Welcome to ESOPRS Meeting

Dear ESOPRS Members and Colleagues,

On behalf of the ESOPRS committee, you are warmly invited to join the 33rd annual meeting of the European Society of Ophthalmic Plastic and Reconstructive Surgery (ESOPRS) in Budapest, Hungary from 11-13 September 2014.

The Pre-Meeting course will be held on Thursday, 11 September, and will have a special emphasis on update in several fields of Ophthalmic Plastic and Reconstructive Surgery. The course will take place in the same venue of the Meeting.

On Friday, 12 September, and Saturday, 13 September the Annual ESOPRS Meeting will also take place in the large conference room at Hotel Kempinski Corvinus.

We cordially invite you to Budapest and to the 33rd ESOPRS Meeting,
Best wishes

Dr. Olga Lukats
Main Local Organizer

Dr. Zsuzsanna Antus

Meeting Venue

Kempinski Hotel Corvinus Budapest

Erzsébet tér 7-8.

1051 Budapest, Hungary

Telephone: +36 1 429 3777

Website: www.kempinski.com/budapest

Opening hours of the registration desk

Thursday, 11 September, 7:00 – 18:30

Friday, 12 September, 7:30 – 17:30

Saturday, 13 September, 8:00 – 12:00

Opening hours of the Speakers Preview room

Wednesday, 10 September, 15:00 – 19:00

Thursday, 11 September, 7:00 – 18:30

Friday, 12 September, 7:30 – 17:30

Saturday, 13 September, 7:30 - 13:00

Badges

Each participant will receive a name badge upon registration.

Please note that the badge is necessary to participate in the lectures and the Welcome Reception.

Registration

The Pre-Meeting Course registration fee includes:

- Participation in all lectures on September 11, 2014
- Coffee breaks and lunch

The Scientific Meeting registration fee includes:

- Participation in all lectures and access to the poster and exhibition area on September 12-13, 2014
- Conference bag with program and abstract book
- Admission to the Welcome Reception on September 11, 2014
- Coffee breaks and lunches on September 12, 13 2014

Certification

The conference organizers can provide certification on request, please request it at the registration desk.

Liability

The congress organizer will bear no liability for loss, accident, damage or injury to persons or property irrespective of the cause.

The clients participate at all sessions, tours and events at their own risk. Sole place of jurisdiction is Budapest, Hungary. Hungarian law is applicable.

Force Majeure - Unexpected cancellation of the event

AIM Group Hungary organizes the ESOPRS 2014 on behalf of the organizing society. AIM Group Hungary reserves itself the right to cancel without notice or compensation the ESOPRS 2014 in the event of force majeure cases (for example, but not limited to acts of nature such as fire, earthquake, hurricane, flood or terrorist attacks). In such cases, AIM GROUP HUNGARY is freed of all responsibility.

Limitation of liability of AIM Group Hungary: In the event of it being impossible for AIM Group Hungary to carry out the ESOPRS 2014 for force majeure cases, so long as this arises from a cause not attributable to AIM Group Hungary, AIM Group Hungary shall only be obliged to reimburse the payments received subject to deduction of any costs it has incurred in preparing the event. This liability only extends to the payments made directly to AIM Group Hungary and not to payments made by the attendees to the hotel or airlines.

For Speakers and Poster Authors

Oral Presentation

Notification of acceptance and the presentation form and its time and date was indicated in the confirmation e-mail.

The length of an oral presentation is max. 7 min., there will be time for discussion at the end of each session!

Please keep in mind, that it is not possible to use the own laptop! Data projection will be provided.

At the congress venue - Kempinski Hotel Corvinus - the Speakers Preview room Boardroom is offered to all speakers as Preview room to check their presentation with qualified audiovisual technician. The opening hours of the Preview room are on page 6. To ensure a smooth running program, speakers are asked to check and submit their presentation in Speakers Preview room at least 2 hours prior to the start of their session.

Presenters should plan to be in the meeting room at least 10 minutes before the start of the session.

All presentations must be submitted in Windows compatible PowerPoint files on PC-readable CDs, DVDs, external disk drives, USB sticks or memory sticks at the Preview room.

Please note that projection requires all the presentations to be prepared in 4:3 format (1024 x 768). To avoid certain incompatibilities between PowerPoint for Mac and PowerPoint for Windows only images in JPG- or BMP-format should be used in their presentation.

If fonts are used in a presentation that are not available in Windows or PowerPoint, the varying fonts must be included in the presentation or enclosed as separate files for installation. Please note that PowerPoint never integrates video files into a presentation but rather only links the videos to it. Therefore every video that is to be shown, has to be available on your data medium as a separate file. To make sure that all the videos used in a presentation are copied from your PC to your data medium you may use PowerPoint's "packaging for CDs"/"pack and go" feature. If you are planning to show a video during your lecture we recommend you to save your video file in one of the following video formats: MPEG-1, MPEG-2, MPEG-4, Windows Media Video (WMV) or Xvid/DivX (AVI). If other compression formats are used, the respective codecs must be enclosed.

Rapid Fire Presentation

The length of a rapid fire presentation is max. 3 min., no discussion will be offered.

A maximum of 4 PowerPoint slides is allowed per presentation. (Please also read the technical information for oral presentations.)

Poster Presentation

Poster size must be max 90 cm width x 150 cm height.

Each poster has been given a number and should be fixed on the board marked with the same number. Please check the number of your poster directly on-site. Material to affix poster will be provided (it is not possible to fix the poster another way).

The poster set-up will be possible from **Friday September 12, 7:30**, dismantling after the scientific program.

The poster exhibition is open to all participants during the conference hours.

The poster has to be provided by the presenters. There is no word limit.

Video Presentation

The length of a video presentation is max. 7 min.

Videos will be shown in the poster area during the conference hours.

Please submit your video presentation in the Preview room. Opening hours on page [6](#).

Background and Experience

- 1982 Accreditation in Ophthalmology, University of Ankara
- 1989 Associate Professor of Ophthalmology, University of Ankara
- 1991 Founded Oculoplastic and Orbita Unit, Gazi University, Dept of Ophthalmology, Ankara
- 1991-1998 Associate Professor of Ophthalmology, Gazi University, Dept. of Ophthalmology, Ankara
- 1998-2010 Professor of Ophthalmology, Gazi University, Dept. of Ophthalmology, Ankara
- 2010 – to date Professor of Ophthalmology, Dunya Goz Eye Hospital, Ankara
- 2011-2012 Served as the President of Oculoplastic Committee of Turkish Ophthalmological Society

Membership to National and International Medical Societies

- Turkish Ophthalmological Society
- European Society of Plastic and Reconstructive Surgery
- American Academy of Ophthalmology

National and International Awards

1. Her yıl Sevgi Hastanesi tarafından verilen Dr. Hatice Özcanlı Tıbbi Görüntüleme ve Girişimsel Radyoloji Ödülü – 1996 yılında "Transluminal Balloon Dilatation of the Lacrimal Drainage System for the Treatment of Epiphora" isimli makale için verilmiştir.
2. The Scientific Exhibition Committee of European Congress of Radiology (ECR 95) Ödülü - Viyana Mart 1995 - "Treatment of recurrent nasolacrimal duct obstructions with balloon expandable metallic stents" isimli tebliğ için verilmiştir.
3. Ünal M, Konuk O, Atasever T, Ayvaz G, Yetkin İ, Çakır N, Egehan İ, Hasanreisioğlu B. Orbital Gallium scintigraphy. A useful method to evaluate disease activity in Graves' ophthalmopathy. 23rd Congress of Endocrinology and Metabolic Diseases of Turkey Joint meeting with the European Federation of Endocrine Societies. Abstract Book, Ankara, Turkey, September 2000.
4. Balloon dacryocystoplasty in the treatment of epiphora: Long term results. Ilgit ET, Önal B, Konuk O, Ünal M. 32nd Society of interventional radiology annual meeting. En iyi poster ödülü. Washington 2007.
5. Konuk O, Hondur A, Akyürek N, Ünal M. Graves oftalmopatiye orbita fibröadipöz dokuda apoptozis. İmmünohistokimyasal ve elektron mikroskopik çalışma. 38. Ulusal Oftalmoloji Kongresi Ödülü. Özet Kitabı Sy. 88, Antalya 2004.

