

STATEMENT

Scientific collaboration between the
..... and the Human Brain Tissue Bank, Semmelweis
University, Budapest, Hungary (HBTB) for using microdissected human brain samples for
scientific investigations.

The dissected human brain samples should be used exclusively for medical/biological
research examinations. The brain samples will be studied only in the course of research
project(s) indicated below which have scientific aims and approved by the local Ethical
Committee of the collaborative institution. None of the samples will be allowed to provide to
anybody else or any other research laboratories. By request, the HBTB should be informed
about the status or the fate of the brain samples (Form No. 3). This collaboration, as well as
the scientific data succeeded by using the brain samples will be kept secret by both sides
until publication.
