during the active semesters until the end of the studies provided that tuition fee has been paid. Further details are included in the letter of acceptance. The health care service is automatically suspended when the student’s semester is passive.

Housing

The rent of an apartment is the responsibility of the student and rental prices vary according to the personal needs. Without an official address in Hungary the Residence Permit cannot be obtained. Student Housing information is available at https://semmelweishousing.com.
Student Life

International Student Association of Semmelweis – ISSA

ISSA is the student organization for the international students of Semmelweis University. Their roles are:

- working to obtain a better communication between the administration and the international students,
- to enable a better flow of information, and improve academic standards,
- dedication to the education and development of the Semmelweis University diverse student body and to creating a meaningful, learning centered campus life for students at the University,
- working in active partnership with student, faculty, and staff colleagues to strength and support student opportunities for learning, involvement, leadership, and creative expression that complement their academic experiences,
- supporting other student organizations and their leaders, who in turn provide programs and resources to the student body and the wider University community.

Book Fair

ISSA holds the Book Fair annually, and on demand per semester. It is a great opportunity for everyone to get the most useful books for less and to sell the ones not needed anymore. It is also a social gathering, and a chance for changing ideas about studying techniques and best teachers, notes, etc. You may also bring study tools/accessories to this event. It is not exclusively for books. Great way to connect, to save and make money. Hope to see you there!

Alumni Relations

Since the introduction of the English Language Program 32 years ago, several thousand foreign students have studied and graduated at Semmelweis University. These students had come from almost every corner of the world, adding a unique international character to our university. Thanks to the university's solid international reputation and to our ongoing strive to enhance the quality of education foreign nationals show a steady interest in studying at Semmelweis University.

Semmelweis University is decided to launch Semmelweis Alumni Association (SAA). With the help of SAA Semmelweis University aims at:

- keeping regular contact with our former students,
- providing a database for former students to reach each other,
- providing information about important events at Semmelweis University,
- providing information on the possibility to participate in residency and specialty training,
- organizing alumni reunions in the future.

The alumni homepage of Semmelweis University is http://alumni.semmelweis.hu.

QR code of the Academic Calendar (2021/2022)
Faculty of Health Sciences

Brief History of the Faculty of Health Sciences

The University’s second largest Faculty is the Faculty of Health Sciences. The Faculty started its first academic year in 1975 with the aim of training highly accomplished, skilled, committed and open-minded health care professionals. This was the first higher-level school in Hungary that trained dietitians, health visitors, physiotherapists, public health and epidemiology inspectors, vocational teachers, paramedics and voice, speech and swallowing therapists.

During the past years, both the structure and the curriculum have undergone changes in the spirit of modernization. As a result, there are at present 15 departments, about 200 highly qualified lecturers and more than 3500 students.

It was an important event in the life of the Faculty, when it became an integrated part of the famous and well-known Semmelweis University in 2000.

Facts and Figures

Since 1975, 20 programs have been established, and more than 23,000 students graduated from the Faculty.

During the last four decades, the Faculty has developed extensive international contacts in Europe, Asia and America. Within the framework of the ERASMUS+ Student Exchange Program, about 20 students and 6-10 lecturers have the opportunity to deepen their professionalism and knowledge in other European higher education institutions, gain new experience, and get acquainted with new, more advanced methods and techniques applied in foreign training centers each year. In the USA, we have been nurturing years-long cooperation with Rutgers University School of Nursing – Camden.

The Faculty's Asian relations have also been largely extended by establishing a fruitful relationship with Shanghai University of Traditional Chinese Medicine (P. R. of China), with Josai International University (Japan), and with Heilongjiang University of Chinese Medicine (P. R. of China). HLJUCM launched their Traditional Chinese Medicine B.Sc. training at our Faculty in 2010. We are also proud of having operated our B.Sc. Physiotherapy training in Lugano, Switzerland since 2009.

The Faculty continuously expands the range of its training programs in Hungarian and English. It offers study rooms, lecture halls, specialist laboratories, demonstration rooms and a public library all equipped with state-of-the-art technology, as well as a great variety of student activities and a motivating environment to prospective students. Following graduation, students of the Faculty can immediately be involved in different areas (e.g.: health care, tourism, education, sociology) and they are able to improve their close and broad environment.

The Faculty of Health Sciences currently has more than 3500 students including 247 students studying in the English programs and more than 100 students studying physiotherapy at the Lugano Campus in Switzerland.

International Recognition of the Degrees Obtained at the Faculty of Health Sciences

From 2004 – with Hungary becoming a member state of the EU – all diplomas of the Faculty of Health Sciences have been accepted by the member states of the EU with supplementary exams if needed. What is more, our graduates can also work in the United States and Canada after they have acquired sufficient proficiency of English and passed supplementary exams if needed.

Statement of Non-Discrimination

The Faculty of Health Sciences does not discriminate on the basis of race, color, national or ethnic origin, religion, gender, marital status, age or disability.

Programs in English

The Faculty of Health Sciences offers Physiotherapy, Nursing, Midwifery, Dietetics, Medical Diagnostic Analysis (Optometry), Public Health Supervisor, Health Tourism Management B.Sc. programs, furthermore, Nursing and Physiotherapy M.Sc. level program in English language for its applicants.

