

Only those are entitled to perform healthcare activities who, considering their health, mental, and physical condition, are capable and suitable for carrying out such activities. Before starting healthcare activities, it is necessary to participate in a preliminary medical fitness examination (for freshmen) and, with the frequency determined by the healthcare provider, in periodic medical fitness examinations (at least once a year).

The medical fitness examination is carried out by the Occupational Health Service (FESZ) of Semmelweis University.

- ETK: 1088 Budapest, Vas u. 17. mezzanine 1. (The location may change. After booking, you will receive an email with information about the appointment, location, and directions.)

The medical fitness examination is free of charge for all students.

During the medical fitness examination, you must present your medical test results. One of the basic requirements for student status in higher education institutions is proof of Hepatitis B vaccination.

Chest X-rays can only be accepted in written form, in English.

Laboratory tests are mandatory and free of charge for everyone. Appointments can be booked through the Aptitude system as follows:

The Aptitude system can be accessed at www.aptitude.semmelweis.hu.

You can log in to the application using your SeKA (NEPTUN code) identifier and O365 password.

After logging in, under *My Examinations* you will find the sub-examinations. For chest X-ray, laboratory examination (pre-examinations), and Occupational Health Examination, you must always click the “Apply for a new examination” link to register.

Chest X-ray:

In the pop-up window, click on the “Chest X-ray” tile!

Then, on the displayed form:

- a. either enter the date of your chest X-ray report and click the “Save” button,
- b. or proceed to book an appointment for a chest X-ray pre-examination by clicking the “Continue to booking” button.

After this, the interface will turn green.

Laboratory examination:

In the pop-up window, click on the “Laboratory Examination” tile!

Then, on the displayed form:

- a. either enter the date of your laboratory report and click the “Save” button,
- b. or proceed to book an appointment for a laboratory pre-examination by clicking the “Continue to booking” button.

After this, the interface will turn green.

Pre-examination (chest X-ray or laboratory test) appointment booking:

First, select the location where you wish to have the examination performed. (In the system, there are two options: Central Laboratory or Rókus Outpatient Clinic.)

Use the calendar navigation buttons, then select the day and time slot you want by clicking on it. Confirm the appointment by clicking on the “Register for timeslot” button on the left side.

After this, the *My Examinations* page will show in green that you have a valid appointment. The system will soon send you a confirmation email. (You can cancel the appointment using the link located in the bottom left corner.)

Main examination (Occupational Health Examination) appointment booking:

On the *My Examinations* page, click again on the “+Apply for a new examination” link to book an Occupational Health appointment.

Click on the “Occupational Health Examination” button and book an appointment (in the same way as for the laboratory test) by clicking on the “Continue to booking” button.

Appointment cancellation:

At the bottom row of the green-marked appointments, you will find the appointment cancellation function.

Be cautious when canceling an appointment: if you had already booked an Occupational Health Examination and you cancel one of the pre-examinations, the system will also cancel your Occupational Health appointment, as you cannot attend the main examination without completing the pre-examinations.
