

Action plan

based on student's feedback after the 2022/2023 Academic year

Subject: Intermediate knotting and suturing techniques

Neptun-code: AOSKMI814_1A

Semester: 1st

Language: English

Department: SU, Heart and Vascular Center, Department of Surgical Research and Techniques

Faculty: Faculty of Medicine

Referring to the student evaluations the 1st semester of the academic year 2022/2023 the teachers of the Department of Surgical Research and Techniques prepared the following action plans for the education of medical students from 4th to 6th years.

Statistics for the semester:

3 hs lectures, 11 hs practice, 20 registered students, 15 (44.12 %) valid assessment

The average response rate was higher in case of 12 questions from 14 than the Faculty's average (except 2 questions: DK1 and K09).

There were 2 comments from students, which were directed at the days off for block education.

Action: on the next semester we will also try to hold the course to Hungarian, to English and to German students on their weekly day off.

Thank you for your praise of the course and the teachers.