Requirements for Application and Admission

Application Criteria

Applicants must be at least 18 years of age by the end of the calendar year of application. Applicants are requested to either have completed high school/senior secondary school before the time of application, or to currently attend the last year of high school/secondary school. In the latter case, the Matriculation / School Leaving Certificate has to be presented latest at the registration.
Our English language programs are fundamentally available for applicants having no Hungarian citizenship as the Hungarian citizens are eligible to apply for the Hungarian language programs through FELVI. Special permission may be given to those having double citizenship if their secondary, high school, college etc. certificates or diplomas were/are obtained in non-Hungarian institutions and educational systems, and their application through FELVI is hindered or complicated by other individual factors (e.g., their poor Hungarian or their residing in a foreign country permanently, etc.). An official request for such a special permission needs to be sent to the Directorate by e-mail: student@se-etk.hu.

Application Procedure

Applications should be completed online at: https://semaphor.semmelweis.hu until 15 August 2022. Applicants can assign one of the officially appointed local representatives recruiting for Semmelweis University (see the list of representatives at http://semmelweis.hu/english/prospective-students/our-representatives/). For more information, please contact the Foreign Students’ Secretariat of the Faculty of Health Sciences (mailing address: H-1085 Budapest, 26 Üllői út, Hungary; E-mail: student@se-etk.hu).

Documents Required on Application to the B.Sc. Programs

The following documents are required to be uploaded (original or as attested copies, in English or the original language with an authorized English translation).

1. Secondary School Leaving Certificate from an accredited secondary school. This document is a necessary prerequisite of starting the studies (original/attested copy + copy). If the student at the time of applying has not completed his/her studies at secondary school yet, the leaving certificate can be submitted until the registration day.
2. Medical report for application – signed by a GP (the form can be downloaded from the Faculty’s website)
3. Photograph. One passport size photo
4. Curriculum Vitae in English
5. Copy of Passport/ID card with the applicant's personal data and the expiry date of the passport/ID card.
6. Letters of Recommendation. Letters in English from a secondary school principal or science instructor are welcome, but not obligatory.
7. Payment Certificate about the payment of the 450 EUR admission procedure fee if the applicant chooses not to use the online payment system.

Documents Required on Application to the M.Sc. Programs

The following documents are required to be uploaded (original or as attested copies, in English or the original language with an authorized English translation).

1. B.Sc. diploma
2. Transcript of studies
3. Medical report for application – signed by a GP (the form can be downloaded from the Faculty’s website)
4. Photograph. One passport size photo
5. Curriculum Vitae in English
6. Copy of Passport/ID card with the applicant's personal data and the expiry date of the passport/ID card.
7. Letters of Recommendation. Letters in English from a secondary school principal or science instructor are welcome, but not obligatory.
8. Payment Certificate about the payment of the 450 EUR admission procedure fee if the applicant chooses not to use the online payment system.

Withdrawal of Applications

Submitted applications can only be withdrawn before the application deadline (the 31st of May, 2022). Applications cannot be withdrawn if one of the following conditions apply:

• the applicant has attended an entrance examination,
• the applicant was registered for but did not attend an entrance examination,
• a decision has been issued regarding the application.
Entrance examinations

Entrance exams are held regularly in Budapest and online (please see https://semmelweis.hu/etk/en/admissions/entrance-examinations/). Applicants will be informed about the place and date of the exams by the Faculty or by the local representative.

Entrance examinations consist of an English test, a test in Biology, and writing of a Motivation letter for both B.Sc. and M.Sc. programs, and an (online or in-person) oral interview in case of MSc programs.

The exams will be evaluated by the Faculty Board, and applicants will be notified about the results within one month.

Applicants have to register (sign up) for the entrance examinations in SEMAPHOR after having submitted a valid application (and paid the Admission Procedure Fee). Registrations can only be withdrawn before the deadline for registration to the given examination. The absence of a registered applicant at the entrance examination is not considered as the withdrawal of registration but as an examination attended without valuable result.

Student visa

Foreign nationals (under visa obligation) wishing to pursue studies in Hungary are required to apply for entry visa (exceeding 90 days) in their home countries and enter the country on the entry visa issued by the Hungarian Embassy or Consulate. For more detail, please visit: http://konzuliszolgalat.kormany.hu/how-to-apply-for-visa.

Accepted students have to apply for a student visa. The visa application form can be downloaded from http://www.bmbah.hu.

Students coming from EU & EEA countries and holders of passports issued by countries that granted visa-free travel to Hungary under bilateral agreements (http://konzuliszolgalat.kormany.hu/visa-waiver-agreements) do not need a student visa, but have to apply for a registration card within 90 days after their arrival.

Tuition Fees and Additional Costs

The yearly tuition fee is to be paid in two instalments by semesters until the deadlines given below.

**For B.Sc. Studies in Nursing, Physiotherapy, Midwifery, Dietetics, Medical Diagnostic Analysis (Optometry), Public Health Supervisor and Health Tourism Manager**

**Admission procedure fee:** EUR 450
Payable at the time of application and also covers the entrance examination fees of exams held in Budapest, Hungary. Should the applicant wish to take an entrance exam outside of Hungary, he/she should contact the local representative recruiting for Semmelweis University for information about any additional expenses beyond the above admission procedure fee.

The admission procedure fee should be paid online by credit card through a secure payment channel from the online application portal, or by wire transfer directly to Semmelweis University.

