

SEMMELWEIS UNIVERSITY

FACULTY OF DENTISTRY

Department of Prosthodontics

Director

PROF. DR. PÉTER HERMANN

Appendix especially for the IV-rd year students, in the 2026/2027. 1st semester

The Studies and Examination Regulation for the title faculties of the Semmelweis University must be supplemented with the following:

The topics of **Prosthodontics**: Complete and partially edentulousness and its diagnostic and treatment (seminar topics were given: semmelweis.hu/fogpotlastan/angol/ homepage.)

Contact:

Prof. Dr. Péter Hermann, director: hermann.peter@semmelweis.hu

Opening hours of the Secretariat:

Monday: 8:00 – 12:00

Tuesday: 8:00 – 12:00

Wednesday: 8:00 – 12:00

Thursday: 8:00 – 12:00

Friday: Closed

Students are welcomed only in the office hours. Please be aware of it!

Students must attend the weekly practices.

No more than 25% of the practices are allowed to be missed for any reason – not even with a doctor's note – otherwise the semester will not be accepted.

Doctor's notes can only be accepted after an individual. The medical notes will be sent back to the supervisory section of the issuing medical institutions for verification.

A student is considered **to be late** from the practices if he/she arrives no more than **15 minutes** later than the time set by the timetable. These late arrivals are marked in the attendance sheet and if someone is late three times within a semester, it will be considered an absence. However, if someone is **more than 15 minutes** late from the practice, it will be already registered as an **absence**, but the student will be allowed to attend the practice.

Students must arrive for the seminars on time, otherwise they will disturb the lecturer and the audience.

No extra seminars will be provided for missed sessions.

The use of cell phones during the practices is forbidden. (Unless the patient is photographed.) If the student uses his / her mobile phone despite the warning of his / her instructor, he / she will be not allowed to continue the practice and will have to leave the room immediately. This is considered as an absence, which is included in the number of absences allowed during the

semester. During the practices, students can use tablets, notebooks, and small laptops to take notes.

Handling the photo documentation, patient rights and data protection rules must be strictly adhered to. Photo documentation can only be used for the case reports on the final exam.

The use of artificial intelligence is not allowed during the practices, demonstrations and exams. The use of artificial intelligence in the dental machine/devices used for patient care is allowed. Artificial intelligence may be used to assist students' preparation/learning.

Students are not allowed to bring laboratory work and/or patients out of the clinic while treating them within the limits of the institution. In the event of a force majeure the clinic directors will decide the outcome after an individual evaluation.

Students are **not allowed to bring medical gowns** to the practice sessions or take them from the clinic.

The use of personal protective equipment (disposable gloves and face mask) is mandatory throughout the entire territory of the Department of Prosthodontics, including the clinical teaching rooms (211, 213, 214). The Department provides these protective equipment for everyone. During practical training, it is forbidden to provide patient care and assistance without the use of personal protective equipment. Anyone who does not comply with the provisions on the use of personal protective equipment may not receive practical training and cannot participate in the treatment of patients.

Students must arrive for the lectures on time, otherwise they will disturb the lecturer and the audience.

No extra lectures will be provided for missed sessions.

The conditions of signing the index book (the acknowledgement of the semester) is written in the Studies and Examination Regulation. The supervisors must enter the final grades to the index book before the lecturer's signature.

If a student is repeatedly unprepared for the practical or theoretical work, or his/her practical work is not satisfactory, he/she will get an "unsatisfactory" grade and will fail the class for that semester. The minimal practical „pensum" will be announced on the first practice by the supervisor. Unprepared students may participate in the practice but **will not be allowed to treat patients**. The students must work in pairs and help each other. At the end of each practice the students have to fill in the relevant treatment record (decursus) and then the supervisor signs it.

Written and oral exam during the semester – assessment of knowledge:

6 topics per semester are covered in the seminars. The seminars are taught in a blended learning format. 50% of the seminars are online, in weakly rotation, the other 50% is in the form of small group (max. 25-30 participants) classroom training requiring personal attendance.

