

Session 1: Psychiatry, Neurology, Behavioral Medicine

1st place	Máté Baradits, MD	Altered biological motion processing in patients with schizophrenia: a high-density EEG event related potential study
2nd place	Rita Stang, MD	Delayed Transient Hyperemic Response recorded by transcranial Doppler sonography. Recommendation of a new common carotid artery compression index
Special award	Orsolya Szalárdy, MD	Interictal epileptiform discharges associated with sleep spindles in the human anterior and mesodorsal thalamus
Special award	András Lékó, MD	Genes involved in the maternal adaptation of the central nervous system - an RNA- Seq study in the rat

Session 2: Cardiology, Hematology, Medical Imaging

1st place	Júlia Weisinger, MD	Tyrosine Kinase Inhibitor Therapy in Chronic Myeloid Leukemia – A Single Center Experience
2nd place	Bence Bártai	Liquid Biopsy-Based Monitoring of Ezh2 Mutations in Follicular Lymphoma: Implications for Non-Invasive Disease Monitoring and Targeted Therapy
Special award	Máté Magyar, MD	The importance of MR Imaging in stroke

Session 3: Case Reports, Dermatology, Intensive Care, Public Health

1st place	Dominik Németh, MD	Preservative hypersensitivity according to different ages
2nd place	Botond Simon, MD	Application of intraoral scanner to identify monozygotic twins
Special award	Csenge Pajtók, MD	The effect of high-NaCl intake on skin tissue remodeling

Session 4: Pediatrics, Nephrology, Pulmonology

1st place	Dorottya Csuka, MD	New insights into the pathophysiology and classification of complement-mediated renal diseases
2nd place	Ákos Roland Tóth	Long-term effects of perinatal asphyxia on multi-organ injury
Special award	Vivien Somogyi, MD	Interstitial lung disease in CVID (GLILD): clinical presentation and comparison to CVID without ILD
