

SEMMELWEIS UNIVERSITY

Faculty of Medicine

Department of Pathology, Forensic and Insurance Medicine

Director

Prof. Dr. András Kiss M.D., Ph.D., D.Sc.

Thesis titles of Pathology for the 2023/2024 academic year

Prof. Dr. Janina Kulka	The estrogen receptor negative breast cancer
Prof. Dr. Janina Kulka	Triple negative breast cancer
Prof. Dr. Janina Kulka	Metastatic breast cancer
Prof. Dr. Janina Kulka	The role of core needle biopsy in oncological treatment of breast cancer
Prof. Dr. Janina Kulka	Prognostic factors of solid tumors
Dr. Anna-Mária Tőkés	Clinicopathological analysis of HER2 positive breast tumors
Dr. Anna-Mária Tőkés	Tumor microenvironment in breast cancer
Dr. Lilla Madaras	Clinicopathologic Features and Prognosis of Pregnancy Related Breast Cancer
Dr. Lilla Madaras	Clinicopathologic Features of Breast Cancer affecting Young Women (Early-onset Breast Cancer)
Dr. Lilla Madaras	Molecular pathology of endometrial carcinoma
Dr. Lilla Madaras	Clinicopathological features of endometriosis and associated neoplasia
Dr. Lilla Madaras	Hereditary gynecological tumour syndromes
Prof. Dr. József Tímár	Significance of tumor induced angiogenesis
Prof. Dr. József Tímár	Molecular pathology of primary kidney diseases
Prof. Dr. József Tímár	The prognostic and predictive pathology of solid tumors
Prof. Dr. András Kiss	Differential diagnosis of focal hepatic lesions
Prof. Dr. András Kiss	Analysis of cell adhesion molecules in primary colorectal tumors and in their liver metastases
Prof. Dr. András Kiss	MicroRNA expression analysis in primary colorectal tumors and in their liver metastases, in liver tumors
Prof. Dr. András Kiss	Analysis of cell adhesion molecules in primary and metastatic liver tumors

SEMMELWEIS UNIVERSITY

Faculty of Medicine

Department of Pathology, Forensic and Insurance Medicine

Director

Prof. Dr. András Kiss M.D., Ph.D., D.Sc.

Prof. Dr. András Kiss

MicroRNA expression analysis in primary and metastatic liver tumors

Prof. Dr. András Kiss

Analysis of cell adhesion molecules in squamous cell tumors

Dr. Katalin Borka

Analysis of clinicopathological prognostic markers in neuroendocrine tumors of the pancreas

Dr. Eszter Székely

The role of fine needle aspiration biopsy

Dr. Attila Kovács

Postmortem analysis of metastatic pattern of malignant tumors

Dr. Magdolna Kardos

Modern diagnostic and therapeutic aspects of membranous nephropathies

Dr. Magdolna Kardos

Morphologic and clinical analysis of diabetic nephropathy

Dr. Magdolna Kardos

Clinicopathological features of renal diseases presenting proteinuria

Dr. Magdolna Kardos

Clinicopathological features of podocytopathies

Dr. Jeannette Tóth

Malignant tumors affecting the uvea

Dr. Zsófia Kramer

Correlation of placental histology with maternal and foetal diseases

Dr. Deján Dobi

Clinical relevance of histological changes in the transplanted kidney

Dr. Deján Dobi

Clinical relevance of histological changes in lupus nephritis