The online learning module always precedes the personal seminar within the same subject area. The teaching material corresponding to the topics of the seminars is available online in moodle platform.

The course material is assessed and checked during the six two-week seminar blocks using a mobile phone application (Voovo). During each block, groups of questions are opened 3–5

times, each time containing 8–15 questions. These questions may reappear throughout the block; incorrectly answered questions are repeated more frequently by the app. Once a question is answered correctly, the previous incorrect attempt will not reduce the final consistency score. However, the Voovo application also contains a “**Knowledge Score**”, which measures the proportion of correct versus incorrect answers. If this score drops below a critical threshold, students will not be eligible to receive the highest marks—even if their consistency score remains high. As a result, each grade level is defined not only by consistency, but also by a minimum required level of knowledge.

The application sends a push notification to the user’s device whenever a new question group becomes available. Until the questions are answered, students also receive daily reminder notifications. Once the two-week block expires, **it is no longer possible to answer the questions.**

Scoring and Conversion Formula

Student performance is measured through an average percentage result recorded in the Voovo app (**Consistency Score**). This semester average is converted into a partial seminar grade using the following formula:

Grade	Consistency Score	Minimum Knowledge Score
1	0% – 49%	min. 0%
2	50% – 63%	min. 40%
3	64% – 76%	min. 50%
4	77% – 89%	min. 60%
5	90% – 100%	min. 65%

The partial seminar grade (based on Voovo results) accounts for **50% of the total practical grade**, alongside the partial grade earned during the practice sessions.

Impact on Final Examination

Students whose average scores in the Voovo application (average of Voovo performance over several semesters) are within the top 5 percentege of their class, get the score of 5 (excellent) for one item they have choosen from the drawn ones during the kollokvium.

Practice grade:

Compulsory written tests are carried out one-time in the semester. Written test will be held in the 1st week. Replacement/correction of the written test would be passed in the 2nd, 3rd and 4th weeks. Satisfactory grades can be given in case of a result of at least 50% or above.

Failed written tests means, that a student recieves an unsatisfactory evaluation for a written tests in a particular topic despite the two retakes.

Grading of the tests:

1. - 49%
2. 50% - 63%
3. 64% - 76%
4. 77% - 89%
5. 90% - 100%

During the semester, the student will receive partial grades for his/her written (final paper) or oral report, from the course material or from the practical work phases. Students get partial practical grade from the valuation of their theoretical and practical work, such as behavior and attitude during the practices.(1-5 grades)

The final mark is the average of the partial seminar grade and the partial practical grade.

Final mark is considered unsatisfactory if the average of the test grades are not over a 2,0 average.

In case of an unsatisfactory final mark, the signature at the end of the semester will be refused. The evaluation is graded as "failed" if the student did not participate in even one of the written tests and did not make up for it in the substitute opportunities, or if the student's absence from the exercises/ seminars exceeds the permitted 25%.

From the first semester, apart from the treatment documents, students have to make photo documentation as well. On the final exam of the 10th semester one case has to be presented. The presentation should follow the protocol of the clinic. The material and personal conditions are provided by the clinic.

Students are required to take photographs of each case during patient treatments, to keep the photographs and create a ppt by the end of the semester, then upload only the ppt file to the patient file in Flexi.

As case report during the final exam, students may only present their own cases. The same case may not be presented by more than one student.

Requirements of an accepted semester (*signature of the lecturer*):

Attendance at seminars requiring personal attendance and attendance at practices is compulsory. No more than 25%-25% of the practices and the seminars requiring personal attendance are allowed to be missed for any reason – not even with a doctor's note – otherwise the semester will not be accepted.

If there are 6 seminars requiring personal attendance per semester, the maximum number of absences from seminars requiring personal attendance is 1.

If there are 7 or 8 seminars requiring personal attendance per semester, the maximum number of absences from seminars requiring personal attendance is 2.

In case of absence is above this number, the semester will not be signed by the faculty, which means - according to the current Study and Examination Regulation (TVSZ) - that the student can not apply for the exam.