**Enrollment (registration) fee:** EUR 220
Payable at the beginning of your studies, together with the 1st semester's tuition fee.

**Tuition fees payable by students establishing student status in the 2022/2023 Academic Year:**
The tuition fee of the first semester has to arrive on the bank account at the latest by the date indicated in the acceptance letter (together with the enrolment fee). The tuition fees of the following semesters have to be paid until the deadline indicated in the Academic Calendar of the Faculty.

Payment Details

There are multiple ways to pay the various fees. However, certain payment methods are only available for paying certain fees, as summarized in the table below. In particular, admission procedure fee cannot be paid by cash payment and the online payment method (credit/debit card payment through the SEMAPHOR system) is only available for payment of the admission procedure fee. Checks and money orders are not accepted. Payment instructions for enrolled students are provided after the enrolment.

The following table summarizes the different payment method options.

<table>

Online payment by credit/debit card through the SEMAPHOR system
This payment method is only available for paying the admission procedure fee. Card payments are made through a secure online system of OTP Bank, the largest commercial bank in Hungary. The payment can be initiated automatically from the online application system (SEMAPHOR). This is the preferred route of paying the admission procedure fee.

Payment by wire transfer
All payments can be made by wire transfer to Semmelweis University’s bank account below. Payments have to be made in EUR.

Account details of Semmelweis University are as follows:

  Account holder: Semmelweis University
  Account Number (IBAN): HU51-11763842-00880888-00000000
  Bank name: OTP Bank Nyrt.
  Bank address: Nádor utca 6., 1051 Budapest, Hungary
  SWIFT code (BIC): OTPVHUHB
The money transfer sheet should include the name of the student as written in the passport, as well as the SEMAPHOR ID as a note. The money transfer note should also include the correspondent Swift/BIC code. In case of paying the Application procedure fee, a scanned copy of the transfer sheet has to be uploaded into the SEMAPHOR system as proof of payment prior to submission of the application.

The above-mentioned net amounts have to be credited to the account, i.e. all bank commission fees and other charges have to be paid by the applicant/student. The date of payment is the date on which the payment is credited to the University’s bank account, i.e. payments have to arrive to the University’s bank account by the given deadline. Since international wire transfers may take several days, applicants/students are advised to initiate the wire transfer several days before the given deadline. If the above fees are not credited to our bank account by the above deadlines, applications will not be valid, and admissions will be automatically cancelled.

Please contact the officially appointed local representative recruiting for Semmelweis University in your country to inquire about further information on payment details.

Refund Policy

1. Prior to enrolment (registration) at the university
   Tuition fee is refundable prior to enrolment.
   Accepted students who did not register yet at the University have to pay their tuition fee until the date given in the Bulletin and/or in the acceptance letter issued by the University. In case he/she does not pay the prescribed tuition fee after the start of the training period, within 30 days after the first day of the study period, the University will terminate his/her student status immediately.

2. After enrolment (registration) at the university
   Withdrawal of studies: Students, compelled to withdraw for academic/disciplinary reasons or have been accepted/transferred by another institute of higher education are not entitled to a refund of the tuition fee.
   Students are entitled to a refund on a pro rata basis if studies are interrupted due to a sound reason (e.g. a medically certified severe illness, the death of one of the parents/guardians, an obligatory military service or visa problems). The refund is applicable from the first day of the month following report of the above-mentioned conditions with accompanying official certificates.

3. Suspension of studies:
   a. Student’s legal relationship is terminated or suspended in writing before the start of the semester. Tuition fee is refundable.
   b. Student’s legal relationship is terminated in writing after registration within a month following the beginning of the semester. A reduction of the tuition fee up to its 75% may be refunded.
   c. Student’s legal relationship is suspended in writing after registration within a month following the beginning of the semester. Tuition fee is refundable or can be transferred to the next active semester based on the student’s request.
   d. Student’s legal relationship is suspended after registration more than a month later than the beginning of the semester. Such deregistration is subject to special permission in duly justified cases. A reduction of the tuition fee up to its 75% may be granted and the surplus can be transferred to the next active semester or can be refunded.

4. The Admission Procedure Fee can be refunded only if
   a. the application covered by the fee has never been submitted or it has been withdrawn before the application deadline;
   b. the applicant paid a higher fee (please note that only the overpayment can be refunded).

5. Registration fee is not refundable.

No other claims are acceptable. Any claim for refund of Admission Procedure Fee must be sent before the 20th of August. Refund process may take between 30-60 calendar days.

Medical Examinations

Students of the Faculty of Health Sciences are required to have some medical examinations to start their studies (please present these during registration):

1. Chest X-ray result (no older than 1 year)
2. Hepatitis B vaccinations (date of the 3 vaccinations) and immunization result (no older than 3 months)
3. Hepatitis C negative result (no older than 3 months)
4. HIV negative result (no older than 3 months)
5. Vaccination certificate against COVID-19 or signed and stamped medical examination which certifies that the applicant cannot be vaccinated (Note: we ask for this certificate according to the currently valid Government’s Directives)

Students need to acquire these certificates themselves and they also have to pay for most of them.
Please note that if you want to partake in the obligatory Field Practices you will need to acquire these medical certificates, and in later semesters other additional examinations as well. You can find more information about those on the Faculty’s website.

