

REQUIREMENTS

Semmelweis University Faculty of Dentistry Department of Conservative Dentistry
Name of the subject: Restorative Dentistry and Endodontics III Credit value: 3 Lessons (in hours): 56 lectures: 0 practices: 4 seminars:- Type of the course: <u>compulsory</u> obligatory elective elective Frequency of announcement (per semester or year): per year (8th Semester)
Academic year: 2023/2024 Academic year - 2 nd Semester - ascending system
Subject code¹:
Subject Leader Name: János Vág DMD, PhD Contact: Department of Conservative Dentistry, 1088 Budapest, Szentkirályi u. 47. Phone: +361-317-1598 Function: clinical director, university professor
The objective of the subject and its place in the medical curriculum: Thorough patient examination, taking of medical and dental history, stomato-oncological screening, establishing the diagnosis, preparing a treatment plan, removing calculus, routine application of isolation procedures, preparation and restoration of simple and complex cavities, root canal treatment of single and multi-rooted teeth, and learning dental assistance.
Location of the subject (address of lecture hall, seminar room etc.): Dental Educational Center, Department of Conservative Dentistry, 1088 Budapest, Szentkirályi u. 47.
Competences acquired on successful completion of the subject: Ability to admit patients independently, make a diagnosis after making a general and dental history, make an appropriate treatment plan, assist, and perform the necessary conservative dental interventions more and more independently, but under the supervision of a practice leader.
Prerequisite(s) for enrolment in or learning of the subject: <ul style="list-style-type: none">- Restorative Dentistry and Endodontics II- Prosthodontics II- General and Dental Radiology I
The number of students required to start a course (minimum, maximum), the way students are selected: -

<p>How to apply for the course: Via the Neptun system</p>
<p>Detailed topic of the subject ²: <i>(to facilitate credit recognition in other institutions)</i></p> <p>The subject is taught four practical hours per week, with no lectures.</p> <p>During the practices, clinical care is provided for patients requiring conservative dental care under the supervision of an instructor. The students work in pairs and take turns to assist each other.</p>
<p>Courses (<i>obligatory and elective</i>) which in part or entirely overlap the topics of above course:</p> <p>Successful completion of the course lays the foundation of student patient care within the framework of Restorative Dentistry and Endodontics subject and later, in the 5th year, the Clinical dentistry subject, so the knowledge acquired here expands.</p>
<p>Specific coursework required for successful completion of the subject³: -</p>
<p>Attendance requirements and the possibility of making up for absences:</p> <p>Attendance at the practices is compulsory, and absences at any one practice may not exceed 25% of the total number of practices. Arriving late to the practices less than 15 minutes results in one absence after three times. Arriving late to the practices of more than 15 minutes counts as an absence. There is no possibility to make up a missed practice. No certificate is necessary in case of absence.</p>
<p>Method of checking acquired knowledge during the study period⁴:</p> <p>Students must arrive prepared for the practice, which is regularly checked and evaluated orally and/or in writing by the supervisor.</p> <p>The students will write a midterm exam on endodontics based on the knowledge gained from lectures, practices, and textbooks in endodontics. It is written at a particular time announced at the beginning of the year (preferable on week 10). If a student does not achieve a passing score on an exam the first time, the candidate can retake the exam in two weeks. A maximum of two additional attempts for the retake will be provided. It will be assessed in accordance with the procedure laid down in the Study and Examination Regulations of Semmelweis University.</p> <p>The work carried out on the practices will be monitored and assessed by the practice leaders at each stage. The results of the evaluations are included in the semester rating.</p>
<p>Requirements of an accepted semester (<i>signature of the lecturer</i>):</p> <p>A minimum of 75% attendance is required at the practices, and absence may not exceed 25% of the practices regardless of the reason.</p> <p>The signature of the semester, a sufficient level of continuous and consistent theoretical preparation, the passed demonstration, and a sufficient level of practical performance are required. The average grade of the theoretical part and the average grade of the practical part must separately reach the 2.0-grade.</p> <p>By week 13, a photo-documented case report of the student's work must be submitted to the practice leader.</p>
<p>Type of the exam: Practice mark</p>
<p>Requirements of the exam⁵:</p> <p>---</p>
<p>Grading of courses⁶:</p> <p>The grading for practice is based on a five-point scale. The supervisor gives the practical grade based on</p>

the oral and/or written tests, the practical performance, the result of the demonstration, the case report, and the student's attitude towards the subject and his/her peers.