Diplomas and Boards

- 1980: Valdictorian PCEMI Entrance Exam (Pitié-Salpêtrière Faculty, Paris)
- 1985: Residency Exam of Paris' Public Hospitals (Internat des Hôpitaux de Paris)
- 1990: Master's Degree in Sciences of Human Biology, Elective in Anatomy (Pitié-Salpêtrière Hospital, Paris):
- C1: General Anatomy and Embryology
- C2: Cervicofacial anatomy
- 1991: Certificate of Microsurgical Techniques (Paris I University)
- 1992: Thesis in Medicine (Valdictorian of the Pitié-Salpêtrière Faculty)
- 1992: American Medical School Equivalence: FMGEMS (basic, clinical and English parts of the Foreign Medical General Examination for Medical Studies)
- 1992: Research Fellowship (DEA) of Surgical Science
- Elective in Surgical Neurosciences (Cochin-Port-Royal Faculty)
- 1994: Certification of Diploma of Superior Studies in General Surgery (DES)
- 1995: Certification of Diploma of Superior Studies in Plastic Surgery (DESC)
- 1998: Board certification of the European Board of Plastic Surgery (EBOPRAS)

Hospital Positions

- 1996-98 « Chef de Clinique » Staff Member – Plastic Surgery Unit, Saint-Louis Hospital, Paris (Head of Department: Pr. Servant)
- 1998-01: Plastic Surgery Consultant at Saint-Louis Hospital, Paris
- 1998-05: Craniofacial Consultant in Pediatric Craniofacial Unit Hospital Necker, Paris, France
- 2006-2011: Co-Director of Craniofacial Pediatric Craniofacial Unit Hospital Necker, Paris, France
- Since 2011: Director of Craniofacial Pediatric Craniofacial Unit Hospital Necker, Paris, France

Invited Speaker: Ioannis Ntountas

- Diploma of Medicine: 1985, University of Milan, Italy
- Title of specialty in Ophthalmology: 1993, General Government Hospital of Athens, GR
- Registrat in Ophthalmology: 1994, Eye Clinic West Suffolk Hospitals NHS Trust, East Anglia, UK
- Fellowship in Ophthalmic Plastic and Reconstructive Surgery: 1995, Eye Clinic “Queens Medical Center” Nottingham University, Nottingham, UK
- Fellowship in Ophthalmic Plastic and Reconstructive Surgery: 1996 – 1997, “Moran Eye Center” Utah University, Salt Lake City, USA
- Training in Ophthalmic Oncology: 1998 – 1999, Eye Clinic, “Saint Savvas Anticancer Hospital”, Athens GR
- Associate in Ophthalmic Plastic and Reconstructive Surgery: 1999 – 2003, Eye Clinic, “Saint Savvas Anticancer Hospital”, Athens GR
- Faculty of European Board of Ophthalmology (FEBO): 2003
- Master in Ophthalmic Plastic Surgery (Chirurgia Oftalmoplastica): 2007, Orbital Unit, Eye Clinic, University of Naples, Italy
- Doctorate: 2012, University of Athens
- Expertise in Ophthalmic Plastic and Reconstructive Surgery of eyelids, lacrimal system and orbit, Cosmetic Surgery invasive and non-invasive (plexr, fillers, botox).

Current Position

- Consultant: Orbital Unit, 1st Eye Clinic, Medical School, University of Athens (GR)
- Consultant: Eye Clinic, Medical School, University of Ioannina (GR)
- Head of Oculoplastic Unit, Eye Clinic, General Clinic of Thessaloniki “Euromedica”, Thessaloniki (GR)
- Ophthalmology Department of “Hygeia Hospital”
- Private Practice

Membership in Scientific Societies

- Hellenic Ophthalmological Society (Past Vice-President of Committee)
- Hellenic Society of Ophthalmic Plastic and Reconstructive Surgery (Past President of Committee)
- European Society of Ophthalmic Plastic and Reconstructive Surgery (Member of Committee for 6 years)

Invited Speaker: Richard Collin

Richard Collin is a Professor of Ophthalmology at UCL, Senior Consultant Ophthalmic Surgeon to Moorfields Eye Hospital and holds an Honorary Consultant appointment to the Hospital for Sick Children, Great Ormond Street. He trained as a medical student at Cambridge University and Westminster Hospital, did his Ophthalmic training mainly at Moorfields and his plastic surgery training at East Grinstead and with Jack Mustarde in Glasgow. His Ophthalmic plastic surgery training was with Crowell Beard at University California, San Francisco

before he returned to Moorfields to start the lid branch of the Ocularplastic service there where he currently still works.

He was the founding secretary and subsequently president of ESOPRS, the founding president of BOPSS and was the representative for ocularplastics to the International Council of Ophthalmology for eight years. He has published three texts books of Ocularplastics, two of which have had three separate editions and has written over 200 peer reviewed papers. His main interest is lid surgery in children and adults.

Invited Speaker: Serge Morax

Honorary Chief Oculoplastic surgery Department,
Foundation Ophthalmic A. de Rothschild, Paris, France

Titles and Hospital Functions:

- Medical studies at Saint-Antoine's University (Paris)
- Paris Hospitals: internship – from 1967 to 1970- Chu Saint-Antoine
- Paris Hospitals: residency from 1970 to 1976
- Paris Hospitals: assistant-professor from 1976 to 1982
- Chief of die Department of Ophthalmology and Oculo-plastic Surgery at the Foundation Ophthalmic A. de Rothschild since January 1st 1983
- In charge of the Department of Ophthalmology of the Ophthalmic Foundation A. de Rothschild since 1994
- Vice-President of the Medical Commission of the Ophthalmic Foundation A. de Rothschild since 1996
- President of the Medical Commission of the Ophthalmic Foundation A. de Rothschild since 2002.

Scientific Societies

- Member of the Ophthalmic Society of Paris
- Member of the French Society of Ophthalmology
- Member of the Administration Council of the French Society of Ophthalmology since 1997
- Vice-President of the French Society of Ophthalmology since May 2002.
- Active Member of the Society of Maxillo-facial Surgery
- Member of the Society of Paul Tessier
- Active Member of the French Society of Reconstructive Plastic and Esthetic Surgery
- Founding Member of the European Society of Ophthalmic Plastic and Reconstructive Surgery (1981)
- President of the European Society of Ophthalmic Plastic and Reconstructive Surgery (1997-1998)
- President of the French Society of Oculoplastic and Reconstructive Surgery. 2002
- Member of Orbital Society
- International Member of American Ophthalmology Society
- Honorary Member of the Canadian Society of Oculoplastic Surgery
- Honorary Member of the Jordan Society of Ophthalmology. 2000