Provision of Health Care

Students are provided a health care service, which includes an English-language call center, GP-service and treatment at the Polyclinics and Clinics of Semmelweis University. This service is granted during the active semesters until the end of the studies provided that tuition fee has been paid. Further details are included in the letter of acceptance. The health care service is automatically suspended when the student’s semester is passive.

Housing

The rent of an apartment is the responsibility of the student and rental prices vary according to the personal needs. Without an official address in Hungary, the Residence Permit cannot be obtained. Student Housing information is available at https://semmelweishousing.com.

Programs in English

Physiotherapy B.Sc. Program

Physiotherapists act as autonomous practitioners who are able to perform functional examinations, identify impairments, functional limitations, abilities and disabilities by using clinical decision-making processes. Physiotherapists treat patients with movement therapy and manual techniques, as the professionals’ chief task is to improve the functions of the musculoskeletal system. The therapists develop movement therapies, and apply electrotherapeutic treatment, therapeutic ultrasound, and different manual and massage treatments for the sake of healing and rehabilitation or for the prevention of health damage. Graduates take part in healing locomotor (orthopedic, rheumatologic, traumatologic), cardiovascular, obstetrical, gynecological, neurological and psychiatric disorders. Prevention and health promotion belong to the specialists’ profession, too. Physiotherapists plan, explain, carry out, and adapt an examination-based treatment, draw conclusions from the examination as a whole and rank the main problems according to priority.

Minimum of enlisted applicants: 15
Length of studies: 8 semesters, 240 credits
Degree: B.Sc.
Entrance requirements: applicants must successfully complete a Biology test and a language test in English.
Major curricular components: Functional Analysis of the Musculoskeletal System, Radiology and Imaging Diagnostics, Basics of Medical Technology and Biophysics, Electro-, Balneo-, Hydro-, Climatotherapy, Applied Training Methodology, Cardiorespiratory Physiotherapy, Physiotherapy in Internal Medicine, Physiotherapy in Orthopedics, Physiotherapy in Traumatology, Physiotherapy in Rheumatology, Physiotherapy in Neurology and Psychiatry, Complex Rehabilitation, Physiotherapy in Specific Age-groups, Physiotherapy in Special Life Situations, Clinical Simulation.
Career opportunities: Hospitals, Clinics, Outpatient Clinics, Rehabilitation Centers, Adult Care Institutions, Primary Care, Home-Based Care, Schools, Hospice Care, Workplace Health Centers, Medical Tourism (Wellness Hotels, Thermal Baths, Spas), NGO Regional Community Wellness Programs, Sports Centers, Professional Sport Teams. After completing this program, students can go on with their studies to the M.Sc. Program.

Physiotherapy M.Sc. Program

Master’s level physiotherapists develop therapeutic procedures and protocols based on their extensive national and international knowledge and skills, recognize and analyze physical, anatomical, physiological and pathological factors affecting physical ability and capacity. They participate in solving scientific problems in physiotherapy and finding new skills and knowledge in their expertise. The specialists perform scientific evaluation of the effectiveness of physiotherapeutic methods, organize and realize clinical research in physiotherapy, act as leaders in hospital units of physiotherapy, apply fundamental regulations and quality control principles in the management of health institutions and private enterprises. The promotion of health education on local, community, national and international levels also belongs to the tasks of a physiotherapist.

Minimum of enlisted applicants: 15
Length of studies: 3 semesters, 90 credits
Degree: M.Sc. in Physiotherapy
Entrance requirements: applicants are required to have a Bachelor degree in Physiotherapy and they have to complete a theoretical written exam of professional knowledge.
Major curricular components: Significance of Diagnostic Imaging in Physiotherapy Practice, Pharmacology, Clinical Science of Musculoskeletal Disorders, Clinical Science in Neurological Disorders, Clinical Science of
Cardiorespiratory Diseases, Developmental Neurology, Clinical Exercise Physiology, Assistive Devices in Physiotherapy and Rehabilitation, Clinical Neuropsychology, Differential Diagnosis in Physiotherapy Practice, Scientific Background and Evidence-based Practice of Active Therapeutic Exercise, Evidence-based Manual Therapy in Physiotherapy Practice, Evidence-based Neurological Physiotherapy in Physiotherapy Practice.

**Career opportunities:** In a variety of healthcare settings including hospitals, rehabilitation and community health centers, private practice, industrial clinics and specialist facilities. Qualified master physiotherapists may also work in education as a clinical supervisor and researcher.

**Nursing B.Sc. Program**

The occupation of nurses is a vocation that is pursued for the sake of health preservation, promotion and patient healing. Nurses observe patients in the hospital and continuously monitor their needs, take part in disease prevention and act as active contributors to the process of the patient’s recovery and rehabilitation. They help patients absorb and understand the information on their health status. Nurses holding a BSc degree can organize, manage and supervise all their internal medical, surgical, obstetric-gynecological, psychiatric, intensive nursing and primary care tasks in every area of health care. They are responsible for conducting the healing-nursing activities prescribed by the physician and help the patient and the physician perform certain examinations. Graduates of the specialty are able to provide health care treatment for each age group from premature infants to elderly patients, explore the special needs of the patient and the person cared for, prepare nursing diagnoses and perform the tasks professionally on the basis of priorities, participate in planning, developing and implementing health care and social services.

