## Internship Announcement

### Overview of The company

Kinepict Health Ltd. is a Budapest based Hungarian start-up bringing to the market a revolutionary medical imaging technology which benefits both patients and doctors.

Please visit our site to find out more about the company: [www.kinepict.com](http://www.kinepict.com)

In medical diagnostics, X-ray imaging is the most common method but it has many side effects. Our team has developed an innovative approach that reduces the current risk and generates much better images. Kinepict's patented technology, makes angiography safer by reducing contrast medium and X-ray dose and provides extra information to facilitate better diagnosis.

### Internship

We are looking for intern students interested in

- **radiology** to join the work on analyzing x-ray angiography image series
- **image processing** to join the efforts of developing new medical image analysis and representation tools
- **marketing strategy** to participate in the development of a post COVID sales and marketing strategy of the Kinepict software product

to join our team.

### Requirements

- Fluent English knowledge
- Interest in the life of start-ups
- Willingness to participate in a real innovation-value-creating activity for 3+ months