Final Program

Pre-Meeting Course, Thursday, 11 September 2014

- 08.30 – 08.35** Welcome and opening
- 08.35 – 09.05** Clinical diagnosis and treatment of orbital disorders (tumor and inflammation)
Geoffrey Rose
- 09.05 – 09.30** Orbital imaging (Clinician concern)
Maher Assem
- 09.30 – 09.55** Thyroid orbitopathy diagnosis and management
David H. Verity
- 09.55 – 10.20** **Coffee break**
- 10.20 – 10.45** Eyelid tumors clinical features and differential diagnosis
Bita Esmaeli
- 10.45 – 11.10** Eyelid reconstruction after tumor removal
Brigita Drnovsek
- 11.10 – 11.35** Non-surgical eyelid tumor treatment
Michele Beaconsfield (given by David H. Verity)
- 11.35 – 12.00** The diversity of epithelial tumors of the eyelids
Jeannette Tóth
- 12.00 – 12.25** Diagnosis, treatment and complications of ptosis surgery
Raman Malhotra
- 12.25 – 12.45** Management of Facial palsy patients from the oculoplastic point of view
Ulrich Schaudig
- 12.45 – 13.30** **Lunch**
- 13.30 - 13.50** Management of congenital orbital disorders (anophthalmus, microphthalmos)
Rudolf F. Guthoff
- 13.50 – 14.15** Rehabilitative measures after enucleation
Christoph Hintschich
- 14.15 – 14.35** Diagnosis and treatment of postenucleation socket syndrome (PESS)
Vladimir Thaller
- 14.35 – 15.00** Clinical diagnosis and treatment of lacrimal disorders
Karl Heinz Emmerich

- 15.00 – 15.25** DCR, CDCR challenges and solution of diagnosis and surgical procedures
Jane Olver
- 15.25 – 15.50** **Coffee break**
- 15.50 – 16.10** Upper eyelid blepharoplasty
Gusztav Gulyás
- 16.10 – 16.30** Lower eyelid blepharoplasty and mid face lifting
Joshi Naresh
- 16.30 – 16.50** Brow lift indications and management
Anthony Tyers
- 16.50 – 17.20** Discussion
- 19:00** Welcome Reception on the Europa Boat
More info at page [37](#).

Annual Meeting, Friday, 12 September 2014

- 08:30-08:45** Welcome and opening
Prof. Ágoston Szél, rector of Semmelweis University, Budapest
Prof. Zoltán Zsolt Nagy, director of Dep. Ophthalmology of Semmelweis University, Budapest
Prof. János Németh, former director of Dept. Ophthalmology of Semmelweis University, Budapest
Prof. Rudolf F. Guthoff, president of ESOPRS
- 08:45-09:15** **Invited Speaker**
Serge Morax: The injured eyelid and lacrimal system
- 09:15–10:55** **SCIENTIFIC SESSION: EYELID 1**
Chaired by Dario Surace & Marlis Zürcher
- 09:15-09:22** Lower lid retraction in thyroid orbitopathy: lamellar shortening or proptosis?
M. Rajabi, H. Jafari, M. Mazloumi, S. Ziaeddin Tbatbaie, M. Bagher Rajabi, R. A. Goldberg
- 09:22-09:29** Lower eyelid excursion: a functional and cosmetically relevant parameter in the treatment of lower eyelid retraction
B. Beigi, M. Khandwala, D. Gupta
- 09:29-09:36** Oral azithromycin versus doxycycline in meibomian gland dysfunction a randomized double masked open label clinical trial
M. Kashkoul, A. Fazel, V. Kiavash, M. Nojomi, L. Ghiasian
- 09:36-09:43** Sensory inhibition in periocular facial dystonias
D. Hersh, T. Salam, S. Ortiz-Perez, C. Kilduff, J. Uddin, DG Ezra
- 09:43-09:50** Platinum segments: a new option for adjustable upper eyelid loading
C. Poitelea, K. Ziahosseini, A. Litwin, S. Sagili
- 09:50-09:57** Long term results of midface lift in inferior eyelid reconstruction due to facial palsy
O. Balaquer Solé, L. M. Vásquez, R. Medel Jiménez
- 09:57-10:04** Transnasal canthopexy in blepharophimosis syndrome: original surgical technic and material
N. Ben Ravana Chekir, F. Touzani, L. Knani, W. Ben Hadj Salah, F. Ben Hadj Hamida
- 10:04-10:11** Posterior medial canthal thermoplasty outcomes
V. Thaller
- 10:11-10:18** Plastic microsurgical approach in botulinum toxin therapy resistant blepharospasm cases
M. Vegh

- 10:18-10:25** Periocular necrotising fasciitis - UK incidence, characteristics, management and prognosis
P. Cauchi, P. Flavahan, S. Drummond, M. Gregory, B. Foot
- 10:25-10:32** Acellular dermal matrix-supported modified tenzel flap for reconstruction of large lower eyelid defects
P. Mettu, A. Munro, P. Gandhi
- 10:32-10:39** Transillumination is an efficient, straightforward, and cost-effective method to locate periocular metallic foreign bodies
R. Allen, M. Baker, M. Estrada, E. Shriver
- 10:39-10:55** Discussion
- 10:55-11:15** **Coffee break**
- 11:15–12:45** **SCIENTIFIC SESSION: LACRIMAL & MISCELLANEOUS**
Chaired by Brigita Drnovsek & Dion Paridaens
- 11:15-11:22** Oral clonidine premedication in patients undergoing dacryocystorhinostomy (DCR): a pioneer study
A. Murugesan, U. Kim, A. Ravichandar, D. Heber
- 11:22-11:29** Survey of current trends in dacryocystorhinostomy in the United Kingdom
T. Kwong, M. Wearne
- 11:29-11:36** Comparison of silicone stent intubation in transcanalicular laser assisted dacryocystorhinostomy
M. Beltram, B. Drnovsek, G. Hawlina
- 11:36-11:43** Types of lacrimal passage obstruction: a new classification using microendoscopy
T. Suzuki
- 11:43-11:50** Radiological comparison of the lacrimal sac fossa and intranasal anatomy between black africans and caucasians
S. Gore, H. Naveed, J. Hamilton, I. Davagnanam, G. Rose, C. Rene
- 11:50-11:57** Success rates of endoscopic-assisted probing for congenital nasolacrimal duct obstruction
Y. Ozkan Arat, M. Aksoy, E. Aydin, S. Oto
- 11:57-12:04** Canaliculodacryocystotomy - a possible surgical procedure for canalicular repair?
E. von Lovenberg
- 12:04-12:11** Conjunctival melanoma- a retrospective clinicopathologic study of 80 patients
L. Holbach, A. Berta, R. Meiller, F. E. Kruse

- 12:11-12:18** Iris melanomas: the Glasgow experience of the use of ruthenium plaque therapy
U. Agrawal, P. Cauchi, E. Kemp, V. Chadha
- 12:18-12:25** An audit of periocular basal cell carcinoma in greater Glasgow and Clyde, Scotland, United Kingdom.
C. Williamson, W. G. Dunn, F. Roberts, P. Cauchi
- 12:25-12:32** Slit-lamp exophthalmometry, a novel technique
A. Nemet, Y. Almog, E. Rosen, A. Y. Nemet
- 12:32-12:45** Discussion
- 12:45-13:30** **Lunch**
- 13:30- 14:00** **Mustarde lecture**
Mehmet Unal: Recent advances in socket surgery
- 14:00-14:30** **Invited speaker**
Yiannis Ntountas: Silent sinus syndrome
- 14:30-16:10** **SCIENTIFIC SESSION: EYELID 2**
Chaired by Anthony Tyers & Mihály Végh
- 14:30-14:37** Eyelid basal cell carcinomas: potential new treatment role for anti-vascular endothelial growth factor
C. Law, A. Minuk, I. Irrcher, J. Farmer, V. Kratky
- 14:37-14:44** Targeting the hedgehog pathway in patients with periorbital locally advanced basal cell carcinoma or basal cell nevus syndrome
B. Esmaeli, V. Yin, E. Chou, W. William, M. Kies, M. Migden
- 14:44-14:51** Epidemiology and prognosis of primary periocular sweat-gland carcinomas
V. Yin, M. Baker, D. Ivan, E. Shriver, B. Esmaeli
- 14:51-14:58** The outcomes of microsurgical treatment of eyelid melanocytic nevi: does limited excision lead to recurrences?
A. Yarovoy, A. Shatskikh, E. Bulgakova, O. Golubeva, O. Krivoviyaz
- 14:58-15:05** Systemic therapy of advanced basal cell carcinoma (BCC)
A. Scheuerle, E. Ellert, G. Auffarth
- 15:05-15:12** The “bucket-handle” lash line transposition – a novel surgical technique for correction of intractable trichiasis
J. Roos, D. Pharoah, B. Beigi
- 15:12-15:19** Outcome of anterior lamellar reposition in treating trachomatous trichiasis
R. Ahmed, S. Hassan