**Minimum of enlisted applicants:** 15

**Length of studies:** 8 semesters, 240 credits

**Degree:** B.Sc.

**Entrance requirements:** applicants must successfully complete Biology test and a language test in English.

**Major curricular components:** Basics of Nursing, Nursing Ethics, Internal Medicine and Nursing, Surgery and Nursing, Obstetrics-Gynecology and Nursing, Anesthesiology, Intensive Therapy and Nursing, Pediatrics and Nursing, Neurology and Nursing, Psychiatry and Nursing, Primary Health Care and Community Nursing, Oncology and Nursing, Case Studies in Simulation.

**Career opportunities:** Primary Care, Specialized Care (Hospitals, Clinics, Nursing Homes, Hospice Care).

**Nursing M.Sc. Program**

Graduates of the B.Sc. Nursing program can go on with their studies in the master program. The M.Sc. program aims at training professionals who have thorough knowledge of the operation of the domestic health care system and the developmental opportunities concerning society, who participate in solving the scientific problems of nursing. M.Sc. graduates can conduct research projects in their professional field and initiate the adaptation of findings into practice. Completing the master program, nurses are able to work independently, define problems, priorities and goals concerning public health, and fulfill tasks of resource management. Graduated master nurses can continue their studies in the Ph.D. program.

**Minimum of enlisted applicants:** 15

**Length of studies:** 3 semesters, 90 credits

**Degree:** M.Sc.

**Entrance requirements:** applicants must successfully complete a language test in English and conduct a personal interview.

**Specialization:** Community Health Nursing (APN)

**Major curricular components:** Health promotion-Health education, Health Informatics, Chronic Diseases, Family planning, Antenatal care, Preventive Pediatrics, Multiculturalism-Transcultural Nursing, Place and relationships of the APN in the healthcare, Complex Rehabilitation, Pharmacology, Scientific Research and Biostatistics, Acute diseases, Clinical Diagnosis and Decision Making, Clinical Practice, Community Nursing - Modern nursing interventions Community Nursing - Modern nursing interventions, Communication in health care, Health Care Management - Project Management, Healthcare Law, Nursing Management and Leadership, Health ethics, nursing ethics, Community project practice, Nursing Education in Clinical Practice.

**Career opportunities:** Primary Care, Specialized Care, Educational Institutions, Local Government, Media, Prevention, Insurance Company, Commercial Enterprises.

**Midwifery B.Sc. Program**

Midwives fulfill caring and nursing tasks during pregnancies, in the postpartum period and in case of gynecological problems. Their responsibilities include monitoring pregnancies, labors and the postpartum progress while cooperating with other healthcare professionals in order to achieve the best possible outcome for each family. From the start of the parturition, midwives prepare and continuously support and encourage the woman during labor, monitor the process of deliveries and the mother-infant connection, assess and register their observations. Midwives individually assist
deliveries, take care of the protection of the perineum and of the treatment of the woman and the newborn baby during the postpartum period. Graduate midwives look after, nurse and care for female patients and perform the required specialized treatment. State of the art skill laboratories help the preparation of the students for their future profession.

Minimum of enlisted applicants: 15
Length of studies: 8 semesters, 240 credits
Degree: B.Sc.
Entrance requirements: applicants must successfully complete a Biology test and a language test in English.
Career opportunities: Obstetrics-Gynecology Department/Delivery Room, Special Outpatient Department, Prenatal Care, Postpartum Care, Lactation Consultant, Family Planning.

Dietetics B.Sc. Program

Dietitians deal with the questions of human nutrition and possess knowledge about healthy diet and diseases caused by unhealthy nutrition. Graduates are able to practice diet therapy independently, or perform dietetic and catering tasks as members of a therapist team. The specialist’s tasks include individual and group counselling, preventing nutrition related chronic and non-contagious diseases, organizing diet plans according to the client’s sensitivity and disease type. They manage catering units: lead the catering service, organize catering work procedures, and establish appropriate and acceptable conditions for catering. Dietitians play an important role in teaching how to lead a preventive and healthy life as they can also develop and implement programs for health promotion.

Minimum of admitted applicants: 15
Length of studies: 8 semesters, 240 credits
Degree: B.Sc.
Entrance requirements: applicants must successfully complete a language test in English and a Biology test.
Career opportunities: Specialized Care (Hospitals and other Social and Health care facilities), Public institutions and companies, Fitness and wellness industry.

Medical Diagnostic Analysis B.Sc. Program (Optometry)

Optometrists are able to utilize their optic, optometric, measuring and clinical knowledge gained during the training program, conduct the examination and correction of the eye individually and prescribe optical aids (eyeglasses, contact lenses) with the aim of attaining the optimal visual acuity in patients. The professionals are able to estimate the refractive medium, refractive ability, errors of refraction, the way eye muscles function, and the ability of heterophoria and convergence. They examine binocular vision, the chamber of the eye, crystalline lens, vitreous humor and the eye fundus with the help of a slit lamp, and they estimate ocular tension. Optometrists utilize their clinical and nursing knowledge during their daily activities, actively participate in improving the culture of vision of individuals, communities and the population. Through examinations, the optometrist recognizes and evaluates the disorders of the eye and so contributes to the immediate receipt of specialized care.

