What may also be useful:

- **Setting a profile picture is required upon first login**
- **The ‘Help’ tab is useful but general: it may describe features that we do not use at Semmelweis**
- **All menus, columns, and views can be customized**
- **There is no mobile application available; however, the interface works on all devices**
- **You will receive a system message upon login about any current and important information — always pay special attention to these.**
- **In the ‘Favorites’ menu, you can save your frequently used pages, so you can access them with a single click**
