Department: University Pharmacy Department of Pharmacy Administration

Faculty: Faculty of Pharmacy

Our feedback on general comments by the students:

Since special comments were not received, we reflect on the relevant evaluation. The results are in compliance with the Faculty average except for the Q1-7. We consider the Q6-7 non-relevant, as were no practicals in the concerned semester.

Concerning the Q1-2, we will implement a practice-oriented approach to bring the theory closer to real-life situations. Hereby, we note that the second semester of the study program includes the practices of problem-based focus. Therefore, in the first Introductory presentation, we will provide a more comprehensive overview of the topics and expectations regarding the whole study course.

The materials are available on the Moodle platform and will be updated regularly.