Minimum of enlisted applicants: 15
Length of studies: 8 semesters, 240 credits
Degree: B.Sc.
Entrance requirements: applicants must successfully complete a Biology test and a language test in English.
Career opportunities: Optic Shops, Outpatient Ophthalmologic Clinics and Hospitals, Optical Products and Project Management, Ophthalmologic Diagnostic Laboratories, Ophthalmic Assistance, Ophthalmic Research Projects.

Health Tourism Management B.Sc. Program

Graduates of the training take part in organising and managing health promotion activities, prepare projects that aim at developing health tourism and strengthening international cooperation, and they participate in the implementation of tourism development programmes of the European Union. The health care manager is a versatile professional who is
proficient both in health care processes and in the field of tourism. Their acquired knowledge comprises information on health, tourism and business, therefore they are not only able to see through, organise and coordinate the operation of health care institutions but with appropriate business knowledge they are able to market and manage them, too. The speciality provides the necessary knowledge to create health tourism, health preservation, curative and rehabilitation programmes.

**Minimum of enlisted applicants:** 15

**Length of studies:** 8 semesters, 240 credits

**Degree:** B.Sc.

**Entrance requirements:** applicants must successfully complete a Biology test and a language test in English.

**Major curricular components:** System of Tourism, Theories and Methodology of Prevention, Rehabilitation, Legal and Ethical Issues in Medical Tourism, Health Care and Quality Management, Introduction to Health Tourism, Medical and Wellness Tourism, Health Tourism Development, Health Tourism Management, Tour Operation, Theory and Method of Prevention, Gastronomy and Reform Nutrition, Recreation and Fitness, Complex Physiotherapy, Stress Management Techniques and Methods, Rehabilitation, Environmental Economics, Cooperation and Service Chain, Project Management (Knowledge).

**Career opportunities:** Medical tourism, Service marketing, Destination management, Praxis management, Quality assurance

---

**Public Health Supervisor B.Sc. Program**

Public health supervisors deal with epidemiological tasks consisting of the organization of public health investigations and the analysis of data collected during the investigations. They are also actively involved in planning, organizing, realizing and evaluating health promotion campaigns. Students will learn how to perform public health related municipal activities and carry out municipal supervision based on current regulations. They will get an insight into the complex procedure of initiating, planning and managing epidemiological tasks, as well as analyzing, interpreting, using and applying the results of epidemiological examinations. During the 4 years of the program, students will master a comprehensive approach to health promotion by acquiring thorough theoretical knowledge and practical skills in a wide range of disciplines, including microbiology, epidemiology, toxicology, food safety and environmental health.

**Minimum of enlisted applicants:** 15

**Length of studies:** 8 semesters, 240 credits

**Degree:** B.Sc.

**Entrance requirements:** applicants must successfully complete a Biology test and a language test in English.

**Major curricular components:** Simulated Clinical Case Studies, Healthcare Technical Basics, Toxicology, Environmental Health, Occupational Health – Chemical Safety, Radiation Hygiene, Food and Catering Hygiene and food Safety, Detailed Microbiology, Epidemiology of Non-infectious Diseases, Epidemiology of Infectious Diseases, Public Health and Preventive Medicine, Health Promotion Strategies, Administration of Health Care, Prevention of Infectious Diseases

**Career opportunities:** Regional institutes of public health administration, Hospital hygiene, Industrial and agricultural hygienic inspectors, Multinational companies, Health Insurance, Occupational Health, Health Promotion Consultant, Lifestyle Advisor

---

**General Information about Studies at the Faculty of Health Sciences**

**Transfer from other Universities**

Students who have successfully pursued studies at other accredited universities (in Hungary or abroad) can apply for admission without being obliged to take an entrance examination, though they can be asked to take an English test to prove their language levels in case the language of their programme is not English. Subjects of previous studies with identical or at least 75% similar content to the subjects included in the curriculum of Semmelweis University Faculty of Health Sciences can be accredited, meaning that admission to an upper year might be possible.

Transfer students are required to prove their current student status and previous study results. The previous study results will be examined by Semmelweis Credit Transfer Committee. On the basis of this examination it will be decided how many of the previously completed subjects get accredited, and in which year the applicant can start his/her studies.

**Required documents for Transfer to the Faculty:**

1. **Completed transfer request form:** indicating the student's intentions about the transfer (form is downloadable from the Faculty's website: Forms, Transfer request form)
2. **Official Transcript/Academic record:** including all the grades and credits from the previous college/university studies (original/attested copy)
3. **Student status certification:** from the current university (issued not more than 30 days prior to the request's submission, indicating the currently active/passive student status)

**Please note that we need:**

- the original English document OR
- the attested copy of the original English document OR
• the authorized English translation of the original non-English document.

Further Documents Required for Credit Transfer

In case the applicant would like to turn in a Credit Transfer Request to get his/her earlier studies (credit points) accredited, it is necessary to present the following documents:
• official Subject Descriptions (signed and stamped)
• completed credit transfer request form for each and every target subject (form is downloadable from the Faculty’s website: Forms, Credit transfer request form)
• official certification about the field practices
• official Transcript/Academic record, including all the grades and credits from the previous college/university studies (original/attested copy)

Further information about the credit transfer request will be provided at the Foreign Student Secretariat after a successful enrolment. The deadline for turning in transfer and/or credit transfer request to the Faculty of Health Sciences is 15 June 2022.

