

COURSE SYLLABUS

Semmelweis University Faculty of Dentistry, Dentistry

Name of the course: Odontotechnology and Prosthodontics Pre-clinical III.

Credit value: 3

Lessons (in hours in the whole semester): 3 from this, **lectures:** 0 **practicals:** 3 x 45 min **seminars:** 0

Type of the course: compulsory

Semester in which it is announced according to the curriculum: autumn

Frequency of announcement (per semester or year): year

The responsible educational and research organizational unit for teaching the subject: Department of Prosthodontics

Academic year: 2023/2024 I. Semester

Subject (Neptun) code: FOKOFPK365_3A

Lecturer of the course:

Dr. Barbara Kispélyi, Associate Professor

Contact:

Semmelweis University Faculty of Dentistry Department of Prosthodontics

kispelyi.barbara@semmelweis.hu

Opening hours of the Secretariat:

Monday: 8:00 – 12:00

Tuesday: 8:00 – 12:00

Wednesday: 8:00 – 12:00

Thursday: 8:00 – 12:00

Friday: Closed

Students are welcomed only in the office hours. Please be aware of it!

The goals and place of the course in regards to the education of dental students:

Principal aim of this special education is to provide the students with a professional preclinical theoretical and manual exercise, used in the prosthodontics treatment procedures. It consists of the simulation of the clinical and technological stages on phantom heads.

Location of the course (address of lecture hall, seminar room etc.):

Dr. Földvári Imre Laboratory (1088 Budapest, Szentkirályi street 47. 2nd floor)

Competences acquired by completion of the course:

Understanding the labside and chairside steps of making partial removable dentures - at the propaedeutic level.

Pre-study requirements and prerequisites of course registration and completion, in case of a multi-semester subject, the standpoint of the educational-research unit on the concurrent subject registration and on the requirements of permission thereof :

Odontotechnology and Prosthodontics Pre-clinical II., Restorative Dentistry, Pre-clinical I., Molecular Cell Biology II.

Concurrent subject registration is not possible.

Number of students required for announcement of course (min., max.), method of selection:

In accordance with the number of 3rd year students.

Method of course registration:

Neptun system

Detailed course/lecture description¹: (to facilitate credit recognition in other institutions)**Topics of the practices:**

1. **week:** Delivering of the instruments, Removable partial dentures.
2. **week:** Steps of constructing metal based removable partial dentures. Wax pattern fabrication for a mandibular metal base plate
3. **week:** Steps of constructing metal based removable partial dentures. Wax pattern fabrication for a maxillar metal base plate
4. **week:** Combined fixed-removable prosthodontic restoration paralelometer milling machine presentation
5. **week:** MIDTERM, Tooth preparation for porcelain veneer, tooth 21, *Grading*
6. **week:** Fabrication of a direct veneer, tooth 21 *Grading*
7. **week:** Impression for temporary replacement, Tooth preparation for solo crown, tooth 13
8. **week:** Tooth preparation for solo crown, tooth 13, Fabrication of temporary crown, tooth 13, *Grading*
9. **week:** MIDTERM, Finishing and polishing of the temporary crown made for the 13 tooth
10. **week:** Steps of making an implant retained dental prosthesis. Impression taking for an implant retained prosthesis (open special tray method)
11. **week:** RETAKE, Steps of making an implant retained dental prosthesis. Impression taking for an implant retained prosthesis (open special tray method)
12. **week:** RETAKE, Consultation. Repetition of dental workflows.
13. **week:** RETAKE , Consultation. Repetition of dental workflows.
14. **week:** Practical final examination

Courses (compulsory and obligatory elective) which in part or entirely overlap the topics of above course:

General Dental Materials

Odontotechnology and Prosthodontics Preclinical Course I – II.

Prosthodontics I – V.

Clinical Dentistry I – II.