- 15:19-15:26** Mechanical properties of synthetic brow-suspension materials
K. Kwon, R. J. Shipley, M. Edirisinghe, A. W. Rayment, S. M. Best, R. E. Cameron, G. E. Rose, D. G. Ezra
- 15:26-15:33** The post-aponeurotic fat pad
R. Malhotra, V. Mahadevan, B. Leatherbarrow, B. Barrett
- 15:33-15:40** Is hering's law as important in congenital blepharoptosis as in acquired ptosis?
A. Y. Nemet
- 15:40-15:47** Ptosis surgical geometry comparative study: Fox pentagon vs. Crawford triangles
K. Kwon, R. J. Shipley, M. Edirisinghe, A. W. Rayment, S. M. Best, R. E. Cameron, G. E. Rose, D. G. Ezra
- 15:47-15:54** Minor ptosis repair is effective in myasthenia gravis
M. Belliveau, J. Oestreicher
- 15:54-16:10** Discussion
- 16:10-16:30** **Coffee break**
- 16:30-17:45** **SCIENTIFIC SESSION: SOCKET & AESTHETIC
Chaired by Rudolf F. Guthoff & Hans W. Meyer
Rüsenberg**
- 16:30-16:37** Dermis fat graft in children as primary and secondary orbital implant
F. Quaranta-Leoni, S. Sposato, A. Modugno, C. Moretti
- 16:37-16:44** Chronic anophthalmic socket pain treated by implant removal and dermis fat graft
P. Shams, M. Baker, E. Dafgård Kopp, E. Bohman, R. Allen
- 16:44-16:51** Radiological findings after dermis fat-graft in congenital anophthalmia
A. Modugno, G. Savino, A. Giordano Resti
- 16:51-16:58** Effect of allogeneic platelet lysate on the fibrovascularization of porous polyethylene (medpor) implants glued with cyanoacrylate tissue glue
S. Ozturk, C. Sahin, A. Tas, T. Muftuoglu, H. Karagoz, F. Zor
- 16:58-17:05** Late complications related to hydroxyapatite orbital implants: a review of 542 cases
G. Hawlina, M. Beltram, B. Drnovsek Olup
- 17:05-17:12** Simultaneous sphere & hemisphere insertion of hydrogel socket expanders in congenital clinical anophthalmia
H. Tawfik, M. Abdulhafez

- 17:12-17:19** The role of the myofibroblast revisited in acquired socket contracture
H. Tawfik, Y. Fouad, W. Ossman, H. Rashed, M. Abdulhafez, S. Abdelrahman
- 17:19-17:26** Deepening the inferior conjunctival fornix using fascia lata in contracted socket and anophthalmic socket syndrome
M. Ibrahim, S. Abdelaziz
- 17:26-17:33** The quantitated internal suture browpexy
R. Allen, A. Barikian, P. Shams, M. Baker
- 17:33-17:40** Necessity and techniques for lateral canthopexy in lower lid blepharoplasty patients
M. Keserü, B. große Darrelmann, S. Green
- 17:40-17:45** Discussion
- 18:00** General Annual Meeting for full members
- 20:00** Gala Dinner
More info on page [37](#).

Annual Meeting, Saturday, 13 September 2014

- 08:30-08:45** Junior Award
- 08:45-09:15** **Invited speaker**
Richard Collin: Clinical diagnosis and management of congenital eyelid disorders
- 09:15-09:45** **RAPID FIRE**
Chaired by Francesco Quaranta- Leoni & Maarten Mourtis
- 09:15-09:18** Longer lashes, red eyes: the painful pursuit of beauty
F. Mellington, Y. Ghosh
- 09:18-09:21** Upper eyelid skin contracture in facial paralysis
K. Ziahosseini, V. Venables, CH. Nduka, R. Malhotra
- 09:21-09:24** Periocular dark circles, an all-time problem
M. Hourj
- 09:24-09:27** Frontalis suspension with silicone rod using two-point brow incisions in blepharoptosis patients
H-C. Kim, H-J. Kwon, H. Lew
- 09:27-09:30** Botulinum toxin injection for the treatment of epiphora in lacrimal outflow obstruction
K. Ziahosseini, Z. Al-Abadi, R. Malhotra
- 09:30-09:33** The use of remifentanyl as a single agent in sedation for oculoplastic surgeries
K. Chan, A. Kovacova, E. Clark, A. McCormick
- 09:33-09:36** Ethmoid air cell schwannoma presented as fronto-ethmoidal mucocele
V. Joganathan, D. Gupta, V. Liolios, R. Bassily, D. Wallace, B. Beigi, P. Prinsley
- 09:40-10:10** **Coffee break**
- 10:10-11:45** **SCIENTIFIC SESSION: ORBIT 1**
Chaired by Christoph Hintschich & Ronald de Keizer jr.
- 10:10-10:17** Endovascular coiling of an unusual intraorbital arteriovenous fistula
E. Rødahl, J. Lind, J. Kråkenes
- 10:17-10:24** Was it the proper decision for management of this vascular lesion?
M. Assem, A. Samy, H. Khattab
- 10:24-10:31** Safe orbital surgery without prophylactic oral antibiotics
R. de Keizer, G. Kozdras, R. Wubbels, W. vd Bosch, D. Paridaens

- 10:31-10:38** Diagnostic & prognostic significance of diffusion weighted imaging (DWI) in orbital lesions
N. Raichura, B. Mukherjee, V. Noronha
- 10:38-10:45** Patient expectations of orbital decompression surgery for thyroid eye disease (TED): are they being met?
S. Wickwar, H. McBain, G. E. Rose, S. Hirani, S. P. Newman, D. G. Ezra
- 10:45-10:52** Long term follow-up of patients with thyroid eye disease treated with endoscopic orbital decompression
H. Ueland, S. Gulati, O. Haugen, A. Danielsen, E. Rødahl
- 10:52-10:59** Rethinking graves orbitopathy: a stem cell disease?
D. Ezra, K. Kozdon, C. Fitchett, G. Rose, M. Bailly
- 10:59-11:06** Active versus inactive thyroid eye disease: comparison in ocular surface profile
F. Pakdel, B. Parsa, M. B. Kashkouli, A. Jazayeri, N. Pirmarzashty, M. E. Khamseh, A. Kassaei
- 11:06-11:13** Lateral canthal position following lateral orbitotomy and the influence of ocular proptosis
P. Shams, M. Baker, R. Allen
- 11:13-11:20** Orbital and ocular considerations in patients with tессier 3 and 4 clefts
S. Richardson, P. Pellerin
- 11:20-11:27** Median forehead flap for reconstruction following exenteration of the orbit
É. Remenár, K. Korányi, G. Gulyás, M. Kásler
- 11:27-11:34** Enlargement of the contracted anophthalmic socket by Csapody plasty
T. Tönköi, P. Vámosi
- 11:34-11:45** Discussion
- 11:45-12:15** **Invited speaker**
Eric Arnaud: Craniofacial reconstructive surgery in developmental orbital disorders
- 12:15-13:00** **Lunch**
- 13:00-15:00** **SCIENTIFIC SESSION: ORBIT 2**
Chaired by Geoffrey Rose & Katalin Korányi
- 13:00-13:07** Outcomes of invasive fungal infection of the sinus and orbit
M. Yoon, D. Trief, S. Gray, M. Durand, F. Jakobiec
- 13:07-13:14** Non exenteration management of sino-orbital fungal disease
B. O'Donnell, D. Athavale, R. Jones, M. Forer, N. Biggs