Academic Policies

Students are required to know and act according to the Faculty’s Studies and Examinations Regulations. Attendance at classes and practical exercises are prescribed in the valid Subject Descriptions.

Students are expected to take examinations when scheduled, otherwise they lose their chances to take exams in the given subject. The credit-system allows a certain degree of flexibility in signing up for courses and in the timing of exams.

It conforms to international standards and helps an easier setting-in of students with different educational backgrounds.

Students get more information about study matters at the Registration and during the course entitled ‘Introduction to Higher Education Studies’.

Basics of the Credit-based System

A new credit system was introduced in September 2003 to sub-serve free workflow in the EU, and to promote easy career adjustment in the framework of lifelong learning.

• A credit point is a unit of measure of average total student coursework workload needed to complete a subject. A credit is earned if the student receives at least a pass mark (or a "satisfactory" mark) for a course. The value of the credit earned is independent of the mark received for the course.
• No credit will be earned if any of the policies are violated.
• One credit is earned for every thirty hours of the student's academic work. This academic work includes the time spent in class and the time spent on individual work by the student.
• Credits can be earned for courses that conclude with examinations.
• It is possible for students to have their earlier studies (certain credit points) admitted via the accreditation process. In this case, they have to submit a Credit Transfer Request.
András Pető Faculty

Brief History of András Pető Faculty

Conductor training started in 1963. Since then, it has been improved up to BA level education. In 2017, the András Pető College was integrated to the Semmelweis University as the András Pető Faculty.

The integration as the sixth faculty of the University brought a new feature of education, which is the pedagogical field of education. The faculty provides conductor training, the professional using conductive education for supporting people in their improvement in dealing with motor and coordination challenges due to the impairment of the central nervous system.

Facts and Figures

More than 2000 students graduated since conductor training has started. Among these students there are Hungarian as well as international students, since the 1980’s.

The Faculty has participated in international Erasmus programs via different European projects, and different Erasmus+ student programs. The Practicing Institutions of the Faculty also accepts students for Erasmus+ traineeship program and offers the opportunity to get familiar with the practice of conductive education.

The Faculty has different higher education co-operations in Europe, such as the United Kingdom, Germany, Russia, Ukraine, Romania.

Training of Japanese conductors gave the opportunity to establish conductive education institutions in Japan, as our first Asian partners.

New education cooperation has been established in the Public Republic of China, Shandong, Jinan.

More than 30 years of experience in co-education is gained with the Aquinas College, in Grand Rapids, Michigan, United States.

The Faculty continuously working on developing its education programs in Hungarian and English and the co-operations with other higher education institutions.

International Recognition of the Degrees Obtained at the András Pető Faculty

The conductor degree is well known all over the world. Due to the specialty of the conductor profession and its training program it has been on the process of recognizing this diploma not only in Europe, but all over the world. Based on our experience the conductors welcome in all countries of the world. In some cases, the Faculty is asked to provide certificates on the type of education, and in the United states, conductors may be asked to complete required exams by the State and a proficiency level exam in English.

Statement of Non-Discrimination

András Pető Faculty does not discriminate on the basis of race, color, national or ethnic origin, religion, gender or marital status.

Program in English

The András Pető Faculty offers conductor training on BA level in English, from September 2021.

Application Procedure and Documents Required for Applications

Application must be sent to:
By e-mail: conductor.ba@semmelweis-univ.hu
By post: András Pető Faculty of Semmelweis University; Üllői út 26, Budapest, H-1085
Deadline for application: May 31st, 2022

The following documents are required to be mailed (original or as attested copies, in English or the original language with an authorized English translation).

- Application form – the form must be downloaded from the homepage of the Faculty: https://semmelweis.hu/pak/files/2020/11/Application_form-1.pdf
- Secondary School Leaving Certificate from an accredited secondary school. This document is a necessary prerequisite of starting the studies (original/attested copy + copy). If the student at the time of applying has not completed his/her studies at secondary school yet, the leaving certificate can be submitted until the registration day.
- Medical report for application – signed by a GP (the form can be downloaded from the Faculty’s website)
- Language certificate or equivalent document (which proves language skills English knowledge on B2 level)
Entrance Examinations

Via Zoom system or video recording:
- Proof of some of the musical skills: singing or humming short national origin folk song, repeating rhythmic clapping, etc.
- Proof of physical stamina: continuous running at low pace for 3-5 minutes, arm circling while running, crouching down and standing up, changing the directions of running, hopping on one leg then on both legs. Gymnastic exercises: for showing the flexibility of arm, shoulder, hip, and leg joints. Introducing arm, leg and trunk exercises and activities requiring balance skills.

Applicants will be informed about the date of the exams by the Faculty. The exams will be evaluated by the Faculty Board, and applicants will be notified about the results within three weeks.

Student visa

Foreign nationals (under visa obligation) wishing to pursue studies in Hungary are required to apply for entry visa (exceeding 90 days) in their home countries and enter the country on the entry visa issued by the Hungarian Embassy or Consulate. For more detail, please visit: http://konzuliszolgalat.kormany.hu/how-to-apply-for-visa.

Accepted students have to apply for a student visa. The visa application form can be downloaded from http://bmbah.hu/index.php?lang=en.