In case of an unsatisfactory final mark, the signature at the end of the semester will be refused.

Grading of courses. The possibility and requirements of an offered grade:

Final mark: The average of the partial practical grade and the partial seminar grade.

The final mark is unsatisfactory if the student does not achieve a 2.0 average.

In case of an unsatisfactory final mark, the signature at the end of the semester will be refused. In seminars that require personal participation, student achievement is evaluated in the form of an average percentage. The percentage average value achieved during the semester is the basis for the partial seminar grade (1-5 grades).

The student will receive partial practical grades for his/her written (final paper) or oral report, from the course material or from the practical work phases. Students get the final mark from the valuation of their theoretical and practical work, such as behavior and attitude during the practices.(1-5 grades)

In seminars requiring personal attendance, student performance is assessed in the form of an average percentage.

Examination (semi-final): oral examination

The examination (semi-final) is graded on a scale of 1-5. Oral semi-final examination based on theoretical questions.

Students whose average scores in the Voovo application (average of Voovo performance over several semesters) are within the top 5 percentage of their class, get the score of 5 (excellent) for one item they have chosen from the drawn ones during the kollokvium.

No offered grade.

The use of artificial intelligence is not allowed during the exam.

Students who are using forbidden items or electrical devices during exams – such as mobile phones, iPods, etc. – will automatically and immediately be discharged from Semmelweis University. By implementing this rule, we wish to preserve the academic and material value of the Semmelweis Diploma.

Students may work in the Student's Scientific Association and the Clinical Talent Development Program after applying.

In the case of suspected use of drugs or mind-altering substances, the steps to be taken and the rules to be followed are as follows:

Internal standards and regulations:

1. According to the Study and Examination Regulations § 29 (3), at lectures, **practical sessions** and seminars, students are required to appear in the prescribed attire and in a state ready for lectures and practical sessions, prepared for the day. In case of suspicion of **inappropriate physical, mental or psychological state** (illness, abnormal fatigue, **medication or other mind-altering substances**, alcohol), **the student must not start or continue the lecture or practical session. The lecturer, the person conducting the session, or in their absence their designated deputy may ask the student to leave the lecture room or the practical/seminar room and shall make a record of the incident.**
2. Pursuant to Article 27 of Act LXXXIV of 2003 on Certain Issues of the Performance of Health Care Activities, the rules applicable to healthcare workers, including the rules on fitness of mental health, shall apply to the assessment of the fitness of students participating in the performance of healthcare activities.

3. The Occupational Safety and Health Regulations of Semmelweis University (Occupational Safety Management Policy, Book I) 2.1.4. The responsibilities of the person exercising the employer's right in the field of occupational safety and health include the following: '(43) If a university citizen is **suspected of being under the influence of a mind-altering substance in the work area** under their control, **they shall notify the police and prohibit the university citizen from working.**'
4. Among the Dean's responsibilities for occupational safety and health, paragraph 2.1.3 of the Occupational Safety and Health Regulations stipulates in paragraph (6) the initiation of disciplinary proceedings against students who violate the occupational safety and health regulations.
5. Furthermore, it is relevant that according to Article 178 (6) of the Criminal Code Act C of 2012, the consumption of drugs is also a criminal offence: "(6) Whoever consumes drugs or obtains or holds a small quantity of drugs for the purpose of consumption, if no more serious offence is committed, shall be punished for a misdemeanour by imprisonment for up to two years."

Under the above rules, in the case of suspicion, the student shall not be allowed to start or continue the practice, the person conducting the session shall ask them to leave, and simultaneously

- a record of the suspicion and the measures taken shall be made,
- the police must be informed in accordance with the provisions of the Health and Safety at Work Regulations,
- and
- the person entitled to initiate disciplinary proceedings against the student must be notified, who is the Dean of the Faculty concerned or the Chair of the Doctoral Council, as provided for in Article 6(2) of the Student Disciplinary and Compensation Regulations.

In case of an emergency the **defibrillator** can be found by the main entrance.