- 13:14-13:21** A retrospective review of bisphosphonate-induced orbital inflammation
S. Freitag, D. Lefebvre, J. Mandeville, Y. Yonekawa, J. Arroyo, N. Torun
- 13:21-13:28** Mucocele of the orbit with acute severe visual loss
S-L. Peng, P. Archambault, B. Arthurs
- 13:28-13:35** Inverted plaque radiotherapy in malignant orbital tumors: a case series
T. Leivo, J. Heikkonen, T. Kivelä
- 13:35-13:42** Worldwide enucleation techniques and materials for treatment of retinoblastoma – an international survey
D. Mourits, D. Hartong, M. Bosscha, R. Kloos, A. Moll
- 13:42-13:49** Molecular genetic characteristics of melanocytic tumors of the orbit-establishing adequate therapeutic strategies in the treatment of orbital melanomas
UH. Grenzebach, M. Böhm, A. Tsianakas, M. Schiller, T. Spieker, H. Busse, N. Eter
- 13:49-13:56** Unwrapped hydroxyapatite orbital implants: our experience
F. Shams, L. Jawaheer, E. Kemp, P. Cauchi, V. Chadha
- 13:56-14:03** Delayed orbital floor fracture repair, a retrospective study and proposed protocol
B. Beiqi, M. Khandwala, D. Gupta
- 14:03-14:10** Fat-wrapping of extraocular muscles can improve restricted motility after prior orbital fracture repair.
G. Rose
- 14:10-14:17** Triple implant for the reconstruction of the lower part of the orbit
M. Kataev
- 14:17-15:00** Discussion
- 15:00** Closing remarks

Posters

Aesthetic

- P: 1 Chronic eyelid oedema following periocular hyaluronic acid filler treatment
L. Peng, J. T. S. Yu, S. M. Atallah

Eyelid

- P: 2 A case of eosinophilic preseptal cellulitis (wells syndrome) following intravitreal bevacizumab injection
A. Koukoulji, N. Koutroumanos, R. Jolly, H. Henderson
- P: 3 Periorbital necrotizing fasciitis
D.J. van der Werf, T.H. Cornelissen, C.A.E. Eenhorst, R. Kalmann
- P: 4 Superior fornix measurement in cicatricial disease
K. Oktavec, C. Petris, L. Pizzarello, M. Kazim
- P: 5 Eyelid malignant melanoma metastasizing to contralateral eyelid
S. Gore, C. Rene
- P: 6 Ptosis surgery in patients with myasthenia gravis
K. Brogan, K. Crofts
- P: 7 Conservative treatment of a lower lid carcinoma involving the preseptal orbital fat pad: 3 years and a half follow up
M. Vaccaro, R. Bianchini, P. Monaco
- P: 8 Congenital ptosis associated to combined superior rectus, lateral rectus and levator palpebrae synkinesis: first report in the literature
N. Chalvatzis, A. Tzamalís, S. Dimitrakos, R. Harad
- P: 9 Dermis-fat graft for correction of recurrent severe upper eyelid retraction in graves' orbitopathy
B. Kuzmanovic Elabjer, D. Miletic, M. Busic, A. Biscan Tvrdi, P. Reisz Majic
- P: 11 Clinical and histological evaluation of galea graft for posterior lamella reconstruction
N. Panizzo, G. Colavitti, C. D'Aloja, Z.M. Arnez
- P: 12 Merkel cell carcinoma
G. Rivas Dangel, A. Cunha Martins, E. Miyagi Yonamine
- P: 13 The prevalence of glaucoma in patients undergoing surgery for eyelid entropion or ectropion
S. Golan, G. Rabina, S. Keren, S. Kurz, I. Leibovitch
- P: 14 Imiquimod 5% cream for the treatment of periocular basal cell carcinoma
G. Ozturk Karabulut, P. Kaynak, C. Ozturker, K. Fazil, A. Demirok, O.F. Yilmaz
- P: 15 Rhabdomyosarcoma is extremely rare in newborns, especially in the site of upper eyelid. Coincidence of other pediatric solid tumor needs to be considered in the case of congenital rhabdomyosarcoma
Y. Lee, Y. Hsu, S. Yang, T. Huang

- P: 16 Quickert suture using nonabsorbable suture material for lower lid entropion
H. Kim, Y. Ko
- P: 17 Upper eyelid and lacrimal reconstruction with preserved sclera and DSI after resection of sebaceous carcinoma
H. Hideki Tsujii, M. Megumi Kobayashi
- P: 18 Surgical treatment of malignant eyelid tumours – 15 years' experience
Z. Zlatarova, B. Nenkova
- P: 19 Fast growing eyelid melanoma as a cause of floppy eyelid
M. Sredkova, M. Kapurdova, A. Kapurdov
- P: 20 Treatment of pseudotosis with botulinum toxin a
F. Shams, P. Cauchi
- P: 21 Glabellar flap results after extensive medial canthus basal cell carcinoma resection
G. Rivas Dangel, A. Cunha Martins
- P: 22 Keratoacanthoma versus squamous cell carcinoma - a diagnostic and management dilemma
T. Pearsall, A. McElvanney
- P: 23 Successful autologous mucosal grafting in late diagnosed ocular cicatricial pemphigoid: case report
R. Paulaviciene, A. Ruzgys, L. Butkiene
- P: 24 Surgical correction of lower lid retraction in Korean
S. Lee, JW. Jang, S.J. Kim
- P: 25 Epiblepharon repair using periciliary y-v epicanthoplasty
C. Lee
- P: 26 Isolated transient eyelid lag in multiple sclerosis
N. Kim, J. Choi, I. Kim, M. Lee, H. Choung, S. Khwarg
- P: 27 Eyelid trichoblastoma: a rare tumour at an unusual location.
A. Jayaprakasam, C. Rene
- P: 29 Treatment of an eye wounded by severe blunt trauma leading to open globe injury, eyelid lacerations and orbital wall fractures: a case report
C. Ozturker, P. Kaynak, G. Ozturk Karabulut, K. Fazil, Y. Yildirim, A. Demirok, O. F. Yilmaz
- P: 30 Morphological changes during experimental blepharoptosis, its correctability
S. Askerova, A. Shafiev, S. Aslanov, A. Dadasheva
- P: 31 Bupivacaine injection for management of lagophthalmos due to long standing idiopathic facial nerve palsy
M. Rajabi, M. Shadravan, M. Mazlouni, S. Ziaeddin Tabatabaie, S. Simindok Hosseini, M. Bagher Rajabi
- P: 32 Bilateral eccrine hidrocystoma of the eyelid
M. Farag, S. Ismail
- P: 33 Eyelash resection for severe, recurrent cicatricial entropion and segmental trichiasis
A. Murugesan, S. K. Rao