Students coming from EU & EEA countries and holders of passports issued by countries that granted visa-free travel to Hungary under bilateral agreements (http://konzuliszolgalat.kormany.hu/visa-waiver-agreements) do not need a student visa, but have to apply for a registration card within 90 days after their arrival.

Tuition Fees and Additional Costs

The yearly tuition fee is to be paid in two installments by semesters until the deadlines given below.

Admission procedure Fee: EUR 450
Payable at the time of application and also covers the entrance examination fees of exams.

The admission procedure fee should be paid by wire transfer directly to Semmelweis University.

Enrolment Fee: EUR 220
Payable at the beginning of your studies, together with the 1st semester's tuition fee.

Tuition fee: EUR 4420 per semester
The tuition fee of the first semester has to arrive on the bank account at the latest by the date indicated in the acceptance letter (together with the enrollment fee). The tuition fees of the following semesters have to be paid until the deadline indicated in the Academic Calendar of the Faculty.

Please note that the payment is considered fulfilled when the amount arrives to the account below. Note that bank transfers can take 3–5 workdays.

Payment Details

Payment by wire transfer:
All payments can be made by wire transfer to Semmelweis University’s bank account below. Payments have to be made in EUR.

Account details of Semmelweis University are as follows:

Account holder: Semmelweis University
Account Number (IBAN): HU51 11763842-00880888-00000000
Bank name: OTP Bank Nyrt.
Bank address: Nádor utca 6., 1051 Budapest, Hungary
SWIFT code (BIC): OTPVHUHB

The money transfer sheet should include the name of the student as written in the passport. The money transfer note
should also include the correspondent Swift/BIC code.

The above-mentioned net amounts have to be credited to the account, i.e. all bank commission fees and other charges have to be paid by the applicant/student. The date of payment is the date on which the payment is credited to the University’s bank account, i.e. payments have to arrive to the University’s bank account by the given deadline. Since international wire transfers may take several days, applicants/students are advised to initiate the wire transfer several days before the given deadline. If the above fees are not credited to our bank account by the above deadlines, applications will not be valid, and admissions will be automatically cancelled.

Cash payment:
Admitted applicants who have received an official letter of admission can pay the various fees (Enrolment fee and First tuition fee) by cash payment directly to the University upon request and pre-authorization. A formal request needs to be submitted immediately after receiving the official letter of admission. Further instructions and pre-authorization of cash payment will then be provided.

Refund Policy

1. Prior to enrolment (registration) at the university
   Tuition fee is refundable prior to enrolment.

2. After enrolment (registration) at the university
   Withdrawal of studies: Students, compelled to withdraw for academic/disciplinary reasons or have been accepted/transfered by another institute of higher education are not entitled to a refund of the tuition fee. Students are entitled to a refund on a pro rata basis if studies are interrupted due to a sound reason (e.g. a medically certified severe illness, the death of one of the parents/guardians, an obligatory military service or visa problems). The refund is applicable from the first day of the month following report of the above-mentioned conditions with accompanying official certificates.

3. Suspension of studies:
   a. Student's legal relationship is suspended after registration within a month following the beginning of the semester. Tuition is non-refundable. It can be transferred to the next active semester.
   b. Student's legal relationship is suspended after registration more than a month later than the beginning of the semester. Tuition fee is non-refundable. It cannot be transferred to the next active semester and the semester must be considered as active.

4. The Admission Procedure Fee can be refunded only if
   a. the application covered by the fee has never been submitted or it has been withdrawn before the application deadline;
   b. the applicant paid a higher fee (please note that only the overpayment can be refunded).

No other claims are acceptable. Any claim for refund of Admission Procedure Fee must be sent before the 20th of August. Refund process may take between 30-60 calendar days.

Field Practices

Practical training is closely related to the theoretical education in conductor training and organized by the faculty. The given order of the different practice cannot be changed.

Provision of Health Care

Students are provided a health care service, which includes an English-language call center, GP-service and treatment at the Polyclinics and Clinics of Semmelweis University. This service is granted during the active semesters until the end of the studies provided that tuition fee has been paid. Further details are included in the letter of acceptance. The health care service is automatically suspended when the student’s semester is passive.

BA Program in English

The conductor is an educational rehabilitation professional who is trained to use the method of conductive education and support the habilitation of children with cerebral palsy or other impairments of the nervous system causing difficulties in motor development/performance or coordination. Conductor is able to participate in adult rehabilitation as well, specialized in motor development of those who has neurodegenerative diseases such as Parkinson disease or Multiple Sclerosis, or conditions after stroke, or cranial/brain injuries. Conductive education through it holistic approach supports its participants in developing as independent life as possible by coming over or learning to live with their difficulties.

The conductor BA program is an 8-semester-long training including more than 40 percent practice of the total education hours.

- Minimum of enlisted applicants: 10 students
- Entrance requirement: Completing application exams and proof of B2 level of English language
- Length of studies: 8 semesters
- Degree: Conductive Education (Bachelor, BA)
- Specialization: pedagogical rehabilitation

Major curricular components: Education history, education science, special education, anatomy of neuro-system and musculoskeletal system, psychology in general, development psychology, neuro psychology, conductive education.

Career opportunities: working in conductors’ team, working in multi-professional teams in education, rehabilitation or health institutions.
