

## **NOTICE**

FOR GENERAL MEDICINE STUDENTS ABOUT THE TEACHING ACTIVITY OF THE  
INSTITUTE OF MEDICAL MICROBIOLOGY  
ACADEMIC YEAR 2023/2024, FALL SEMESTER

**Study Administration:** every workday, after fixed appointment, NET building, 10<sup>th</sup> floor,  
[ghidan.agoston@semmelweis.hu](mailto:ghidan.agoston@semmelweis.hu)  
phone: **+36208259715**

Website of the Institute:  
<http://semmelweis.hu/mikrobiologia/>  
Information is mainly communicated through the Moodle surface.

### **The prerequisite for obtaining the signature according to SER:**

During the semester, a maximum of 3 **absences** from practices are allowed. Please be in time, arriving more than 5 minutes late 3 times during the semester is considered 1 absence.

The students must pass the two written **midterms** with a 70%-70% score to get the signature. To participate at the competition 80-80% results are necessary. The first midterm will be written at week 5 and the second one at week 8. The material for the first midterm is Protozoology and Helminthology (Practice 1-4 and Lectures 1-3). The material for the second midterm is Mycology, General Virology, DNA Viruses (Practices 5-7 and Lectures 4-7). The unsuccessful midterm must be repeated within one week.

**Practical exam:** must be taken on the last week of the course. The unsuccessful practical exam can be repeated on the same week, for Friday groups the retaking will be on the first day of the exam period. Material of the practical exam will be announced on Moodle.

**Competition:** The competition is planned to be organised in November. Requirement to taking part at the competition is passing the two midterms at first semester and two midterms at second semester with 80%-80% scores. Top-

ics of the competition: systemic bacteriology, antibiotics, vaccines, serology. The students who reach at least 70% on the competition will get exemption from the second question on the final exam (systemic bacteriology). At retake exam the exemption will be lost. More information regarding the competition will be announced later.

### **Final examinations:**

Sign-up and alteration of examination dates: through the NEPTUN system.

Examination days: according to Neptun.

The minimum questions with the expected answers and the oral exam topics will be uploaded to the Moodle surface.

Entry test: To enter the oral exam, students must pass the written entry test in which 20 minimal questions will be asked, 4-4 questions each from 5 topics: general microbiology, systemic bacteriology, mycology, virology, parasitology. To pass the entry test, at least 50-50% result is required at each topics. Failing to get 50% of the answers right results in failing the exam.

Oral exam: Students pick a card with 5 questions from 5 topic lists which they need to present orally. Students need to give satisfactory answers for all 5 topics to pass the exam.

Students need to present a picture ID at the exam. Students must not leave the room after choosing a card.

For retake exam you may request extra exam spots via email.

Budapest, 31.08.2023.