- P: 34 Ectropion management with hyaluronic acid gel fillers in 4 patients with congenital lamellar ichthyosis: 2. year results
P. Kaynak, C. Ozturker, G. Ozturk Karabulut, K. Fazil, A. Demirok, O.F. Yilmaz
- P: 35 The relevance of lower fornix fat prolapse as a measure of involutinal entropion
V. Joganathan, D. Gupta, C. Rai, B. Beigi
- P: 36 Playdoh models are a very effective tool for teaching eyelid anatomy
F. Jazayeri, S. Macleod, S. Webber, R. Manners
- P: 37 Should we perform levator resection in congenital ptosis patients with poor levator function
A. Gupta, M. Naik, T. Dave, M.J. Ali, S. Kaliki
- P: 38 Reconstruction after wide excision in medial canthal region: the extended bilobed glabellar - palpebral flap
N. Panizzo, G. Colavitti, C. D'Aloja, Z. M. Arnez
- P: 39 The tenzel flap as an adjunct in thyroid lower eyelid recession surgery
B. Arthurs
- P: 40 Total upper eyelid reconstruction - a presentation of two cases
Z. Zikic
- P: 41 Corneal topography with upper eyelid platinum chain implantation using the pretarsal fixation technique
I. Mavrikakis, E. Detorakis, S. Baltatzis, I. Yiotakis, D. Kandiloros
- P: 42 Evolution in the choice of ptosis repair techniques over the last decade
J. Larre, C. Brugniard, C. Arndt, A. Ducasse
- P: 43 Comprehensive problems of paralytic lagophthalmos correction
Y. Grusha, N. Iskusnich
- P: 44 Muller's muscle-conjunctiva complex (MMCC) resection for ptosis repair. a retrospective study
M. Araujo, A. Pereira, A. Abreu, D. Dias
- P: 45 Nonsurgical management of eyelid melanoma
M. Varde
- P: 46 A one-stage alternative to the Hughes flap
B. Skippen, A. Hamilton, R. Bengner
- P: 48 Effect of manuka honey on wound healing: randomised controlled study on surgical upper eyelid skin wounds
C. Poitelea, K. Ziahosseini, A. Litwin, S. Sagili, R. Malhotra
- P: 49 Recostruction of medial upper eyelid defects following excision of large xanthelasma palpebrarum with blepharoplasty island rotation flaps
G. Ozturk Karabulut, P. Kaynak, C. Ozturker, K. Fazil, A. Demirok, O.F. Yilmaz
- P: 51 Analysis of lid contour change with aging in Asians: by measuring midpupil lid distance (MPLDS)
H. Lee, S. Baek
- P: 52 The mysterious cases of the droopy lids
K. Koka, B. Mukherjee

- P: 53 Use of a double triangle silicone sling for early repair in congenital ptosis
K. Revere, M. Nazemzadeh, W. Katowitz, J. Katowitz
- P: 54 Chalazion excision effects on ocular aberrations
A. Sabermoghaddam Ranjbar, A. Kargozar, M. Abrishami, S. Zarei Ghanavati
- P: 55 Management of persistent epithelial defect following infectious corneal keratitis by use of therapeutic contact lens as an alternative
T. Pearsall, A. McElvanney
- P: 56 Non-surgical correction of epiblepharon using hyaluronic acid gel
A. Gupta, M. Naik, T. Dave, MJ. Ali
- P: 57 Two cases of ptosis masquerading metastatic breast carcinoma & secondary amyloidosis
S. Stafanous, A. Sorial
- P: 58 New entropion&ectropion methods; step by step surgical photos of how I do it
S. Stafanous, A. Sorial

Lacrimal

- P: 60 A case of intralesional cidofovir injection for recurrent lacrimal sac squamous papilloma
J. Son, SB. Lee, JH. Rho
- P: 61 Classification and clinical characteristics of epiphora with punctal stenosis
H. Ahn, J. Kim, Y. Kwon, W. Ryu, W. Jung
- P: 62 Canalicular laceration repair using mini-monoka mono canalicular stent
T. Abdelghafar
- P: 63 Surgical outcomes of endoscopic dacryocystorhinostomy: analysis of 1083 consecutive cases
S. Yang, SK. Jung, SY. Kim
- P: 64 Nasolacrimal ostium after external dacryocystorhinostomy
E. Turkoglu, N. Aksoy, Y. Aksoy, G. Alagoz
- P: 65 Characterisation of the lacrimal punctum using spectral domain anterior segment optical coherence tomography
H. Timlin, P. Keane, A. Day, T. Salam, M. Abdullah, D. Ezra
- P: 66 Recurrent dacryocystitis secondary to mascara dacryolith
S. Mangat, R. Ford
- P: 68 Surgical outcomes on 1686 cases of nasolacrimal duct obstruction
J. Yang
- P: 69 Is reflux during syringing predictive of outcome after DCR?
L. Tan, A. Abumattar, M. Wasik, R. Khooshabeh
- P: 70 The comparison of the surgical outcome of transcanalicular diode laser assisted dacryocystorhinostomy and external dacryocystorhinostomy in dysfunctional epiphora
C. Ozturker, P. Kaynak, G. Ozturk Karabulut, K. Fazil, A. Demirok, O. F. Yilmaz

- P: 71 Frontal sinus mucocoele formation as a late complication of external dacryocystorhinostomy
A. Malik, I. Syed, S. Osborne, A. Toma
- P: 72 Endoscopic dacryocystorhinostomy following radioactive iodine thyroid ablation
G. Lelli, S. Van Tassel, K. Segal, N. Hsu, A. Kacker
- P: 73 Two cases of lacrimal drainage obstruction caused by proton beam therapy
H. Kashiwagi, H. Fuji, S. Murayana, Y. Ishida, Y. Iida
- P: 74 Nasolacrimal duct obstruction – first sign of malignant lymphoma
S. Schmitzer, C.I. Butea-Simionescu
- P: 75 Vas registration of external DCR in local anesthesia
E. Bohman, E. D. Kopp, K. Gustafsson
- P: 76 Intubation and diagnostic sonography of lacrimal passages in case of nasolacrimal canal obliteration combined with low production of lacrimal fluid
S. Askerova, S. Aslanov, A. Shafiev, A. Dadasheva
- P: 77 External dacryocystorhinostomy: characteristics and surgical outcomes in patients with and without previous dacryocystitis
G. Rabina, S. Golan, S. Keren, M. Neudorfer, I. Leibovitch
- P: 78 “Anterior flap only” external dacryocystorhinostomy is effective in long-term in pediatric patients
Z. Onaran, R. Ogurel, N. Gokcinar, N. Ornek, T. Ogurel, K. Ornek
- P: 79 Keratopography in diagnosing tear film destabilization
A. Dadasheva, S. Askerova, S. Aslanov, A. Shafiev
- P: 80 Punctum-like tissue destruction after transcanalicular diode laser
B. Yeniad
- P: 81 Clinical application of polyether ester urethane in endonasal dacryocystorhinostomy
S. Kim
- P: 82 The comparison of the clinical results of endoscopic dacryocystorhinostomy using a microdebrider
S. Kim, S.H. Jo
- P: 83 DCR laser with masterka intubation
G. Davi, G. Aimino, A. Lobbi
- P: 84 Surgical treatment of tear ducts inflammations: ten-year experience in ophthalmology department of military institute of medicine in Warsaw, Poland
R. Rozycki, D. Bialas, I. Nowak-Gospodarowicz, A. Maliborski, M. Rekas
- P: 85 Lacrimal SAC SCC metastasis to cavernous sinus after DCR
J. Roos, B. Beigi
- P: 86 Lacrimal punctal occlusion with conjunctival flap
B. Yazici, AD. Bilge, F. Naqadan
- P: 87 Tear osmolarity in primary acquired nasolacrimal duct obstruction
A. Yazici, E. Sari, N. Tiskaoglu, S. Ermis