Gnathology

Special academic work required for completion of the course²:

-

Attendance on practices and lectures, replacement in case of missed sessions:

Attendance is **compulsory** at the practical sessions. In relation to the subject, the allowed number of absences is 25%. The amount of absences may not exceed 25%, even with sick notes.

Eventual sick notes are transferred to the issuing medical facilities for verification.

A student is considered **to be late from the practices** if he/she arrives **not more than 15 minutes** later than the time set by the timetable. These late arrivals are marked in the attendance sheet and if someone is late three times within a semester, that is considered to be an absence. However, if someone is **more than 15 minutes late** from the practice that is already registered as an **absence**.

The use of cell phones during the practices is forbidden. If the student uses his / her mobile phone despite the warning of his / her instructor, he / she will be not allowed to continue the practice and will have to leave the room immediately. This is considered as an absence, which is included in the number of absences allowed during the semester (maximum 3). During the practices, students can use tablets, notebooks, and small laptops to take notes.

Practical sessions may not be replaced.

Method of checking acquired knowledge during the study period³:

Compulsory written tests are carried out at least three-times in the semester, satisfactory grades can be given in case of a result of at least 50% or above.

Midterms will be held in the 5th and 9th weeks. Retaking the midterms (or in case of no show, supplementing) is possible twice during the semester. Openings for retaking will be given in the 11th, 12th and 13th weeks.

The notes for the midterms are graded as follows:

- 1: - 49%
- 2: 50% - 63%
- 3: 64% - 76%
- 4: 77% - 89%
- 5: 90% - 100%

In case of an unsatisfactory result there are two possible times for the replacement.

Practical work is also ranked at the end of the given working phase.

During practice sessions, any missed practical section marks can be made up after prior consultation/agreement, but they cannot be improved.

The practice leader prepares digital photodocumentation of the practical works.

The final mark is graded according to the average of the practical work and theoretical skills of the student. The averages of the midterms and of the practical work has to be at least 2,0.

In case of an unsatisfactory end final mark, the signature at the end of the semester will be refused.

Failed demonstration means, that a student receives an unsatisfactory evaluation for a demonstration (midterm exam) written in a particular topic despite the two retakes.

In case one of the practical grades is unsatisfactory after the replacement/correction, the signature at the end of the semester will be refused

The evaluation is graded as "failed" if the student did not participate in even one of the demonstrations and did not make up for it in the substitute opportunities, or if the student's absence from the exercises exceeds the permitted 25%.

Requirements of an accepted semester (signature of the lecturer):

No more than 25% of the practices are allowed to be missed for any reason otherwise the semester will not be accepted. According to the Study and Exam Regulation the exam may not be taken if the student fails to obtain such a signature.

In case of an unsatisfactory final mark, the signature at the end of the semester will be refused.

In case one of the practical grades is unsatisfactory after the replacement/correction, the signature at the end of the semester will be refused

Type of the exam:

Practical exam and oral final exam, with three topics; and Hungarian Language Exam

Requirements of the exam³:

Practical exam and oral final exam, with three topics; and Hungarian Language Exam

Practical exam: At the last practice each student must present a given chairside or labside step from the learning material of the course Odonotechnology and Prosthodontic Preclinical Course I., II., III.

The note of the Practical final exam is the average of the practical exam note and the final note for the Odontotechnology and Prostodontic preclinical course III.

If the student fails to succeed on the Practical examination, he or she may not take the final exam, and by failing consumes an exam opportunity. The note given at the practical exam can be corrected, a fee has to be payed in order to retake the exam. The retake session takes place on the first Thursday of the exam period, at 8:00.

In case of unsatisfactory mark of any part of the exam, the student has to take the whole exam again.

Grading of courses⁴. The possibility and requirements of an offered grade:

The final mark is graded according to the average of the practical and theoretical skills of the student. The averages of the midterms and of the practical work has to be at least 2,0.

No offered grade.

Exam registration:

Neptun system, according to the Semmelweis University Study and Examination Regulations

Rules of repeating exams:

Neptun system, according to the Semmelweis University Study and Examination Regulations
