The students' opinions and suggestions about the subject:

- Bármilyen kérdés/probléma esetén segítőkészen állt rendelkezésünkre.
- Very well explained and structured and a fantastic environment to learn.
- Fantastic
- Well, taught out program. with good, detailed explanation, and a good environment to ask questions. The technique- I believe - has very high yield and will serve those of us wishing to specialize in surgery well.
- Hiánypótló tárgy. Örömmel fogadnám ha több hasonló kurzus elérhető lenne. Maximálisan elégedett vagyok.

Departmental response:

Thank you to the students for the positive feedback regarding our elective course. In teaching our course, we strive to provide our students with the most professional knowledge possible.