- P: 88 Early mucosal epithelialization of an anastomosis can be obtained with an anterior flap-sparing endonasal dacryocystorhinostomy
T. Sasaki, T. Sounou, C. Miyazaki, M. Hirose, K. Sugiyama
- P: 90 Do we still need external DCR in times of microendoscopic procedures?
A. Krieb, R. Ungerechts, M. Lang, K.-H. Emmerich
- P: 91 Reliability of air bubble test in assessment of anatomical and functional success after external dacryocystorhinostomy
M. Kashkouli, M. Jamshidian-Tehrani, S. Shahrzad
- P: 92 Outcomes of conjunctivodacryocystorhinostomy with metaireau tube
K. Fazil, P. Kaynak, C. Ozturker, G. Ozturk Karabulut, A. Demirok, O.F. Yilmaz
- P: 93 Use of the masterka stent in the treatment of complex and simple congenital nasolacrimal duct obstruction
M. Nazemzadeh, W. Katowitz, J. A. Katowitz
- P: 94 Imaging findings in lacrimal outflow obstruction; ipsilateral versus contralateral nasal septal deviation
A. Heirati, H. Behboudi, MB. Kashkouli
- P: 95 The use of perforated polyvinylpyrrolidone (PVP) punctal plugs in the treatment of symptomatic epiphora secondary to punctal stenosis
A. Abbas, N. Haq, J. Burns, R. Sampath
- P: 96 Lacrimal minitrephine- a useful tool for a lacrimal surgeon
P. Udhay
- P: 97 Method of lacorhinostomy with a modified lacoprosthesis
E. Borzenkova, V. Obodov
- P: 98 Transcanalicular laser-assisted dacryo-cysto-rhinostomy
A. Al-Mujaini, Y. Al-Badai

Miscellaneous

- P: 99 Diagnostic utility of CT dacryocystography
P. Udhay
- P: 100 OPD scan analysis before and after pterygium excision with conjunctival graft
S. Bridan, S. Issa, A. Sabry
- P: 101 Perioperative management of new era anticoagulants in oculoplastic surgery
P. Laubichler, C. Hintschich
- P: 102 Vismodegib (erivedge) - a new drug treatment in multiple eyelid and orbital basalioma; a case report
A. Schoen
- P: 103 Combined treatment of the orbital, palpebral and facial arteriovenous malformation. Case report
A. Ruzgys, R. Paulaviciene, B. Vaisnyte
- P: 104 Multiple endocrine neoplasia type 2B presenting as bulbar conjunctival mass
M. Ha

- P: 105 Adnexal and ocular firework related injuries: the Rotterdam experience
S. Frimmel, T. de Faber, D. Paridaens
- P: 107 Conjunctival myxoid spindle cell lipoma
S. Moorthy, A. Douglass, K. Tumuluri
- P: 108 On-the-day theatre cancellations for an oculoplastic department in a district general hospital
B. Ong, R. Lim, M. Khandwala

Orbit

- P: 109 Surgical results of evisceration and implant insertion in patient with painful blind eye
A. Rahimi, S. Mortazavi
- P: 110 Anatomical landmarks of surgical corridor preparing for orbital floor reconstruction
M. Ozer, F. Govsa, Z. Kazak, S. Erdogmus, S. Celik
- P: 111 Necrotizing dacryometaplasia: case report and literature review
B. Skippen, A. Gal, K. Tumuluri
- P: 112 Proptosis after baerveldt glaucoma implants: a report of 4 cases
A. Rengifo Coolman, W.A. van den Bosch, P.W.T. de Waard, A.D.A. Paridaens
- P: 113 Bilateral optic nerve lymphoma masquerading as posterior ischemic optic neuropathy
F. Pakdel, N. Pirmarzashty, M. Sultan Sanjari, R. Zolfaghari
- P: 115 Lamina cribrosa displacement after optic nerve sheath fenestration in idiopathic intracranial hypertension: new tool for monitoring changes in intracranial pressure?
M. Perez-Lopez, DS. Ting, L. Clarke
- P: 116 Anti IL6 receptor antibody (tocilizumab) influence on inflammatory interleukins levels in peripheral blood mononuclear cells cultures of patients with active thyroid eye disease: in vitro study
A. Leszczynska, E. Fernández, M. González-Candial, M. Chang, S. Ortiz, E. Gallardo
- P: 117 Comparison of exophthalmos measurement using Hertel exophthalmometry and two-dimensional computed tomography in normal subjects and patients with thyroid orbitopathy
M. Lee, K.J. Choi, Y.J. Choi, H-K. Choung, N. Kim, S.J. Khwarg
- P: 118 The effect of stereotactic navigation system during orbital decompression for thyroid-associated orbitopathy
J. Lee, KS. Lim
- P: 119 Therapy of an extended squamous cell carcinoma of the lid and orbit with cetuximab in combination with electrochemotherapy
M. Emesz, K. Saria, M. Rasp, EM. Art, EM. Krall, S. Kaya, FM. Bauer
- P: 120 Montelukast associated Churg Strauss syndrome with orbital inflammation
L. White, M. Khandwala, R. Lim, B. Ong
- P: 121 Periorbital nodular fasciitis in pregnancy: case report and review of the literature
K. Tumuluri, B. Skippen

- P: 123 An acute inflammatory proptosis revealing a rare case of orbital tuberculosis
E. Sztermer, F. Gobert, S. Faure, E. Besancon-Marissal, B. Gombert
- P: 124 Periorbital myofibroma presenting as a lacrimal sac mass
C. Petris, K. Oktavec, M. Kazim
- P: 125 Sclerotherapy as an alternative to surgery for paediatric orbital lymphangioma – a case series
K. Patel, G. Kalantzis, B. Chang, A. Barnacle
- P: 126 Rectus muscle fixation to orbital wall using titanium plate for severe recalcitrant strabismus
F. Pakdel, R. Asadi, M.S. Sanjari, N. Pirmarzashty
- P: 127 Rhabdomyolysis presenting with orbital apex syndrome
M. Chi, J. Wi, H. Moon, D. Nam
- P: 128 Superior ophthalmic vein thrombosis complicated with central retinal artery occlusion presenting as the initial manifestation of antiphospholipid syndrome
M. Altinisik, A. Koytak, E. Toklu, F. Hidayetov, B. Toz, M. Atay, E. Asoglu, K. Tuncer
- P: 129 Herpes zoster ophthalmicus presenting as orbital cellulitis – a case report
H. Su
- P: 130 Retrobulbar haemorrhage: a literature review and management algorithm
M. Saldana, B. Beigi
- P: 131 Graves orbitopathy in children and adolescents
A. Papp, G. Dorner, T. Neumayer, B. Kiss
- P: 132 Orbital xanthogranuloma and Erdheim-Chester disease
S. Moorthy, S. Taylor, K. Tumuluri
- P: 133 Two novel presentations of ocular plexiform neurofibroma
A. Malik, R. Bonilla, J. Uddin, S. Osborne
- P: 134 Subconjunctival herniated orbital fat mimicking adipocytic neoplasm - a case report
CC. Lin, CC. Chen, SW. Liou
- P: 135 Thyroid eye disease - a south-east Asian experience
N. Lim, KO. Lee, S. Amrith, G. Sundar
- P: 136 Extraocular extension of choroidal malignant melanoma in our cases
K. Korányi, B. Salomváry, E. Tóth, A. Bajcsay
- P: 137 Differences of the orbital volumes after inferior orbital wall fracture reconstruction operation with various reconstruction materials
S.W. Seo, W.S. YOO, Y.W. CHO
- P: 138 Significance of primary implantation of orbital implants in evisceration and enucleation on functional and aesthetic effect of medical and prosthetic treatment
M. Bogdanovic, DJ. Obucina, N. Micanovic, J. Ljekar, S. Stojiljkovic
- P: 139 Human umbilical cord blood cells and chorionic plate derived mesenchymal stem cells promote axon survival of optic nerve crush in rats
S. Rho, G. Kim, SR. Kim, KH. Baek, M. Kang, H. Lew

- P: 140 Surgical outcomes of deep superior sulcus augmentation using acellular human dermal matrix
S. Yang, WK. Cho, SY. Kim
- P: 141 Optic nerve avulsion iconography: about one case
F. Thoumazet, C. Paya
- P: 142 Excision of the eyeball with shaver evisceration
A. Krushinin; M.I. Shlyakhtov
- P: 143 Unusual presentation of orbital cavernous haemangioma with acutely painful proptosis due to thrombosis
A. Jayaprakasam, C. Rene
- P: 144 Update in the varying faces of silent sinus syndrome
M. Garcia Vilaro, J. Uddin, D. Ezra, R. Jayaram, T. Abad, M. Manisali

Social Program

Welcome Reception – Europa Boat

Thursday, September 11th at 19.00 – 21:00

Dress code: business casual

Europa boat will be at the Pest side of the river Danube bank (same as the Kempinski Hotel), next to the Chain Bridge.

The boat will leave the pier at 19:15 and it will dock again at 20:30. Arriving after 19:15 or leaving before 20:30 is not possible.

The Welcome Reception is **only for the registered participant**, excluding their companion. To enter the boat **the badge is mandatory!**

Guided walk (~8 min.) leaves from Kempinski Hotel to the boat at 18:45. Please join.

Gala Dinner – Záborszki Cellar – Wine and Music

Friday, September 12th at 20.00h.

Dress code: appropriate dressing for dinner and disco

Important note: temperature is ~21°C

Not included in the registration fee.

To attend the Gala dinner the “Gala Dinner Voucher” will be needed. The vouchers will be provided at the registration desk if the Gala Dinner fee is paid.

An organized transfer will leave at 19:30 from the Kempinski Hotel.

General Information about Budapest

Insurance

It is recommended that delegates arrange an appropriate travel and health insurance prior to travelling.

Currency

The local currency is Hungarian Forint (HUF).

ATM machines found everywhere from where local currency can be obtained. Foreign currencies can be easily exchanged in banks and exchanges offices. There are several banks near the meeting venue, and there are exchange offices at the airport, railway stations and many other location.

Time

Hungary is in the Central European Time Zone (CET): GMT +1 hours.

Smoking

Smoking is forbidden by law in public transportation and also at the stations and in public buildings and restaurants. Smoking is not permitted inside the conference building.

Tipping

Tipping is optional, but normally 10% is customary in taxis, restaurants and bars.

Taxi

Budapest taxis are usually yellow colored. It is compulsory for them to use a taximeter and they can also give a receipt. Here are some taxi companies: Főtaxi: +36-1-222-2222; Budapest Taxi: +36-1-777-7777; Tele5Taxi: +36-1-555-5555

Airport

Please pay attention to arrive at the Liszt Ferenc Airport at least 2 hours before the planes departure time because of the security control.

Emergency number: 112

Ambulance: 104

Police: 107

Firefighters: 105

Sights of Interest

For more information please visit: <http://www.esoprs.eu/2014/budapest>

Budapest Eye

Enjoy the spectacular sight from above at Erzsébet Square, in the heart of the city, in front of Hotel Kempinski.

The Parliament and its treasures

The world's 3rd largest parliament and it is also called The Jewelry box which is really stands for its name and therefore worth to be visited.

Built between 1885 and 1904, the Parliament building soon became the symbol of the Hungarian capital. Not just because it's sheer size – nearly 18000 square meters –but also because of its detailed decoration, inside splendor and eclectic diversity.

The Castle District

The Castle district of Budapest reflects a medieval atmosphere with its picturesque narrow streets and old citizen houses. The Royal Palace houses different museums and exhibitions. Allow yourself time to walk around at the Buda side of the river Danube.

St. Stephen's Basilica

Saint Stephen's Basilica is the largest Roman Catholic Church in Budapest. It has the second highest ecclesiastical status in Hungary and has a majestic view from its bell tower.

Central Market Hall

Enjoy the stunning architecture and a fantastic market with fish on the basement floor; meats, fruits and vegetables on the ground floor and handicrafts and food stalls on the first floor.

Budapest Ruin Pubs

Budapest is famous for its variety ruin pub. The beginning of the 21st century was an exciting turning point in the nightlife of Budapest: in the central area of the city new places were opened one after another in tenement houses and factory buildings doomed to destruction. These were equipped with rejected furniture of old community centers, cinemas, and grandmothers' flats, bringing a retro feeling into these places. They were soon called ruinpubs and became very popular - ruinpub is the exact translation of the Hungarian name. Many can be found within walking distance of the Kempinski Hotel.

Shopping Street areas

Budapest famous shopping street, the Váci Street starts from Vörösmarty Square right next to Kempinski Hotel in a pedestrian area. There are several shops, souvenirs, coffee houses. Indulge yourself at one of the many coffee houses of Budapest, like the Gerbeaud Confectionary. Hungary's largest mall, the WestEnd City Center, which is opened till 9 pm. and located 2 metro stops from Kempinski Hotel with the blue line towards Újpest Központ.

Thermal Baths

Budapest is also called the Capital of Spa. There are approximately 130 thermal springs. It is worth to visit a thermal bath or spa like Széchenyi Bath (open 6 am. to 10 pm.) or Gellért Bath (4 stops from Kempinski Hotel by the tram 47 or 49) or one of the Turkish spas like Lukács, Rudas or Király spas.

Restaurants

Walking Distance

Restaurant Callas – formal **Andrássy Blvd. 20., 1062 Budapest**

Restaurant Callas located in the centre of the city on the Andrassy Avenue, next to the beautiful Opera House. Its cuisine is international, and don't forget to taste their desserts made by their master confectionery.

Restaurant Tom George – casual **Október 6. St 8., 1051 Budapest**

Tom George is an ultimately trendy restaurant in downtown Budapest, close to St. Stephen's Basilica. The interior design is modern, laid-back, elegant and unpretentious as a whole. The menu is truly international, reflecting culinary traditions from all corners of the world, including Mediterranean, Indian, and naturally Hungarian.

Spoon café and Lounge – casual **Vigadó Sq. – 3rd pier, 1052 Budapest**

What better way to enjoy the beautiful evening panorama of Budapest than having a meal on a boat restaurant. Spoon cafe and lounge is a standing boat on the River Danube. During the dinner the widest panorama of the Buda Castle can be observed.

Gerbeaud Brewery- casual **Vörösmarty Sq. 7-8., 1051 Budapest**

In the heart of the city at the end of the pedestrian zone, a relaxed and fun brewery restaurant located under the roof of the famous Gerbeaud café house. The nobly-rustically furnished and decorated premises offer a tremendous atmosphere and the appropriate, relaxed setting for meeting contacts – whether it be for a quick business lunch, a pleasant dinner, or a beer after hours.

Easy to reach

Restaurant Gundel – formal **1146 Budapest XIV, Állatkerti St. 2**

The best and most prestigious restaurant of Budapest where kings and prime ministers were invited. Established at the beginning of the last century by Karoly Gundel next to the impressive Heroe's Square. Its cuisine is combining the

traditional Hungarian cuisine with the international taste. Has an elegant and luxurious dining room with a unique Art Nouveau atmosphere. Jackets are required for gentlemen in the evenings.

Restaurant Robinson- casual **1146 Budapest XIV, Városligeti tó (City Park Lake)**

Like its namesake, Robinson Crusoe, this lovely glass pavilion sits on an island, only this island is not deserted but filled with guests

enjoying the enchanted atmosphere of an oasis amidst the lake in Budapest's City Park right next to the Hero's Square. It has superb setting in which to enjoy an imaginative array of fine food and drink, while the swans and ducks cavort nearby.

Restaurant Fisherman's Bastion – formal **Halászbástya, 1014 Budapest**

The Fishermen's Bastion (Halászbástya) is the most peculiar sight of Castle District. It is a diadem of Budapest, part of the World Heritage, a unique place for a restaurant. Crystal lustres of unique design draw the hall into luminosity. In case of good weather it has a great terrace overlooking the river Danube and its banks. The Knight Hall, which was formerly used as an exhibition room, now features dining tables of

different sizes. From all the floors of the building, guests can enjoy the fascinating sight of the city.
